*War and Occupation in Iraqi Fiction* Ikram Masmoudi, 2015-06-19 The last three decades in Iraqi history can be summarized in these words dictatorship war and occupation After the fall of Saddam's regime Iraqi novelists are not only writing about the occupation and the current disintegration of Iraq but are also revisiting previous wars that devastated their lives This book examines how recent Iraqi fiction about war depicts the Iraqi subject in its relation to war coercion subjugation and occupation The theoretical medieval concept of the homo sacer the killable as defined by Giorgio Agamben is used to explore the lives and the experiences of different war actors such as the soldier the war deserter the camp detainee and the suicide bomber depicted in their e bare life as men doomed to death in the necropolitical context War and

Occupation in Iraqi Fiction is an exploration of fictional works by a new generation of leading Iraqi authors such as Ali Badr Shakir Nuri Najm Wali Hdiya Hussein and others It brings to light the overarching continuum in the production of homines sacri in Iraq Instances of homo sacer under the dictatorship are complemented by new instances found in the camp and under the state of exception of the occupation and the war on terror Literary Medicine: Brain Disease and Doctors in Novels, Theater, and Film J. Bogousslavsky, S. Dieguez, 2013-03-07 Classical and modern literature is full of patients with interesting neurological cognitive or psychiatric diseases often including detailed and accurate descriptions which suggests the authors were inspired by observations of real people In many cases these literary portrayals of diseases even predate their formal identification by medical science Fictional literature encompasses nearly all kinds of disorders affecting the nervous system with certain favorites such as memory loss and behavioral syndromes There are even unique observations that cannot be found in scientific and clinical literature because of the lack of appropriate studies Not only does literature offer a creative and humane look at disorders of the brain and mind but just as authors have been inspired by medicine and real disorders clinicians have also gained knowledge from literary depictions of the disorders they encounter in their daily practice This book provides an amazing and fascinating look at neurological conditions patients and doctors in literature and film in a way which is both nostalgic and novel **Modern/Postmodern** Peter V. Zima, 2010-08-05 Modern Postmodern Society Philosophy Literature offers new definitions of modernism and postmodernism by presenting an original theoretical system of thought that explains the differences between these two key movements Taking a contrastive approach Peter V Zima identifies three key concepts in the relationship between modernism and postmodernism ambiguity ambivalence and indifference Zima defines modernism and postmodernism as problematics as opposed to aesthetics stylistics or ideologies Unlike modernism which is grounded in an increasing ambivalence towards social norms and values postmodernity is presented as an era of indifference i e of interchangeable norms values and perspectives Taking an historical interdisciplinary and intercultural approach that engages with Anglo American and European debates the book describes the transition from late modernist ambivalence to postmodern indifference in the contexts of philosophy literature and sociology This is the ideal guide to the relationship between modernism and postmodernism for students and scholars throughout the humanities *The Mammoth Book of Westerns* Jon E. Lewis, 2013-07-04 The Western though a singularly American art form is one of the great genres of world literature with a truly global readership It is also durable despite being often unfairly maligned Ever since James Fenimore Cooper transformed frontier yarns into a distinct literary form the Western has followed two paths one populist what Time magazine famously billed the American Morality Play capable of taking many points of view from red to redneck but always populist with a sentimental attachment to the misfit the other literary eschewing heroism debunking with unsettling candour many of the myths of the West It can sometimes be difficult to draw a sure line between the two forms but both are represented in this outstanding collection which includes stories by Rick Bass Walter Van Tilburg

**Novels, Romances and Writings** Alphonse Daudet, 1900 **Representations of Child Soldiers in Contemporary African Narratives** Ademola Adesola, 2024-09-11 In *Representations of Child Soldiers in Contemporary African Narratives*, Ademola Adesola examines the dominant factors that writers privilege in their portrayals

of child soldiering in sub Saharan Africa In his textual interpretive analyses of selected novels in the African child soldier genre Adesola contends that critical discussions of African child soldier literature have depended on the interpretive frameworks supplied by Western humanitarian discourses which oversimplify and de historicize experiences of war in Africa The author argues that such reductive decontextualization of war realities serve to champion a narrow vision of war in African contexts centered on a moral and humanitarian urge for Western intervention Regardless of whether the casus belli legitimating those wars are genuine or not those conflicts and children s involvement in them are understood within the same racist colonial and ethnocentric stereotypes about Africa that have been privileged in Western thought and the Western moral political imagination for centuries Thus in studying African child soldier narratives this book provides an alternative reading of novels whose settings feature African ethnopolitical conflicts such as in Sierra Leone Liberia Congo Brazzaville Nigeria notable for their exploitation of children for military ends The author maintains that these works are significant in the varying ways they reify and challenge the Western ideas of child and childhood as well as privilege child soldiers as social actors whose intricate makeups disavow being simply understood as innocent victims or irredeemable perpetrators of atrocities
