Nationalism In Eastern Europe Cause And Consequences Of The National:

Nationalism in Eastern Europe S. Bollerup, C. Christensen, 1997-06-17 Nationalism in Eastern Europe offers a thorough application of theories of nationalism in an analysis of the recent national revivals and conflicts in Eastern Europe The book discusses both microsociological theories from social psychology and economics and macrosociological theories from sociology and political science In a comprehensive comparative analysis these theories are applied to the late Twentieth century experiences of Estonia Moldova Croatia and the former Czechoslovakia In doing so the authors arrive at generalizable explanations of both the prevalence and the potential fatality of nationalism

Central and Eastern Europe After Transition Wojciech Sadurski, 2016-04-08 How have national identities changed developed and reacted in the wake of transition from communism to democracy in Central and Eastern Europe Central and Eastern Europe After Transition defines and examines new autonomous differences adopted at the state and the supranational level in the post transitional phase of the post Communist area and considers their impact on constitutions democracy and legal culture With representative contributions from older and newer EU members the book provides a broad set of cultural points for reference Its comparative and interdisciplinary approach includes a useful selection of bibliographical resources specifically devoted to the Central Eastern European countries transitions

Memory Laws, Memory Wars Nikolay Koposov, 2018 A major contribution to our understanding of present day historical consciousness through a study of memory laws across Europe

Security Implications Of Nationalism In Eastern Europe Jeffrey Simon, Trond Gilberg, 2019-06-26 Suggesting that events in Poland during 1980 1981 represent the tip of an iceberg the contributors examine the rise of nationalism in Eastern Europe and its potential consequences for European security They analyze developing problems and trends in the region including the cooling of relations between the USSR and individual countries in Eastern Europe the continuing economic crisis changing social structures the influence of the intelligentsia and the eroding importance of ideology as a key part of Eastern Europe s political culture The second half of the book focuses on the impact of these shifts on political and military relations between the USSR and Eastern European countries and on the efficient functioning of the Warsaw Pact

Historical Dictionary of Moldova Andrei Brezianu, Vlad Spânu, 2007-04-23 The Republic of Moldova claims a European lineage reaching back in time long before its 14th century accession to statehood In the 15th century it managed against all odds to avoid being conquered by Islam and albeit an intermittent vassal after 1485 it maintained its autonomy and was never turned into a province of the Ottoman Empire After this period however Moldova would not be so fortunate as it altered between Russian Romanian and Soviet control until it finally gained its independence in 1991 from the Soviet Union The second edition of the Historical Dictionary of Moldova through its chronology introduction appendixes maps bibliography and hundreds of cross referenced dictionary entries on important persons places events and institutions and significant political economic social and cultural aspects traces the history of this small but densely populated country providing a

compass for the direction it is heading **The to Z of Moldova** Andrei Brezianu,Vlad Spânu,2010-05-26 The A to Z of Moldova through its chronology introduction appendixes maps bibliography and hundreds of cross referenced dictionary entries on important persons places events and institutions and significant political economic social and cultural aspects traces the **The Baltic Transformed** Walter C. Clemens,2001 Why isn t the Baltic region like the Balkans Why have the Baltic republics not experienced ethnic cleansing border wars authoritarian rule and social chaos Instead peace democracy and market economies have taken root since the fall of communism Walter C Clemens Jr here uses complexity theory which analyzes the role of self organization in complex adaptive systems to explain the Baltic miracle He argues that the theory is a vital tool for understanding the remarkable strides made by Estonia Latvia and Lithuania since 1991 in coping with the transition to partnership with the new Europe The Baltic peoples have adapted well to the demands of democracy a market economy and a constructive role in world affairs The achievements of Estonia Latvia and Lithuania in the past decade are the more amazing when considered against the hundreds of years they were dominated by Teutonic knights Hanseatic merchants Sweden Russia and the USSR Clemens uses this history as a springboard to analyze how Balts self organize today to meet the challenges of transition One of the first books to apply complexity theory to a major sphere of world politics The Baltic Transformed will provoke constructive debate with its ambitious and well grounded analysis of not only Baltic developments but European security more generally Despite its theoretical foundation the book is written in a clear and accessible style that will make it invaluable for courses on comparative politics political development international relations security or transition studies *Nationalism in Eastern Europe* Søren Rinder Bollerup,1997 *Self-Determination and Collective Responsibility in the Secessionist Struggle* Costas Laoutides,2016-03-03 The often violent emergence of new independent states following the end of the Cold War generated discussion about the normative grounds of territorial separatism A number of opposing approaches surfaced debating whether and under which circumstances there is a right for a community to secede from its host country Overwhelmingly these studies placed emphasis on the right to secession and neglected the moral stance of secessionist movements as agents in international relations In this book Costas Laoutides explores the collective moral agency involved in secessionist struggles offering a theoretical model for the collective responsibility of secessionist groups Case studies on the Kurds and the people of Moldova Transdnistria illustrate the author s theoretical arguments as he seeks to establish how although the principle of self determination was envisaged as a means of gradually bestowing political power upon the people it never managed to realize its full potential because it was interpreted strictly within a framework of exclusionary politics of identity *Warlands* P. Gatrell,N. Baron,2009-10-22 The displacement of population during and after the Second World War took place on a global scale and formed part of a longer historical process of violence territorial reconfiguration and state development This book focuses on the profound political social and economic upheavals in the Soviet Union and Eastern Europe at this time Identities and Politics During the Putin Presidency Philipp

Casula, Jeronim Perovic, 2009-11-01 How could an undemocratic regime manage to stabilise Russia What is Putin's success formula What are the symbolic and discursive underpinnings of Russia's new stability Many outside observers of Russia regarded the authoritarian tendencies during the Putin presidency as a retreat from or even the end of democratization Rather than attempting to explain why Russia did not follow the trajectory of democratic transformation this book aims to attain an understanding of the stabilization process during Putin's tenure as president Proceeding from the assumption that the stability created under Putin is multi-layered the authors attempt to uncover the underpinnings of the new equilibrium inquiring especially about the changes and fixations that occurred in the discourses on political and national identity In doing so the authors analyse the trajectories of the past years from the traditional perspective of transitology as well as through the lens of post-structuralist discourse theory The two approaches are seen as complementary with the latter focusing less on the end point of transition than on the nature of the mechanisms that stabilize the current regime The book focuses on how nationalism became an increasingly important tool in political discourse and how it affected political identity Sovereign democracy is seen by many contributors as the most explicit manifestation of a newfound post-Soviet identity drawing on nationalist ideas while simultaneously appeasing most sectors of the Russian political spectrum **National Myths** Gérard Bouchard, 2013-05-02 National myths are now seriously questioned in a number of societies In the West for instance a number of factors have combined to destabilise the symbolic foundation of nations and collective identities As a result the diagnosis of a deep cultural crisis has become commonplace Indeed who today has not heard about the erosion of common values or the undermining of social cohesion But to efficiently address this issue do we know enough about the nature and role of myths in modern and postmodern societies Against this background *National Myths Constructed Past* Contested Presents relies on a sample of nations from around the world and seeks to highlight the functioning of national myths both as representations that make sense of a collectivity and as socially grounded tools used in a web of power relations The collection draws together contributions from international experts to examine the present state of national myths and their fate in today's rapidly changing society Can or must nations do without the sort of overarching symbolic configurations that national myths provide If so how to rethink the fabrics and the future of our societies This book will appeal to students and scholars interested in sociology national identity and memory studies myths shared beliefs or collective imaginaries *A History of Eastern Europe* Robert Bideleux, Ian Jeffries, 2006-04-10 *A History of Eastern Europe* Crisis and Change is a wide-ranging single volume history of the lands between the lands which have lain between Germany Italy and the Tsarist and Soviet empires Bideleux and Jeffries examine the problems that have bedevilled this troubled region during its imperial past the interwar period under fascism under communism and since 1989 While mainly focusing on the modern era and on the effects of ethnic nationalism fascism and communism the book also offers original striking and revisionist coverage of ancient and medieval times the Hussite Revolution the Renaissance the Reformation and the Counter Reformation the legacies of

Byzantium the Ottoman Empire and the Hapsburg Empire the rise and decline of the Polish Lithuanian Commonwealth the impact of the region's powerful Russian and Germanic neighbours rival concepts of Central and Eastern Europe the 1920s land reforms and the 1930s Depression Providing a thematic historical survey and analysis of the formative processes of change which have played the paramount roles in shaping the development of the region A History of Eastern Europe itself will play a paramount role in the studies of European historians *Ethnic Relations in Eastern Europe* Margit Feischmidt, 2001 Dotyczy m in Polski **Current Contents**, 1999 *The Impact of Change in Eastern Europe on the Atlantic Partnership* J. Robert Schaetzel, 1965 *A History of Eastern Europe 1740-1918* Ian D. Armour, 2012-11-22 A History of Eastern Europe 1740 1918 Empires Nations and Modernisation provides a comprehensive authoritative account of the region during a troubled period that finished with the First World War Ian Armour focuses on the three major themes that have defined Eastern Europe in the modern period empire nationhood and modernisation whilst chronologically tracing the emergence of Eastern Europe as a distinct concept and place Detailed coverage is given to the Habsburg Ottoman German and Russian Empires that struggled for dominance during this time In this exciting new edition Ian Armour incorporates findings from new research into the nature and origins of nationalism and the attempts of supranational states to generate dynastic loyalties as well as concepts of empire Armour's insightful guide to early Eastern Europe considers the important figures and governments analyses the significant events and discusses the socio economic and cultural developments that are crucial to a rounded understanding of the region in that era Features of this new edition include A fully updated and enlarged bibliography and notes Eight useful maps Updated content throughout the text A History of Eastern Europe 1740 1918 is the ideal textbook for students studying Eastern European history *Problems of Communism*, 1985 Causes and Consequences of Migrant Criminalization Neža Kogovšek Šalamon, 2020-07-01 The book illustrates how the trend of associating migrants and refugees with criminality is on the rise In political discourses and popular media alike migrants and refugees are frequently portrayed as being dangerous while cultures intent on welcoming newcomers are increasingly seen as being naïve and providing assistance to migrants is more and more frequently subject to administrative or criminal penalties At the same time nondemocratic trends and practices that violate human rights and equality are gaining momentum in Europe the US and Australia Racism xenophobia and anti Islamism are simultaneously becoming more open and public they are no longer restricted to clandestine platforms but are increasingly being mainstreamed into the political programs of parties that are entering both the EU parliaments and member state legislatures Similar developments can be seen in the US and Australia Such transformations in societies governments and institutions seem to reflect a growing amnesia regarding the lessons of the two World Wars of the 20th century and the role that Europe the US and Australia played in developing a post war legal framework based on a shared if imperfect commitment to human rights The book presents individual national analyses to reveal an emerging trend of crimmigration regardless of the peculiarities of national

legislatures and internal political dynamics By collecting original contributions from scholars based in and focused on each of these regions it addresses above all the causes and impacts of the criminalization of migration in the early 21st century It tackles the direct causes of these trends and encourages readers to rethink their broader political and socio historic context Importantly the book does so by highlighting the ties between the criminalization of migration and equality racism and xenophobia As the politics of migration become more perilous for political alliances like the EU as well for individual migrants it is more important than ever to critically examine the cause and consequences of migrant criminalization This collection does so from a variety of disciplinary perspectives and political traditions seeking to overcome the distractions of charismatic politicians and the peculiar factions of national political systems in order to reveal the underlying trends and disturbing patterns that are of interest to a broad internationally focused audience **The Thinking Historian** Eric W. Sager, 2025-01-27 What is history What are historians doing when we create our histories The need for answers is more urgent than ever We live in an era when history is often rejected or ignored and when all teachers of history confront formidable challenges In the culture of screen capitalism and social media historical knowledge is evaded in an expanding present minded consciousness How can history be defended and what is it that we are defending This book argues that history is a mode of thinking a form of imaginative reasoning with its own informal logic In non technical language and using examples from important works of history the book defines core elements in historical thinking These include contingency complexity temporality parts and wholes consilience perspectives analogy and abduction These elements are subsumed into the concept of imaginative reasoning The overall argument echoes the work of hermeneutic philosophers History is a disciplined imagination tempered and empowered by its forms of reasoning It embraces ethical imperatives that the historian has a duty to declare Equipped with such understanding historians may answer the many rejections of history and secure its place in our shared futures

This is likewise one of the factors by obtaining the soft documents of this **Nationalism In Eastern Europe Cause And Consequences Of The National** by online. You might not require more become old to spend to go to the book launch as well as search for them.
