Commission,1914      *Financial Freedom* Gisela Enders,2017-09-15 For many people financial freedom is a major goal If they no longer needed to work for money so much would be possible For people who have to go to work every day that seems like paradise But how do people actually live once they have reached the goal Gisela Enders interviewed people mostly from Germany and Europe who are already financially free She met very interesting people Some who do not work at all anymore and others who spend every day working on their own projects out of sheer passion Some who make their living from stocks and others who live from rental income And others who live abroad and need very little money to live on People who want to enjoy spending time with their kids and others who put all their passion into their own projects Most of the people interviewed live frugally and from the outside the only thing different about them is that they are rich in time What would your own ideal life be like A life that you planned yourself rather than one planned for you You can put that plan into practice step by step The ideas in this book will inspire you to consider a life beyond the rat race      *The Modern Grandparent's Handbook* Georgia Witkin,2012-01-03 Grandparents today are healthier more active and more youthful and young at heart than their predecessors Dr Georgia Witkin senior editor of Grandparents.com draws on her experience as a psychiatry professor therapist and grandparent to help readers be the best grandparent they can be They'll learn How to connect with their grandchild online and off How to contribute to their grandchild's emotional development and boost their IQ The secret hidden stresses of being a grandparent and how to deal with them The three things they should never say to their son or daughter in laws And more      *The New American Grandparent* Andrew CHERLIN, Frank F. Furstenberg, Jr.,2009-06-30 Two leading sociologists of the family examine the changing role of American grandparents how they strive for both independence and family ties      *Opening up the Debate on the Aging Society* Alejandro Klein,2022-08-03 This book documents verifies and brings to life the issues and debates that are created around the aging society It carefully offers a series of opinions that attempt to illuminate the fact that the aging society goes beyond aging and includes a series of changes in terms of family social ties relationships and the way human beings perceive society The book contributes substantially to the discussion of this new type of aging the new types of families and the new types of relationships as well as in the application of cutting edge analytical strategies to understand the trends and patterns of these new modes of social structures The book includes detailed perspectives on how decisions need to be made mindsets need to be changed and precautions need to be taken to positively deal with these new realities The evidence presented in this book suggests that if this does not happen the danger of thanato politics appears which denying reality will lead humanity into difficult labyrinths perhaps without any Ariadne's thread that will allow a glimpse of the way out The translation from Spanish to English was done with the help of artificial intelligence machine translation by the service DeepL.com A subsequent human revision was done primarily in terms of content      *Mothering While Black* Dawn Marie Dow,2019-03-05 *Mothering While Black* examines the complex lives of the African American middle class in particular black mothers and the strategies they use to raise their children to maintain class

status while simultaneously defining and protecting their children's authentically black identities Sociologist Dawn Marie Dow shows how the frameworks typically used to research middle class families focus on white mothers' experiences inadequately capturing the experiences of African American middle and upper middle class mothers These limitations become apparent when Dow considers how these mothers apply different parenting strategies for black boys and for black girls and how they navigate different expectations about breadwinning and childrearing from the African American community At the intersection of race ethnicity gender work family and culture *Mothering While Black* sheds light on the exclusion of African American middle class mothers from the dominant cultural experience of middle class motherhood In doing so it reveals the painful truth of the decisions that black mothers must make to ensure the safety well being and future prospects of their children

web dec 15 2021 figure 1 a single phase induction motor stator produces a pulsating magnetic field rather than a rotating one as in a three phase motor this means there is no torque when the rotor is stationary once it is moving the currents induced in the rotor create a magnetic field that interacts with the pulsating field to produce a torque and thus
