[With] An index to the introductions and notes, by J. Twycross. 2 vols. [in 5 pt.].** Christopher Wordsworth (bp. of Lincoln),1859 Poussin and Nature Metropolitan Museum of Art (New York, N.Y.),2008 The work of the great French painter Nicolas Poussin 15941665 is most often associated with classically inspired settings and figures depicting solemn scenes from mythology or the Bible Yet he also created some of the most influential landscapes in Western art endowing them with a poetic quality that has been admired by artists as different as Constable Turner and Ce zanne As the British critic William Hazlitt noted in 1844 This great and learned man might be said to see nature through the glass of time This beautiful catalogue presents the first in depth examination of Poussin s landscapes Featured here are more than 40 paintings ranging from the artist s early Venetian inspired pastorals to his grandly structured and austere works designed as metaphors or allegories for the processes of nature Also included are approximately 60 drawings and essays by internationally renowned scholars who examine the painter s visual literary and philosophical influences as well as his relationships with his patrons and his place in the art historical canon Publisher description **The Epworth Herald** ,1906 **Preaching the Memory of Virtue and Vice** Kimberly A. Rivers,2010 This volume explores the integral role of memory and mnemonic techniques in medieval preaching from the thirteenth to the early fifteenth century It argues that the mendicant orders inherited from the early Middle Ages both the simple mnemonic techniques of rhetorical practice and a tradition of monastic meditation founded on memory images In the thirteenth century Dominican and Franciscan writers drew on these basic techniques even as they re evaluated the ancient mnemonic system of the Rhetorica ad Herennium first century BC The increasing emphasis that intellectuals placed upon cognitive science ethics and on distinctions between rhetoric and logic created a climate that welcomed an image based memory system designed for orators The book also explores the Franciscan contribution to mnemonics which has been almost entirely neglected by scholars As the Franciscans came to value imaginative meditation as part of their own spiritual lives their habit of meditating on mental images of the virtues and vices eventually spilled out into their sermons As the new orators of the period Franciscans and Dominicans each inserted mnemonic images into their sermons as a way to aid the recall of both preachers and listeners The products of such mnemonic practices in medieval sermons which included elaborate descriptions of buildings schematic renderings of the number seven and verbal images of the virtues and vices were then allegorised in moral terms and circulated on the continent in exempla collections This book argues that verbal images and complicated schema functioned as ordering devices for those preaching and listening to sermons whilst also provoking an affective response that enhanced listeners devotional and penitential experiences **The New Testament of our Lord and Saviour Jesus Christ** ,1859 *Scientific American* ,1877 *Friars, Scribes, and Corpses* Kimberly J. Vrudny,2010 The Speculum humanae salvationis Mirror of Human Salvation a medieval book recounting in forty five chapters the story of human

redemption within the larger context of the Virgin Mary's life was something of a best seller in the Middle Ages surviving in over 400 copies. Because the author wrote anonymously however little about the book's initial context is known despite a century's long effort to uncover the author's identity. Friars, Scribes and Corpses investigates a Marian confraternal setting for the Speculum's emergence and newly proposes consideration of Nicola da Milano as the poem's author. Its central chapters show how the scribes who copied the Speculum preserved the author's rhetorical considerations that served so well the purposes of Marian confraternal preaching including elements that suit memory training techniques used in the Middle Ages such as building an architectural structure in one's mind, tagging memories with emotion and internalizing the transformative nature of spiritual lessons. The final chapter asserts that the poem's lessons would have been particularly desired in the context of plague when the number of corpses threatened to destroy people's faith in a merciful God. Friars, Scribes and Corpses challenges assumptions about the Speculum as well as the dominantly held view that there was an overwhelming emphasis on death in the late medieval period. Rather, this book demonstrates that there was a competing emphasis on life as glimpsed in the glass of the Speculum. Dante Studies, with the Annual Report of the Dante Society
