Losing In Place:

Losing Place Johnathan Bascom, 2001-09-01 Refugee flight settlement and repatriation are not static self contained or singular events Instead they are three stages of an ongoing process made and mirrored in the lives of real people For that reason there is an evident need for historical and longitudinal studies of refugee populations that rise above description and trace the process of social transformation during the full circle of flight resettlement and return home This book probes the economic forces and social processes responsible for shaping the everyday existence for refugees as they move through exile

Losing Ground David M. Burley, 2010-04-26 What is it like to lose your front porch to the ocean To watch salt water destroy your favorite fishing holes To see playgrounds and churches subside and succumb to brackish and rising water The residents of coastal Louisiana know For them hurricanes are but exclamation points in an incessant loss of coastal land now estimated to occur at a rate of at least twenty four square miles per year In *Losing Ground* coastal Louisianans communicate the significance of place and environment During interviews taken just before the 2005 hurricanes they send out a plea to alleviate the damage They speak with an urgency that exemplifies a fear of losing not just property and familiar surroundings but their identity as well People along Louisiana s southeastern coast hold a deep attachment to place and this shows in the urgency of the narratives David M Burley collects here The meanings that residents attribute to coastal land loss reflect a tenuous and uprooted sense of self The process of coastal land loss and all its social components from the familial to the political impacts these residents concepts of history and the future Burley updates many of his subjects narratives to reveal what has happened in the wake of the back to back disasters of Hurricanes Katrina and Rita **Places - of loss and found**

Far more than a handbook, *The Intent to Live* is the personal credo of a master teacher. Moss's respect for actors and love of the actor's craft enliven every page, together with examples from a wealth of plays and films, both current and classic, and vivid appreciations of great performances. Whether you act for a living or simply want a deeper understanding of acting greatness, *The Intent to Live* will move, instruct, and inspire you.

Code of Federal Regulations, 1992. Special edition of the Federal Register containing a codification of documents of general applicability and future effect with ancillaries. **Code of Federal Regulations**. United States. Internal Revenue Service, 2008. Special edition of the Federal register containing a codification of documents of general applicability and future effect as of April 1 with ancillaries. **Motor Age**, 1914. **1 & 2 Samuel**. David H. Jensen, 2015-08-24. The episodes in 1 and 2 Samuel are striking in their depiction of human characters: priests, soldiers, kings, prophets, and royal advisers, but also significant in how they narrate the central character of this history: the God of Israel. History in these books is not simply an accounting of royal intrigue, military battles, and socio-economic struggle, but the stage upon which God reveals God's very self. First and Second Samuel relay some of the most memorable vignettes in all Scripture: the call of Samuel, David's battle with Goliath, and David's seizure of Bathsheba as his wife, and discover in them the hand of God. From the introduction, First and Second Samuel describe the beginnings of monarchy in ancient Israel and introduce us to intriguing characters: Samuel, prophet, priest, and judge; Saul, the tragic figure who becomes Israel's first king; and David, Saul's celebrated successor and Israel's key leader whose influence endured for generations. But as Jensen makes clear in his splendid commentary, there is another figure who is a central character: God. Throughout his theologically rich treatment of these biblical books, Jensen explores what makes these texts important for us. He suggests that we read 1 and 2 Samuel because they reveal the complexities of the human person, the ambiguities of our social arrangements as nations, and God's agency in a conflicted world. Jensen notes that as we are shaped by and grapple with the biblical stories, we are invited to find our own stories within them. What keeps us coming back to faith, he says, is its stories, stories that tell the truth about the human condition, our shared corporate life, and the life God gives to the world.

[Lewis Creek Lost and Found](#). Kevin T. Dann, 2001. Well known for his imaginative treatment of environmental issues, Kevin Dann presents a natural history of the Lewis Creek watershed in Vermont's Champlain Valley, told largely through the lives and thought of three individuals whose investigations brought them into close contact with the area. Congregationalist minister John Perry, 1825-1872, conducted

paleontological research on the region's Paleozoic rock and attempted to negotiate his era's confrontation between science and religion Rowland Robinson 1833-1900 was a Quaker farmer and author artist whose historical fiction often dealt with issues of human impact on this watershed The first plant hunting expeditions of another Quaker farmer and noted plant collector Cyrus Pringle 1838-1911 took place in this watershed as well Dann's account of these three men whose lives span nearly a century graphically illustrates contemporary human nature relationships at the same time that it suggests the limits of science in circumscribing our experience of the physical landscape The experience of pain and loss is documented along with the stories of success and celebration since as Dann writes Genuine places like human hearts have dark recesses within them and by examining these recesses within the Lewis Creek watershed we take a small step toward demythologizing Vermont *The Pilgrim's Progress from this World to that which is to Come ..
