The Star Sailors Gary L. Bennett, 2005-07-19 Throughout the history of the human race there have been adventurers who must test the limits of exploration iconoclasts who will never be satisfied with peace at the expense of ignorance And ignorance will be dangerous indeed if it is true that the Apollyoni exist In a Galactic Federation without war it has been hard to imagine evil until the expedition to Ahriman ended in such horrible violence that its lone survivor Coni Sanderson had to be almost completely reconstructed For Coni's sake Greg Sheldon wants more than anything to go beyond the perimeter to search out the truth Richard Highstreet's father was lost on one of the last major expeditions and he too would travel

anywhere to find out why Outstanding courage has made Ben Wilson their commander on a desperate and illegal mission through metaspaces and he knows that if Art Cooke the fourth crewmember of the *Odyssey* knew the real reason for the voyage he would have stopped it. It will be Ben's job to keep them from destroying each other before they reach their destination because when that destination is reached they may have more destruction on their hands than any of them could ever have imagined possible.

Hearts of the City Herbert Muschamp, 2013-12-11 From the late Herbert Muschamp the former architecture critic of *The New York Times* and one of the most outspoken and influential voices in architectural criticism a collection of his best work. The pieces here from *The New Republic*, *Artforum* and *The New York Times* reveal how Muschamp's views were both ahead of their time and timeless. He often wrote about how the right architecture could be inspiring and uplifting and he uniquely drew on film literature and popular culture to write pieces that were passionate and often personal changing the landscape of architectural criticism in the process. These columns made architecture a subject accessible to everyone at a moment when because of the heated debate between modernists and postmodernists architecture had become part of a larger public dialogue. One of the most courageous and engaged voices in his field he devoted many columns at the *Times* to the lack of serious new architecture in this country and particularly in New York and spoke out against the agenda of developers. He departed from the usual dry didactic style of much architectural writing to playfully for example compare Frank Gehry's Guggenheim Bilbao to the body of Marilyn Monroe or to wax poetic about a new design for Manhattan's manhole covers. One sees in this collection that Muschamp championed early on the work of Frank Gehry, Rem Koolhaas, Zaha Hadid, Thom Payne, Frank Israel, Jean Nouvel and Santiago Calatrava among others and was drawn to the theoretical writings of such architects as Peter Eisenman. Published here for the first time is the uncut version of his brilliant and poignant essay about gay culture and Edward Durrell Stone's museum at 2 Columbus Circle. Fragments from the book he left unfinished whose title we took for this collection *A Dozen Years*, *Metroscope* and *Atomic Secrets* are also included. *Hearts of the City* is dazzling writing from a humanistic thinker whose work changed forever the way we think about our cities and the buildings in them.

Below the Stars Kate Fortmueller, 2021-07-13 Despite their considerable presence in Hollywood extras and working actors have received scant attention within film and media studies as significant contributors to the history of the industry. Looking not to the stars but to these supporting players in film, television and recently streaming programming *Below the Stars* highlights such actors as precarious laborers whose work as freelancers has critically shaped the entertainment industry throughout the twentieth and twenty-first centuries. By addressing ordinary actors as a labor force Kate Fortmueller proposes a media industry history that positions underrepresented and quotidian experiences as the structural elements of the culture and business of Hollywood. Resisting a top-down assessment Fortmueller explores the wrangling of labor unions and guilds that advocated for collective action for everyday actors and helped shape professional norms. She pulls from archival research, in-person interviews and firsthand observation to examine a history that cuts across

industry boundaries and situates actors as a labor group at the center of industrial and technological upheavals with lasting implications for race gender and labor relations in Hollywood The Witness of the Stars E.
