New Objectivity:

New Objectivity Sergiusz Michalski, 2003 Drawing on new research from local archives as well as reinterpretations of published literature Power and the People describes how England remained governable between 1525 and 1640 despite the wars famine epidemics and dynastic and religious crises of the period The book surveys the mechanisms of authority at various levels from the street and alehouse to the manor and the royal court Maintaining order was a difficult challenge given that England had no standing army or professional police and Alison Wall investigates everything from the roles of village constables to the social cohesiveness that came from civic celebrations and participatory politics Her book provides students with a rich perspective on the social world and political culture of early modern England

New Objectivity Olaf Peters, 2025-02-20 On the eve of its subject's centennial this richly illustrated and meticulously researched catalog celebrates and reconsiders one of the most significant artistic movements of the twentieth century Gustav F Hartlaub's 1925 exhibition *Neue Sachlichkeit* New Objectivity for the Kunsthalle Mannheim was a pivotal event that showcased a new artistic movement in Germany characterized by its critical realism social commentary and detailed depiction of contemporary life it marked a significant departure from Expressionism's emotional intensity But it was divided by two philosophies the unflinching and socially critical Verists Otto Dix George Grosz Georg Scholz and others and the Classicists Alexander Kanoldt Georg Schrimpf and Christian Schad who focused on harmony and beauty This wide ranging survey explores the tension between these camps and interprets it as a coherent chapter in art history Essays by leading experts shed new light on the movement through the lens of regionality while considering a wide spectrum of media architecture design drawings film paintings photography and philosophy Their illuminating texts are accompanied by stunning reproductions of works such as Otto Dix's *Portrait of the Lawyer Dr Fritz Glaser* Georg Scholz's *Of Things to Come* and Marcel Breuer's *Chair B 33* Impeccably produced and researched this volume captures the ways that the New Objectivity proponents mirrored the Weimar period's cultural political and social complexities

Postinternet Art and Its Afterlives Ian Rothwell, 2023-12-19. Focusing on the postinternet art of the 2010s, this volume explores the widespread impact of recent internet culture on the formal and conceptual concerns of contemporary art. The postinternet art movement is splintered and loosely defined both in terms of its form and its politics and has come under significant critique for this reason. This study will provide this definition, offering a much-needed critical context for this period of artistic activity that has had and is still having a major impact on contemporary culture. The book presents a picture of what the art and culture made within and against the constraints of the online experience look, sound, and feel like. It includes works by Petra Cortright, Jon Rafman, Jordan Wolfson, DIS, Amalia Ulman, and Thomas Ruff and presents new analyses of case studies drawn from the online worlds of the 2010s, including vaporwave, anonymous image board culture, irony bros, and edgelords, viral extreme sports stunts, and GIFs. The book will be of interest to scholars working in art history, contemporary art, and digital culture.

Neue Sachlichkeit and Avant-Garde Ralf Grüttemeier, Klaus Beekman, Ben Rebel, 2013. One of the aims of the book is to shed more light on the notion *Neue Sachlichkeit* in its appearance in a variety of fields, as painting, architecture, music, photography, and literature, in order to get a clearer idea of its scope. Several contributions will do so by analysing the heterogeneity in the use of the term, concerning its function in the fight for recognition in the art fields around 1930. In other words, *Neue Sachlichkeit* will be analysed as a positioning strategy. Especially its participation in the broader discourse on modernity, as well as its international and intermedial dimension, will be highlighted, often using the historical avant-garde as point of reference. From this perspective, the present volume wants to be read as a plea for a differentiated description of the many shared aspects and some differences between the avant-garde and *Neue Sachlichkeit*.

The Art of Interruption John Roberts, 1998. This is the first monograph-length study that charts the coercive diplomacy of the administrations of Richard Nixon and Gerald Ford as practised against their British ally in order to persuade Edward Heath's government to follow a more amenable course throughout the Year of Europe and to convince Harold Wilson's governments to lessen the severity of proposed defence cuts. Such diplomacy proved effective against Heath but rather less so against Wilson. It is argued that relations between the two sides were often strained, indeed to the extent that the most special elements of the relationship, that of intelligence and nuclear co-operation, were suspended. Yet the relationship also witnessed considerable co-operation. This book offers new perspectives on US and UK policy towards British membership of the European Economic Community, demonstrates how US détente policies created strain in the special relationship, and reveals the temporary shutdown of US-UK

intelligence and nuclear co operation provides new insights in US UK defence co operation and re evaluates the US UK relationship throughout the IMF Crisis

Cinematography in the Weimar Republic Paul Matthew St. Pierre, 2016-08-15 In film history director cinematographer collaborations were on a labor spectrum with the model of the contracted camera operator in the silent era and that of the cinematographer in the sound era But in Weimar era German filmmaking 1919 33 a short period of intense artistic activity and political and economic instability these models existed side by side due to the emergence of camera operators as independent visual artists and collaborators with directors Berlin in the 1920s was the chief site of the interdisciplinary avant garde of the Modernist movement in the visual literary architectural design typographical sartorial and performance arts in Europe The Weimar Revolution that arose in the aftermath of the November 1918 Armistice and that established the Weimar Republic informed and agitated all of the art movements such as Expressionism Dada the Bauhaus Minimalism Objectivism Verism and Neue Sachlichkeit New Objectivity Among the avant garde forms of these new stylistically and culturally negotiated arts the cinema was foremost and since its inception had been a radical experimental practice in new visual technologies that proved instrumental in changing how human beings perceived movement structure perspective light exposure temporal duration continuity spatial orientation human postural facial vocal and gestural displays and their own spectatorship as well as conventions of storytelling like narrative setting theme character and structure Whereas most of the arts mobilized into schools movements institutions and other structures cinema a collaborative art tended to organize around its ensembles of practitioners Historically the silent film era 1895 1927 is

Hochradner, 2012-02-24 How can we define the referential systems by which music is determined and through which music gets its own sense and meaning What is the relation between these systems Such questions are of particular weight in relation to current music practices characterized by a great many of analytical procedures and hermeneutical views The questions raised open a series of different thematic fields presented in this book The authors allocate the place of music to the field of aesthetic autonomy or describe its specific sign system s Special attention is focused on the systems of musicological contextualization and the meaning understanding of music in different historical and or functional contexts from traditional liturgical chant up to recent compositions Various contributions in the collection are dedicated to the relation between music and film while others deal with the special sociological conditions that constitute some specific musical praxis such as folk or rock music
