Lost Light:

The Book of Lost Light Ron Nyren, 2021-05-12 Joseph Kylander's childhood in early 20th century San Francisco has been shaped by his widowed father's obsessive photographic project and by his headstrong cousin Karelia's fanciful storytelling and impulsive acts. The 1906 earthquake upends their eccentric routines and they take refuge with a capricious patron and a group of artists looking to find meaning after the disaster. **THE BOOK OF LOST LIGHT** explores family loyalty and betrayal, Finnish folklore, the nature of time and theater, and what it takes to recover from calamity and build a new life from the ashes.

Over 40 million fans have purchased books by Michael Connelly. His fans storm his website to discuss his characters and plots. Their passion for his characters is obvious. It's the same kind of enthusiasm now found among fans of the Harry Potter and Hunger Games series. Yet while both those series have companion books that serve as readers' guides, no such book exists on Connelly. What is unique about this book is that it shows how Connelly shaped his actual experiences as a crime reporter into his fiction. You will also find explanations of how Connelly fits into the mystery landscape.

The Codex of Sacred Power William Ubagan, 2025-08-14 The Codex of Sacred Power is a treasury of mystical knowledge: thirty-nine timeless rituals passed down through whispers of the initiated, crafted to shield against calamity, banish malevolent forces, heal body and spirit, summon miracles, and call forth blessings from the unseen realms. Within these pages you will discover sacred rites in the tongues of the ancients, incantations imbued with celestial authority, and carefully detailed procedures to channel protection, justice, love, wisdom, and divine favor into your life. Whether defending against sword or bullet, finding what was lost, silencing the works of dark practitioners, or awakening the indestructible strength of the soul, each ritual has been preserved to work in harmony with the highest cosmic laws. This is not merely a book; it is a spiritual arsenal, a bridge between the mortal and the eternal, and a guide for those who walk the path of both light and power. Guard it well, for within lies the knowledge that kings feared, prophets revered, and the wise kept hidden.

The Secrets of Space and Time Massimo Scaligero, 2013 Who can penetrate space or encounter the stream of time? Only those who are not fooled into believing that freedom from sensory conditions is attainable by moving beyond a space and a time considered real because of their measurability. The reality of time and space is immeasurable. It cannot be attained by overcoming the given forms of measurement but rather by overcoming measurement itself. Before this can occur, we must know how and why measurement arises; we must know what the spirit wants by containing within measurement the substance of its eternal telling of tales whose truth alone justifies measurement. The transitory vision of what space and time are in their most subtle forms. Massimo Scaligero.
