Lost Boy Brent W. Jeffs, Maia Szalavitz, 2010-07-13 In the polygamous Fundamentalist Church of Jesus Christ of Latter day Saints FLDS girls can become valuable property as plural wives but boys are expendable even a liability In this powerful and heartbreaking account former FLDS member Brent Jeffs reveals both the terror and the love he experienced growing up on his prophet s compound and the harsh exile existence that so many boys face once they have been expelled by the sect Brent Jeffs is the nephew of Warren Jeffs the imprisoned leader of the FLDS The son of a prominent family in the church Brent could have grown up to have multiple wives of his own and significant power in the 10 000 strong community But he knew that behind the group s pious public image women in chaste dresses carrying babies on their hips lay a much darker reality So he walked away and was the first to file a sexual abuse lawsuit against his uncle Now Brent shares his courageous story and that of many other young men who have become lost boys when they leave the FLDS either by choice or by expulsion Brent experienced firsthand the absolute power that church leaders wield the kind of power that corrupts and perverts those who will do anything to maintain it Once young men no longer belong to the church they are cast out into a world for which they are utterly unprepared More often than not they succumb to the temptations of alcohol and other drugs Tragically Brent lost two of his brothers in this struggle one to suicide the other to overdose In this book he shows that lost boys can triumph and that abuse and trauma can be overcome and he hopes that readers will be inspired to help former FLDS members find their way in the world

Fass,1997 A look at the history of child kidnappings and abductions in the United States the motives of the perpetrators the activities of the media and the results in the law and in public opinions *Representations of Child Soldiers in Contemporary African Narratives* Ademola Adesola,2024-09-11 In *Representations of Child Soldiers in Contemporary African Narratives* Ademola Adesola examines the dominant factors that writers privilege in their portrayals of child soldiering in sub Saharan Africa In his textual interpretive analyses of selected novels in the African child soldier genre Adesola contends that critical discussions of African child soldier literature have depended on the interpretive frameworks supplied by Western humanitarian discourses which oversimplify and de historicize experiences of war in Africa The author argues that such

reductive decontextualization of war realities serve to champion a narrow vision of war in African contexts centered on a moral and humanitarian urge for Western intervention Regardless of whether the *casus belli* legitimating those wars are genuine or not those conflicts and children's involvement in them are understood within the same racist colonial and ethnocentric stereotypes about Africa that have been privileged in Western thought and the Western moral political imagination for centuries Thus in studying African child soldier narratives this book provides an alternative reading of novels whose settings feature African ethnopolitical conflicts such as in Sierra Leone Liberia Congo Brazzaville Nigeria notable for their exploitation of children for military ends The author maintains that these works are significant in the varying ways they reify and challenge the Western ideas of child and childhood as well as privilege child soldiers as social actors whose intricate makeups disavow being simply understood as innocent victims or irredeemable perpetrators of atrocities

Dialogic Formations Marie-Cécile Bertau, Miguel M. Gonçalves, Peter T. F. Raggatt, 2013-01-01 This volume understands itself as an invitation to follow a fundamental shift in perspective away from the self contained I of Western conventions and towards a relational self where development and change are contingent on otherness In the framework of Dialogical Self Theory Hermans Hermans Gieser 2012 it is precisely the forms of interaction and exchange with others and with the world that determine the course of the self's development The volume hence addresses dialogical processes in human interaction from a psychological perspective bringing together previously separate theoretical traditions about the self and about dialogue within the innovative framework of Dialogical Self Theory The book is devoted to developmental questions and so broaches one of the more difficult and challenging topics for models of a pluralist self the question of how the dynamics of multiplicity emerge and change over time This question is explored by addressing ontogenetic questions directed at the emergence of the dialogical self in early infancy as well as microgenetic questions addressed to later developmental dynamics in adulthood Additionally development and change in a range of culture specific settings and practices is also examined including the practices of mothering of migration and cross cultural assimilation and of doing psychotherapy
