**Losing My Mind** Thomas DeBaggio, 2002-04-05 When Tom DeBaggio turned fifty seven in 1999 he thought he was about to embark on the relaxing golden years of retirement time to spend with his family his friends the herb garden he had spent decades cultivating and from which he made a living Then one winter day he mentioned to his doctor during a routine exam that he had been stumbling into forgetfulness making his work difficult After that fateful visit and a subsequent battery of tests over several months DeBaggio joined the legion of twelve million others afflicted with Alzheimer s disease But under such a curse DeBaggio was also given one of the greatest gifts the ability to chart the ups and downs of his own failing mind *Losing My Mind* is an extraordinary first person account of early onset Alzheimer s the form of the disease that ravages younger more alert minds DeBaggio started writing on the first day of his diagnosis and has continued despite his slipping grasp on one of life s greatest treasures memory In an inspiring and detailed account DeBaggio paints a vivid picture of the splendor of memory and the pain that comes from its loss Whether describing the happy days of a youth spent in a much more innocent time or evaluating how his disease has affected those around him DeBaggio poignantly depicts one of the most important parts of our lives remembrance and how we often take it for granted But to DeBaggio memory is more than just an account of a time long past it is one s ability to function to think and ultimately to survive As his life becomes reduced to moments of clarity the true power of thought and his ability to connect to the world shine through and in DeBaggio s case it is as much in the lack of functioning as it is in the ability to function that one finds love hope and the relaxing golden years of peace At once an autobiography a medical history and a testament to the beauty of memory *Losing My Mind* is more than just a story of Alzheimer s it is the captivating tale of one man s battle to stay connected with the world and his own life **A**

**Subject Guide to Books in Print**, 1971 **When It Gets Dark** Thomas DeBaggio, 2007-11-01 Adeptly navigating between elegy and celebration fear and determination confusion and clarity DeBaggio delivers an exquisitely moving and inspiring book that will resonate with all those who have grappled with their own or their loved ones memory loss and with death With his first memoir *Losing My Mind* Thomas DeBaggio stunned readers by laying bare his faltering mind in a haunting and beautiful

meditation on the centrality of memory to human life and on his loss of it to early onset Alzheimer's disease. In this second extraordinary narrative he confronts the ultimate loss that of life. And as only DeBaggio could, he treats death as something to honor, to marvel at, to learn from. Charting the progression of his disease with breathtaking honesty, DeBaggio deftly describes the frustration, grief, and terror of grappling with his deteriorating intellectual faculties. Even more affecting, the prose itself masterfully represents the mental vicissitudes of his disease. DeBaggio's fragments of memory, observation, and rumination surface and subside in the reader's experience much as they might in his own mind. His frank, lilting voice and abundant sense of wonder bind these fragments into a fluid and poetic portrait of life and loss. Over the course of the book, DeBaggio revisits many of the people, places, and events of his life, both in his memory and in fact. In a sense, he is saying goodbye, paying his respects to the world as it recedes from him, and it is a poignant irony that even as this happens, he is at the height of his remarkable descriptive powers. In his moments of clarity, his love for life's details only grows deeper and richer: the limestone creek where he has fished for years, his satisfying and lonely herb farming days, the goldfish pond his son designed and built in his backyard in honor of DeBaggio's passion for any hole in the ground with some liquid in it, the thirty years in his beloved home in Arlington, Virginia, his early career as a muckraker, the innumerable precious moments spent with his wife and son, his belated grief over his parents' deaths.

**A Stranger in the House** Jacqui Smith Reed, 2011-09-19 It was on a cold wintry day in the year 2001 that Alzheimer's disease unexpectedly, without warning or permission, appeared at the Reeds' New York doorstep and made its presence known in the lives of Ron and Jacqui Smith Reed. In this memoir, Jacqui shares her reflections, frustrations, feelings, and truths learned during the time her husband suffered from Alzheimer's disease. Written from the heart, learned from the mind, and driven by the spirit, *A Stranger in the House* presents a firsthand look at how this disease affects the patient, the caregiver, the family, and friends. Begun as a daily journal to help Jacqui cope, this memoir describes the challenges of daily life and provides a look at the resources she used to help her deal patiently with her husband, who had become a man she didn't recognize. Emotional and honest, *A Stranger in the House* gives insight into the treacherous journey experienced by the loved ones of those diagnosed with Alzheimer's disease.

My Father's Brain Sandeep Jauhar, 2023-04-11 Named a best book of the year by *The New Yorker*, a Smithsonian top ten science book of 2023, one of AARP magazine's favorite books of 2023. Blending the humor, compassion, and absorbing family drama of first-rate memoir with expert science writing, Sandeep Jauhar has composed a can't-miss introduction to what has been called the Age of Alzheimer's. Sanjay Gupta, author of *Keep Sharp* and *World War C*: A deeply affecting memoir of a father's descent into dementia and a revelatory inquiry into why the human brain degenerates with age and what we can do about it. Almost six million Americans; about one in every ten people over the

age of sixty five have Alzheimer's disease or a related dementia and this number is projected to more than double by 2050. What is it like to live with and amid this increasingly prevalent condition, an affliction that some fear more than death? In *My Father's Brain*, the distinguished physician and author Sandeep Jauhar sets his father's struggle with Alzheimer's alongside his own journey toward understanding this disease and how it might best be coped with if not cured. In an intimate memoir rich with humor and heartbreak, Jauhar relates how his immigrant father and extended family felt quarreled and found their way through the dissolution of a cherished life. Along the way, he lucidly exposes what happens in the brain as we age and our memory falters and explores everything from ancient conceptions of the mind to the most cutting edge neurological and bioethical research. Throughout *My Father's Brain*, Jauhar confronts the moral and psychological concerns that arise when family members must become caregivers when children's and parents' roles reverse and when we must accept unforeseen turns in our closest relationships and in our understanding of what it is to have a self. The result is a work of essential insight into dementia and into how scientists, caregivers, and all of us in an aging society are reckoning with the fallout.
