Non Formal Education Flexible Schooling Or Participatory Education:

Non-Formal Education Alan Rogers, 2005-04-04 This is the first full study of non formal education on an international scale since the 1980s The book describes the emergence of the concept in the context of development and educational reform It traces the debate about non formal education from its origins in 1968 to the mid 1980s and looks at the issues that this debate raised It then describes a number of programmes in different parts of the world which call themselves non formal pointing out the wide range of different views about what is and what is not non formal Rogers asks whether we should drop the term altogether or try to reconceptualise it in terms of flexible schooling or participatory education This is an important new book by a well established author It deals with complex issues but is written in a clear style It contains an important new analysis of the development paradigms in which the controversies surrounding non formal education grew up and which shaped its purpose and impacts The author's call for a reformulation of the concept will find echoes not only in developing societies but also in Western circles where the language of non formal education is being used increasingly within the context of lifelong learning The book grew out of the teaching of non formal education in which Professor Rogers has been engaged for the last 20 years It is intended for teachers and students in comparative education courses in higher education institutions and for researchers and others with an interest in the field

Non-Formal Education Alan Rogers, 2007-03-06 The Comparative Education Research Centre CERC at the University of Hong Kong is proud and privileged to present this book in its series CERC Studies in Comparative Education Alan Rogers is a distinguished figure in the field of non formal education and brings to this volume more than three decades of experience The book is a masterly account which will be seen as a milestone in the literature It is based on the one hand on an exhaustive review of the literature and on the other hand on extensive practical experience in all parts of the world It is a truly comparative work which fits admirably into the series Much of the thrust of Rogers work is an analysis not only of the significance of non formal education but also of the reasons for changing fashions in the development community Confronting a major question at the outset Rogers ask why the terminology of non formal education which was so much in vogue in the 1970s and 1980s practically disappeared from the mainstream discourse in the 1990s and initial years of the present century Much of the book is therefore about paradigms in the domain of development studies and about the ways that fashions may gloss over substance

Cross-Bordering Dynamics in Education and Lifelong Learning Hideki Maruyama,2019-11-19 Education as a concept has long been taken for granted Most people immediately think of schools and colleges of classes and exams This volume aims to highlight non formal education NFE in its various forms across different historical and cultural contexts Contributors draw upon their experience as educators and researchers in comparative education and sociology to elucidate compare and critique NFE in Asia Europe Latin America and the USA By mapping out NFE s forms functions and dynamics this volume gives us the opportunity to reflect on the myriad iterations of education to challenge preconceived limitations in the field of education research Only by expanding the focus beyond that of traditional schooling arrangements can we work towards a more sustainable future and improved lifelong learning This book will appeal to researchers interested in non formal education and comparative education Education for the End of Poverty Matthew Clarke,2007 This book provides important information regarding the Millennium

Development Goals adopted unanimously by the United Nations in 2000 setting explicit targets in terms of achieving progress in the developing world This volume provides both a theoretical overview of the role of education in development and also illustrates this with various case studies based on work of non government organisations and other donors in the Asia Pacific region The authors include a mix of development practitioners as well as academics engaged in research in this field Thus the theory is illustrated and extrapolated by case studies focussing on community development interventions

Nonformal Education and Civil Society in Japan Kaori H. Okano,2015-09-16 Nonformal Education and Civil Society in Japan critically examines an aspect of education that has received little attention to date intentional teaching and learning activities that occur outside formal schooling In the last two decades nonformal education has rapidly increased in extent and significance This is because individual needs for education have become so diverse and rapidly changing that formal education alone is unable to satisfy them Increasingly diverse demands on education resulted from a combination of transnational migration heightened human rights awareness the aging population and competition in the globalised labour

market Some in the private sector saw this situation as a business opportunity Others in the civil society volunteered to assist the vulnerable The rise in nonformal education has also been facilitated by national policy developments since the 1990s Drawing on case studies this book illuminates a diverse range of nonformal education activities and suggests that the nature of the relationship between nonformal education and mainstream schooling has changed Not only have the two sectors become more interdependent but the formal education sector increasingly acknowledges nonformal education's important and necessary roles These changes signal a significant departure from the past in the overall functioning of Japanese education The case studies include neighbourhood homework clubs for migrant children community based literacy classes after school care programs sport clubs alternative schools for long term absent students schools for foreigners training in intercultural competence at universities and corporations k minkan community halls and lifelong learning for the seniors This book will appeal to both scholars of Japanese Studies Asian Studies and those of comparative education and sociology anthropology of education

Political Islam and Governance in Bangladesh Ali Riaz, C. Christine Fair, 2010-10-04 The past decade has seen a marked policy focus upon Bangladesh home to nearly 150 million Muslims it has attracted the attention of the world due to weak governance and the rising tide of Islamist violence This book provides a broad ranging analysis of the growth and impact of political Islam in Bangladesh and reactions to it Grounded in empirical data experts on Bangladesh examine the changing character of Bangladeshi politics since 1971 with a particular focus on the convergence of governance Islamism and militancy They examine the impacts of Islamist politics on education popular culture and civil society and the regional and extraregional connections of the Bangladeshi Islamist groups Bringing together journalists and academics all of whom have different professional and methodological backgrounds and field experiences which impact upon these issues from different vantage points the book assesses Bangladesh's own prospects for internal stability as well as its wider impact upon South Asian security It argues that the political environment of Bangladesh the appeal of Islamist ideology to the general masses and the dynamic adaptability of Islamist organizations all demonstrate that

Bangladesh will continue to focus the attention of policy makers and analysts alike This is a timely incisive and original explanation of the rise of political Islam and Islamic militancy in Bangladesh *Learning Beyond the School* Julian Sefton-Green,Ola Erstad,2018-08-06 Whilst learning is central to most understandings of what it is to be human we now live in a knowledge society where being educated defines life chances more than ever before Learning Beyond the School brings together accounts of learning from around the world in organisations spaces and places that are schooled but not school Exploring examples of learning organisation pedagogisation informal learning and social education the book shows not only how understandings of education are framed in terms of local versions of schooling but what being educated could and should mean in very different social and political contexts With contributions from scholars based in Australia Europe the USA Latin America and Asia the book brings together accounts of learning outside of school Chapters contain rich and detailed case studies of innovative projects new kinds of learning institutions youth peer driven and community based activities and public pedagogies as well as engaging with the dimensions of an argument about the place and nature of learning outside of the school It challenges dominant versions of school around the world whilst also critically discussing the value and place of non institutionalised learning Learning Beyond the School should be of interest to academics researchers postgraduate scholars engaged in the study of comparative education youth work education systems digital culture sociology of education and youth development It should also be essential reading for practitioners and policymakers who are interested in youth and education system reform *Language, Ethnography, and Education* Michael Grenfell,David Bloome,Cheryl Hardy,Kate Pahl,Jennifer Rowsell,Brian V Street,2013-06-17 This volume brings together in a new way the traditions of language ethnography and education in particular integrating New Literacy Studies and Bourdieusian sociology with ethnographic approaches to the study of classroom practice Education as a Human Right Tristan McCowan,2013-04-25 Education is widely recognized as a fundamental human right yet the nature of the right remains unclear Is it an entitlement to go to school to acquire particular forms of knowledge or develop particular skills or attributes And why exactly is education so important that we might defend all people s right to it This book provides a much needed exploration of this key contemporary issue Highlighting limitations in the approaches of both the Education for All initiative and existing international law the book presents a radical new vision of how the right can be understood As well as basic education there are discussions of higher and lifelong education of human rights education and of the intersection of rights based approaches with others such as Amartya Sen s capabilities The work serves as a stirring defense of the universal right to education against instrumental conceptions of learning the inactivity of national governments and the abrogation of responsibility of the international community Young People in Times of Crises Susan Eriksson,Alexis Buettgen,2025-05-08 The book enlightens the situation of youth amidst global intersecting crises or the polycrisis in the contemporary world This collection acknowledges and interrogates the multiplicity of global and local effects and consequences that the pandemic climate

change war migration and digitalization have on youth and their resilience too often dependent on socio economic status ethnic background religion and ability However despite pointing out the deep polarizations in coping with crises and the social changes they trigger and reinforce the writers of this book remark on the seeds of hope fostered by the persistency and actions of young people amplifying change for a better world
