Realities Of Social Research:

Realities of Social Research Jennifer Platt, 1976 *Social Research Methods* Sigmund Grønmo, 2023-11-22 Framing research as the process of asking and answering questions this book demonstrates how to identify good research questions and how to structure and explore them successfully Whether you are just beginning your research journey or are a seasoned traveller it helps you Decide what you want to achieve with your research Know what options you have to explore your goals Navigate the nuances of different research approaches Understand the decisions of other researchers Choose what path best suits your project Through real life examples demonstrating different types of research the book introduces qualitative quantitative and mixed methods approaches so you can compare different methods at every stage of the research process from initial idea and design to data collection and analysis This new edition includes new chapters on collecting and analysing mixed methods data and additional content on qualitative data analysis New examples reflect the cultural and global diversity of social research and extra visual aids and summaries support understanding of key research concepts and stages The book is accompanied by an online teaching guide including videos additional case studies annotated articles and critical thinking exercises **Phenomenology and Social Reality** Maurice Natanson, 2012-12-06 Alfred Schutz was born in Vienna on April 13 1899 and died in New York City on May 20 1959 The year 1969 then marks the seventieth anniversary of his birth and the tenth year of his death The essays which follow are offered not only as a tribute to an irreplaceable friend colleague and teacher but as evidence of the contributors conviction of the eminence of his work No special pleading is needed here to support that claim for it is widely acknowledged that his ideas have had a significant impact on present day philosophy and phenomenology of the social sciences In place of either argument or evaluation I choose to restrict myself to some biographical information and a fragmentary memoir The only child of Johanna and Otto Schutz an executive in a private bank in Vienna Alfred attended the Esterhazy Gymnasium in Vienna an academic high school whose curriculum included eight years of Latin and Greek He graduated at seventeen in time to spend one year of service in the Austrian army in the First World War For bravery at the front on the battlefield in Italy he was decorated by his country After the war ended he entered the University of Vienna completing a four year curriculum in only two and one half years and receiving his doctorate in Law **Social Research** Norman Blaikie, Jan Priest, 2017-01-06 This unique book explains the central role that research paradigms play in the design and conduct of social research The authors argue that social research should not just describe or confirm a social problem but should seek to find an explanation for it and to do so requires research with eyes philosophically wide open Important philosophical and practice elements of three widely recognized paradigms Neo Positive Interpretive and Critical Realist are carefully elaborated and their use in action illustrated with detailed examples The authors show that the philosophical assumptions of a chosen paradigm must match those embedded in a characterization of a research problem and its context This paradigm orientation is shown to be fundamental to appropriately framing a problem

formulating research questions deciding on a logic of inquiry and selecting and using methods to investigate it Ultimately an appropriate paradigm orientation to social research provides a dispassionate rigorous and effective basis for the production of new social scientific knowledge Following on from Blaikies *Approaches to Social Enquiry and Designing Social Research* this innovative book will be invaluable to upper level and research students their lecturers and supervisors and researchers across the social sciences
