Margaret Thomas

Real Prof. Higgins The Life And Career Of Daniel Jones:

The Real Professor Higgins Beverly Collins, Inger M. Mees, 2012-04-17 This volume presents the first full scale biography of Daniel Jones a preeminent scholar and leading British phonetician of the early twentieth century and the first linguist to hold a chair at a British university This book is richly illustrated with partly unpublished material traces Jones's life and career including his contacts with other linguists and with figures outside the linguistic world notably Robert Bridges and George Bernard Shaw

The Real Professor Higgins Beverley Collins, Inger M. Mees, 1999 This volume presents a full scale biography of Daniel Jones a preeminent scholar and British phonetician of the early 20th century and the first linguist to hold a chair at a British university This book traces Jones's life and career including his contacts with other linguists and with figures outside the linguistic world notably Robert Bridges and George Bernard Shaw

The Real Professor(s) Higgins Pierfranca Forchini, 2015-04-02 The present book offers a brief historical overview of the main scholars hence the real Professors Higgins 1 who played an important role in the development and study of the pronunciation of the English language The aim of the book is not to give a comprehensive account of the subject but rather to stimulate and help students of English linguistics deepen their knowledge by reading about the life and thought of some of the greatest thinkers in the field In particular the main idea of the work is that it may serve as a stimulus for students to learn something about the actual human beings who are behind the topics they have to study when attending a course of English Phonetics and Phonology at university especially considering that these are the people who determined although unconsciously such topics For this reason the selection of scholars illustrated here was slightly constrained by the content of the university program which means that some important linguists and also some thoughts and works of those included were left out In terms of content this work is divided into four main parts the first Section Professor Henry Higgins briefly introduces the character whose name inspired the title of the present book namely the famous Professor of Phonetics who was created by the Irish playwright George Bernard Shaw for his *Pygmalion* 1912 who also inspired the movies *Pygmalion* 1938 and *My Fair Lady* 1964 *inter alia* 2 The second and third Sections instead illustrate some of the most important real i.e. not fictional scholars who like the fictional Mr Higgins were interested in the sounds of the English language and largely contributed to the development of the discipline More specifically the second Section *The Pioneers* after offering a brief and more general introduction to the origins of the study of language sounds focuses on the pioneers of the field whereas the third *XXI Century Scholars* concentrates on two important linguists who played an important role in our century Finally the fourth Section *Playing Mr Higgins* has been conceived as an opportunity for students to learn how to analyze sounds as Mr Higgins did through modern software programs used in acoustic phonetics such as Praat which Mr Higgins did not have Indeed despite the fact that the book cannot be exhaustive in the least it is envisaged that within this limit it could however give those few students who might become passionate about the topic a good reason for continuing to explore it further or to become the

new real professor Higgins of the future From the Introduction Fifty Key Thinkers on Language and Linguistics Margaret Thomas, 2012-04-27 What was the first language and where did it come from Do all languages have properties in common What is the relationship of language to thought Fifty Key Thinkers on Language and Linguistics explores how fifty of the most influential figures in the field have asked and have responded to classic questions about language Each entry includes a discussion of the person's life work and ideas as well as the historical context and an analysis of his or her lasting contributions Thinkers include Aristotle Samuel Johnson Friedrich Max Müller Ferdinand de Saussure Joseph H Greenberg Noam Chomsky Fully cross referenced and with useful guides to further reading this is an ideal introduction to the thinkers who have had a significant impact on the subject of Language and Linguistics **European Languages II--Russian** Michael V. Trofimov, Daniel Jones, 2003 This volume is a comprehensive collection of critical essays on *The Taming of the Shrew* and includes extensive discussions of the play's various printed versions and its theatrical productions Aspinall has included only those essays that offer the most influential and controversial arguments surrounding the play The issues discussed include gender authority female autonomy and unruliness courtship and marriage language and speech and performance and theatricality **Linguistic Foundations** Anthony P R Howatt, Richard C Smith, 2013-09-13 This volume forms part of a five volume set charting the progress of the nineteenth century movement which was instrumental in establishing international guidelines for the teaching of modern languages It was during this period that for the first time co operation between phoneticians and teachers culminated in the publication of works that were instrumental in establishing the applied linguistic approach to language teaching in the twentieth century For the first time too the new science of psychology influenced a scientific theory of second language acquisition The Reform Movement attracted support across Europe spurring the development of new professional associations and journals In turn the publication in these journals of reports of innovative practice contributed to a greater sense of autonomy and professionalism among modern language teachers who had hitherto tended to live under the shadow of classical language teaching The practical innovations and theoretical suggestions for the foreign language teaching although rooted in the nineteenth century still have relevance today **Sound Writing** Tobias Wilke, 2022-04-21 Considers the avant garde rethinking of poetic language in terms of physical speech production Avant garde writers and artists of the twentieth century radically reconceived poetic language appropriating scientific theories and techniques as they turned their attention to the physical process of spoken language This modernist sound writing focused on the bodily production of speech which it rendered in poetic legible graphic form Modernist sound writing aims to capture the acoustic phenomenon of vocal articulation by graphic means Tobias Wilke considers sound writing from its inception in nineteenth century disciplines like physiology and experimental phonetics following its role in the aesthetic practices of the interwar avant garde and through to its reemergence in the postwar period These projects work with the possibility of crossing over from the audible to the visible from speech to notation from body to

trace Employing various techniques and concepts this search for new possibilities played a central role in the transformation of poetry into a site of radical linguistic experimentation Considering the works of writers and artists including Raoul Hausmann Kurt Schwitters Viktor Shklovsky Hugo Ball Charles Olson and Marshall McLuhan Wilke offers a fresh look at the history of the twentieth century avant garde *The Oxford History of English Lexicography* A. P. Cowie,2008-12-04 These substantial volumes present the fullest account yet published of the lexicography of English from its origins in medieval glosses through its rapid development in the eighteenth century to a fully established high tech industry that is as reliant as ever on learning and scholarship The history covers dictionaries of English and its national varieties including American English with numerous references to developments in Europe and elsewhere which have influenced the course of English lexicography Part one of Volume I explores the early development of glosses and bilingual and multilingual dictionaries and examines their influence on lexicographical methods and ideas Part two presents a systematic history of monolingual dictionaries of English and includes extensive chapters on Johnson Webster and his successors in the USA and the OED It also contains descriptions of the development of dictionaries of national and regional varieties and of Old and Middle English and concludes with an account of the computerization of the OED The specialized dictionaries described in Volume II include dictionaries of science dialects synonyms etymology pronunciation slang and cant quotations phraseology and personal and place names This volume also includes an account of the inception and development of dictionaries developed for particular users especially foreign learners of English The Oxford History of English Lexicography unites scholarship with readability It provides a unique and accessible reference for scholars and professional lexicographers and offers a series of fascinating encounters with the men and women involved over the centuries in the making of works of profound national and linguistic importance

Concise Encyclopedia of Applied Linguistics Margie Berns,2010-03-20 Concise Encyclopedia of Applied Linguistics formalizes organizes and analyzes the relation of knowledge about language to decision making in practice It synthesizes research in psycholinguistics educational linguistics and sociolinguistics freely crossing subject fields to establish innovative and expert responses to some of the key debates in the field Authored and compiled by leaders in their various specialties and collated and extensively re edited from the award winning Encyclopedia of Language and Linguistics Second Edition this collection will be an ideal one stop desk reference solution for any linguistics professional and researcher interested in how language operates at the leading edge Authoritative review of this dynamic field placed in an interdisciplinary context Over 100 articles by leaders in the field Compact and affordable single volume format *Listening to the Past* Raymond Hickey,2017-04-20 The first edited volume to document and analyse early audio recordings of the English language
