**Lost Opportunity** Marshall I. Goldman,1996      Lost Opportunity Marshall I. Goldman,1996 Undaunted by the potholed road the Russians are traveling towards a market economy Marshall Goldman here explains not only what has happened under Boris Yeltsin but also what is likely to happen next in the most enigmatic nation in the world      **The Rise and Fall of Privatization in the Russian Oil Industry** L. Sim,2008-10-24 A study of the actors and institutions that shaped decision making on privatization in the Russian oil industry between 1992 and 2006 The book analyses the origins of privatization as a policy on a macro industry wide level as well as presenting three in depth case studies of privatization on a company level

Russia's Market Economy Stefan Hedlund,2002-11-01 Russia s Market Economy is a seminal account of Russia s transition to the market its tortuous development as a fledgling market economy through the 1990s right through to its spectacular collapse in August 1998 Rather than beginning with the economic collapse the book traces the historical mismanagement of Russian wealth through to the Soviet command economy and on to Gorbachev Stefan Hedlund finally discusses what lessons should be learned from the damage inflicted on the Russian economy as well as its social legal and political infrastructure by the race of reform      **How Capitalism Was Built** Anders Aslund,2013 This second edition updates all chapters and covers the impacts of the global financial crisis and the European Union      **Inside the Soviet Alternate Universe** Dick Combs,2010-11 Reappraises the end of the Cold War and the collapse of the Soviet Union based on the author s 35 year career as a specialist in Soviet and post Soviet affairs Explores the psychological universe of Soviet rulers to clarify the nature of Mikhail Gorbachev s reforms Provided by publisher      Democracy Versus Modernization Vladislav Leonidovich Inozemt[s]ev,Piotr Dutkiewicz,2013 A major issue for Russia is how far democratisation should be prioritised or whether the modernization of Russia might not prosper better by Russia focusing directly on modernization and not worrying too much about democracy This book explores a wide range of aspects of this important question      **The March to Capitalism in the Transition Countries** Irving S. Michelman,2019-05-23 First published in 1998 this book analyses and reconsiders one of the great economic dramas of Western history the march to capitalism in Russia Hungary Poland and the Czech Republic The period is from 1989 after the fall of the Berlin Wall when the liberated countries rushed headlong into democracy and capitalism Special emphasis is on the role often misunderstood played by the Western dominated aid agencies the International Monetary Fund and the World Bank They were called in while the Western countries dawdled and made empty promises They basically financed and guided the transition their own funds amounting to 50 billion while issuing free market strictures in the process This reflected the supremacy of such ideology in the Thatcher Reagan era Russia in its agony offers a laboratory for the conflicting claims of free market theory against a more pragmatic experimental approach China s hybrid capitalism is also analyzed and compared      *Russia's Capitalist Revolution* Anders Aslund,2007      **Calculation and Coordination** Peter J Boettke,2000-11-23 This collection of essays from one of the major

Austrian economists working in the world today brings together some of his key writings on a variety of economic issues

Understanding Russian Politics Stephen White,2011-03-31 A fresh and compelling interpretation of Russian politics by a leading authority this textbook focuses on political developments in the world s largest country under Putin and Medvedev Using a wealth of primary sources it covers economic social and foreign policy and the system of politics that has developed in recent years Opposing arguments are presented and students are encouraged to reach their own judgements on key events and issues such as privatisation and corruption This textbook tackles timely topics such as gender and inequality issues organised religion the economic krizis and Russia s place in the international community It uses numerous examples to place this powerful and richly endowed country in context with a focus on the place of ordinary people which shows how policy is translated to Russians everyday lives

*The Central Government of Russia* Iulia Shevchenko,2017-07-05 Placing the development of the Soviet and Russian central governments in theoretical context this work breaks new ground in the study of contemporary Russian politics Iulia Shevchenko s creative treatment of the principal agent model offers fresh insight into the institutional origins of change in government organization in the communist and post communist period from President Gorbachev to President Putin She demonstrates that government organization varies with the extent to which the principal actors the president and parliament are prepared to empower the cabinet to actively develop rather than just implement policy Delegation of broad decision making powers which occurs when the policy environment is highly competitive is a crucial factor explaining the uneven dynamics of government development during this period The originality of this work rich with supporting evidence and empirical data will ensure that it becomes the standard source for students and scholars concerned with this aspect of post Soviet politics

**Invisible Hands, Russian Experience, and Social**

**Science** Stefan Hedlund,2011-06-20 This book investigates cases in which national and international activities have gone massively wrong entailing seriously negative consequences and in which the sophisticated analytical models of social science have ceased to be helpful Illustrations range from the global financial crisis to the failure to achieve speedy systemic change in the former Soviet Union and the failure to achieve development in the Third World The analysis uses as a backdrop long term Russian history and short term Russian encounters with unrestrained capitalism to develop a framework that is based in the so called new institutionalism Understanding the causes of systemic failure is shown to require an approach that spans across the increasingly specialized subdisciplines of modern social science Demonstrating that increasing theoretical sophistication has been bought at the price of a loss of perspective and the need for sensitivity to the role of cultural and historical specificity the book pleads the case for a new departure in seeking to model the motives for human action

*Russian National Security* Michael H. Crutcher,2001 This is an anthology of papers presented at a conference titled Russian National Security Perceptions Policies and Prospects conducted from 4 6 December 2000 The book organizes the papers into six sections The Russian National Security Community Russia and Europe Russian Policy Towards the Caucasus

and Central Asia Russia and Asia Russia and the United States and Russia's Military Transformation *Building Capitalism* Anders Åslund, 2002 **Catching Up** Vladislav Inozemtsev, 2017-07-12 Disparities between the economic development of nations have widened throughout the twentieth century and they show no sign of closing In the nineteenth century the economic potential of developed countries was three times that of the rest of the world Today the gap is twenty times greater and the trend is increasing In this provocative reexamination of theories of accelerated development or catching up Vladislav L Inozemtsev traces the evolution of thinking about how countries lagging behind can most swiftly move forward and assesses their prospects for success in this effort Inozemtsev reviews the experience of the Soviet Union as well as the recent experience of Japan China and Southeast Asia He finds that those countries that have moved forward most rapidly have successfully adapted new technology to old processes But even then they face daunting odds as they grapple with the need to change their population's ideas and behavior And in the 1990s their rates of development have noticeably declined *Catching Up* assesses prospects for successful application of theories of accelerated development in the global economy Inozemtsev's pessimistic conclusion is that rapid industrial progress is not achievable in the information society of the twenty-first century Inozemtsev reaches this conclusion after reviewing theories of accelerated development thinking from the diverse viewpoints of the 1940s and 1950s to the more intensive ideological polarization of the 1960s Inozemtsev believes it will be impossible for non-Western nations to catch up with the West because of their inability to generate or control information and knowledge **Health and Social Change in Russia and Eastern Europe** William C. Cockerham, 1999 Examines the social causes of the decline in life expectancy in Russia and Eastern Europe Countries discussed include Russia Poland Hungary Romania Bulgaria the Czech Republic and East Germany *Toward Pro-poor Policies* Bertil Tungodden, Nicholas Herbert Stern, Nicholas Stern, Ivar Kolstad, 2004 This annual conference has become a key event in Europe for the discussion of development issues It is a unique platform for many of the world's finest development thinkers and experienced policymakers to present their perspectives ideas and to challenge researchers and senior staff of the World Bank and other organizations with their views These papers look at a number of compelling issues surrounding the topic of development

**The Political Economy Reader** Naazneen H. Barma, Steven K. Vogel, 2021-08-29 The Political Economy Reader advocates a particular approach to the study of political economy the market institutional perspective which emphasizes the ways in which markets are embedded in political and social institutions This perspective offers a compelling alternative to the market liberal view which advocates freer markets and less government intervention in the economy as if states and markets were naturally at odds with each other The reader embraces a truly interdisciplinary approach to the study of political economy with extensive coverage from sociology economics history and political science It includes some of the most important classical and contemporary theoretical perspectives on political economy And it engages some of the most topical debates in political economy today such as climate change the global financial crisis inequality the digital platform economy
