## **Lost Provinces:**

The Lost Territories Shane Strate, 2015-01-31 It is a cherished belief among Thai people that their country was never colonized. Yet politicians, scholars, and other media figures chronically inveigh against Western colonialism and the imperialist theft of Thai territory. Thai historians insist that the country adapted to the Western-dominated world order more successfully than other Southeast Asian kingdoms and celebrate their proud history of independence. But many Thai leaders view the West as a threat and portray Thailand as a victim. Clearly, Thailand's relationship with the West is ambivalent. *The Lost Territories* explores this conundrum by examining two important and contrasting strands of Thai historiography: the well-known Royal Nationalist ideology which celebrates Thailand's long history of uninterrupted independence and what the author terms National Humiliation discourse, its mirror image. Shane Strate examines the origins and consequences of National Humiliation discourse, showing how the modern Thai state has used the idea of national humiliation to sponsor a form of anti-Western nationalism. Unlike triumphalist Royal Nationalist narratives, National Humiliation history depicts Thailand as a victim of Western imperialist bullying. Focusing on key themes such as extraterritoriality, trade imbalances, and territorial loss, National Humiliation history maintains that the West impeded Thailand's development even while professing its support and cooperation. Although the state remains the hero in this narrative, it is a tragic heroism defined by suffering and foreign oppression. Through his insightful analysis of state and media sources, Strate demonstrates how Thai politicians have deployed National Humiliation imagery in support of ethnic chauvinism and military expansion. He shows how the discourse became the ideological foundation of Thailand's irredentist strategy, the state's anti-Catholic campaign, and its acceptance of pan-Asianism during World War II, and how the state-as-victim narrative has been used by politicians to redefine Thai identity and elevate the military into the role of national savior. *The Lost Territories* will be of particular interest to historians and political scientists for the light it sheds on many episodes of Thai foreign policy, including the contemporary dispute over Preah Vihear. The book's analysis of the manipulation of historical memory will interest academics exploring similar phenomena worldwide.

Toward a New Mission Statement for Canadian Fiscal Federalism Harvey Lazar, 2000

Canada State of the Federation 1999 2000 identifies and explains major threads in Canadian fiscal federalism Set against the

cacophony over domineering and arrogant centralization from supporters of Quebec sovereignty session on the one hand and fears that excessive decentralization is fuelling an obsessively neo liberal agenda on the other these essays replace much of this heat with new light The authors begin with an examination of recent developments in the theoretical literature surrounding fiscal federalism They then examine some of the major issues facing the federation Is there a vertical imbalance between federal and provincial governments Does Ottawa collect more revenues than are needed relative to its spending responsibilities while the provinces are under funded How do federal provincial struggles over money and jurisdictional power affect local government or the para public sector emerging aboriginal governments and citizens Federal government actions in 1999 suggest that Ottawa has not lost all of its interest in social outcomes It is however seeking to influence the well being of citizens by transferring money to them directly rather than through transfers to provinces The authors suggest that if this trend continues the approach to the millennium will be seen as a watershed in public policy given that current trends in Canadian fiscal federalism are as much about re balancing the federation as they are about decentralization

History's Place Seth Graebner, 2007-05-30 History s Place explores nostalgia as one of the defining aspects of the relationship between France and North Africa Dr Seth Graebner argues that France s most important colony developed a historical consciousness through literature and that post colonial writers revised it while retaining its dominant effect The North African city became a privileged place in the relationship between literacy and historical discourses in the colony Graebner analyzes the importance of architecture and urbanism as markers of historical development as the urban fabric and descriptions of it became signs of difference between metropole and colony Discussing writers as diverse as Bertrand Randau and Kateb this book examines how the changing Algerian city has remained the locus of a debate colored by various sorts of nostalgia Graebner demonstrates that nostalgia was symptomatic of historical anxiety generated by colonial conditions but with literary consequences for mainland France as well History s Place is a comprehensive and valuable addition to the study of French literature and cultural studies     *Translations from Thai Newspapers* United States.
