Real War On Crime:

The Real War on Crime National Center on Institutions and Alternatives (U.S.). National Criminal Justice Commission, Steven R. Donziger, 1996-03-07 A board of criminal justice experts including Harvard Law School professor Derrick Bell former U S Attorney General Edward Levi and Elaine Jones the director of the NAACP s legal defense fund confronts the 1 explosive issue in the nation crime examining all the conflicting ideas facts figures and theories about crime violence and punishment to present a realistic and insightful analysis *The Real War on Crime* National Center on Institutions and Alternatives (U.S.). National Criminal Justice Commission, Steven A. Donziger, 1996 Surveys the current criminal justice system and crime issues Public Spaces, Private Lives Henry A. Giroux, 2003 While many of the essays in this book were written before 9 11 they point to a number of important issues such as the commercialization of public life the stepped up militarization racial profiling and the threat to basic civil liberties that have been resurrected since the terrorist attacks Public Spaces Private Lives serves to legitimate the claim that there is much in America that has not changed since 9 11 Rather than a dramatic change what we are witnessing is an intensification and acceleration of the contradictions that threatened American democracy before the tragic events of 9 11 Hence Public Spaces Private Lives offers a context for both understanding and critically engaging the combined threats posed by the increase in domestic militarization and a neoliberal ideology that substitutes market values for those democratic values that are crucial to rethinking what a vibrant democracy would look like in the aftermath of September 11th *Rogue States* Noam Chomsky, 2016-09-20 Rogue States is a collection of essays written by Chomsky in the late 1990s all of which subvert the United States foreign policy discourse and the notion of the rogue state turning the focus of criticism inwards and demonstrating how Western powers fail to uphold their own standards of conduct Among the topics considered are the Balkans Crisis the embargo against Cuba and US intervention in Latin America all of which provide important lessons for today from one of our most eminent and insightful teachers

Federal Probation , 1997 **Between Fear and Hope** Andrew L. Barlow, 2003-08-01 Globalization is transforming societies everywhere in paradoxical and contradictory ways This book examines globalization s impact on race in the United States since the mid 1970s On one hand globalization is creating conditions that support intensified efforts to claim white privileges But globalization also creates new possibilities for anti racist movements and thus the potential to undermine racial privileges Globalization is thus transforming the terrain of all racial projects in the United States This book is an original contribution to the study of race It provides a structural analysis of race and a methodology for connecting global to national and local racial processes Written in a lively and down to earth style this book is a call to action in a time of fear and hope *Policing the National Body* Jael Silliman, Jael Miriam Silliman, Anannya Bhattacharjee, 2002 This anthology explores the ways in which women of color are monitored criminalized and regulated **Rich Get Richer and the Poor Get Prison, The (Subscription)** Jeffrey Reiman, Paul Leighton, 2015-07-14 Illustrates the issue of economic inequality within the

American justice system The best selling text *The Rich Get Richer and the Poor Get Prison* contends that the criminal justice system is biased against the poor from start to finish The authors argue that even before the process of arrest trial and sentencing the system is biased against the poor in what it chooses to treat as crime The authors show that numerous acts of the well off such as their refusal to make workplaces safe refusal to curtail deadly pollution promotion of unnecessary surgery and prescriptions for unnecessary drugs cause as much harm as the acts of the poor that are treated as crimes However the dangerous acts of the well off are almost never treated as crimes and when they are they are almost never treated as severely as the crimes of the poor Not only does the criminal justice system fail to protect against the harmful acts of well off people it also fails to remedy the causes of crime such as poverty This results in a large population of poor criminals in our prisons and in our media The authors contend that the idea of crime as a work of the poor serves the interests of the rich and powerful while conveying a misleading notion that the real threat to Americans comes from the bottom of society rather than the top Learning Goals Upon completing this book readers will be able to Examine the criminal justice system through the lens of the poor Understand that much of what goes on in the criminal justice system violates one's own sense of fairness Morally evaluate the criminal justice system's failures Identify the type of legislature that is biased against the poor

Governing Through Crime Jonathan Simon, 2007-02-03 Across America today gated communities sprawl out from urban centers employers enforce mandatory drug testing and schools screen students with metal detectors Social problems ranging from welfare dependency to educational inequality have been reconceptualized as crimes with an attendant focus on assigning fault and imposing consequences Even before the recent terrorist attacks non citizen residents had become subject to an increasingly harsh regime of detention and deportation and prospective employees subjected to background checks How and when did our everyday world become dominated by fear every citizen treated as a potential criminal In this startlingly original work Jonathan Simon traces this pattern back to the collapse of the New Deal approach to governing during the 1960s when declining confidence in expert guided government policies sent political leaders searching for new models of governance The War on Crime offered a ready solution to their problem politicians set agendas by drawing analogies to crime and redefined the ideal citizen as a crime victim one whose vulnerabilities opened the door to overweening government intervention By the 1980s this transformation of the core powers of government had spilled over into the institutions that govern daily life Soon our schools our families our workplaces and our residential communities were being governed through crime This powerful work concludes with a call for passive citizens to become engaged partners in the management of risk and the treatment of social ills Only by coming together to produce security can we free ourselves from a logic of domination by others and from the fear that currently rules our everyday life
