overlooked by other publishers and welcome the author whose expertise can help our audience of readers Science Fiction Cinema and 1950s Britain Matthew Jones, 2017-11-30 For the last sixty years discussion of 1950s science fiction cinema has been dominated by claims that the genre reflected US paranoia about Soviet brainwashing and the nuclear bomb However classic films such as *Invasion of the Body Snatchers* 1956 and *It Came from Outer Space* 1953 and less familiar productions such as *It The Terror from Beyond Space* 1958 were regularly exported to countries across the world The histories of their encounters with foreign audiences have not yet been told *Science Fiction Cinema and 1950s Britain* begins this task by recounting the story of 1950s British cinema goers and the aliens and monsters they watched on the silver screen Drawing on extensive archival research Matthew Jones makes an exciting and important intervention by locating American science fiction films alongside their domestic counterparts in their British contexts of release and reception He offers a radical reassessment of the genre demonstrating for the first time that in Britain which was a significant market for and producer of science fiction these films gave voice to different fears than they did in America While Americans experienced an economic boom low immigration and the conferring of statehood on Alaska and Hawaii Britons worried about economic uncertainty mass immigration and the dissolution of the Empire *Science Fiction Cinema and 1950s Britain* uses these and other differences between the British and American experiences of the 1950s to tell a new history of the decade s science fiction cinema exploring for the first time the ways in which the genre came to mean something unique to Britons **Jason** Don Nardo, 2015-09-01 In the fabulous annals of ancient Greek mythology few characters were as famous as Jason JAY sin He appears in several myths But his most renowned deed was finding the Golden Fleece That gleaming hide of a special magical ram long rested in Colchis a remote land located on the Black Sea s northern coast Jason and the men who accompanied him on his quest became known as the Argonauts This was because their ship was the *Argo* named after Argus AR gis the man who built her In the ancient Greeks eyes Jason s epic voyage to find the Fleece was a heroic act of the highest order So he joined the ranks of the heroes a small number of unusually brave and daring men celebrated in the Greek myths They were larger than life individuals who took on tasks that most other people lacked the courage and skill to face Heroes deeds often had vital effects on human lives modern myth teller Philip Wilkinson writes They founded tribes and cities killed monsters and provided the necessities of life In this retelling author Don Nardo brings the magic of Jason to young readers *The Many Lives of Cy Endfield* Brian Neve, 2015-07-21 Cy Endfield 1914 1995 was a filmmaker Try and Get Me Hell Drivers Zulu with interests in close up magic science and invention The director of several distinctive Hollywood movies he was blacklisted and refused to name names before the House Un American Activities Committee Prehistoric Humans in Film and Television Michael Klossner, 2015-01-09 From the early days of the movies cavemen have been a popular subject for filmmakers not surprisingly since the birth of cinema occurred only a few decades after the earliest scientific studies of prehistoric man Filmmakers however were not constrained by the emerging science instead they most often took a comedic

look at prehistory a trend that continued throughout the 20th century Prehistoric humans also populated adventure fantasy films with the original One Million B C 1940 leading the charge Documentaries were also made but it was not until the 1970s that accurate film accounts of prehistoric humans finally emerged This exhaustive work provides detailed accounts of 581 film and television productions that feature depictions of human prehistory Included are dramas and comedies set in human prehistory documentaries and films and television shows in which prehistoric people somehow exist in historical periods from the advent of civilization up to the present or in extraterrestrial settings Each entry includes full filmographic data including year of release running time production personnel cast information and format A description of each film provides background on the prehistoric elements Contemporary critical commentary is included for many of the works

In Search of the Argonauts Helen Lovatt,2021-07-15 Few classical stories are as exciting as that of Jason and the Golden Fleece The legend of the boy who discovers a new identity as son of a usurped king and leads a crew of demi gods and famous heroes has resonated through the ages rumbling like the clashing rocks which almost pulverised the Argo The myth and its reception inspires endless engagements while it tells of a quest to the ends of the earth of the tyrants Pelias and Aetes of dragons teeth of the loss of Hylas beloved of Hercules stolen away by nymphs and of Jason s seduction of the powerful witch Medea later betrayed for a more useful princess it speaks to us of more of gender and sexuality of heroism and lost integrity of powerful gods and terrifying monsters of identity and otherness of exploration and exploitation The Argonauts are emblems of collective heroism yet also of the emptiness of glory From Pindar to J W Waterhouse Apollonius of Rhodes to Ray Harryhausen and Robert Graves to Mary Zimmerman the Argonaut myth has produced later interpretations as rich salty and complex as the ancient versions Helen Lovatt here unravels like untangled sea kelp the diverse strands of the narrative and its numerous and fascinating afterlives Her book will prove both informative and endlessly entertaining to those who love classical literature and myth
