Rearing Wolves to Our Own Destruction Midori Takagi, 2000-06-29 RICHMOND WAS NOT only the capital of Virginia and of the Confederacy it was also one of the most industrialized cities south of the Mason Dixon Line Boasting ironworks tobacco processing plants and flour mills the city by 1860 drew half of its male workforce from the local slave population *Rearing Wolves to Our Own Destruction* examines this unusual urban labor system from 1782 until the end of the Civil War Many urban bondsmen and women were hired to businesses rather than working directly for their owners As a result they frequently had the opportunity to negotiate their own contracts to live alone and to keep a portion of their wages in cash Working conditions in industrial Richmond enabled African American men and women to build a community organized around family networks black churches segregated neighborhoods secret societies and aid organizations Through these institutions Takagi demonstrates slaves were able to educate themselves and to develop their political awareness They also came to expect a degree of control over their labor and lives Richmond's urban slave system offered blacks a level of economic and emotional support not usually available to plantation slaves *Rearing Wolves to Our Own Destruction* offers a valuable portrait of urban slavery in an individual city that raises questions about the adaptability of slavery as an institution to an urban setting and more importantly the ways in which slaves were able to turn urban working conditions to their own advantage

Brothers of a Vow Ami Pflugrad-Jackisch, 2011-11-01 In *Brothers of a Vow* Ami Pflugrad Jackisch examines secret fraternal organizations in antebellum Virginia to offer fresh insight into masculinity and the redefinition of social and political roles of white men in the South Young Virginians who came of age during the antebellum era lived through a time of tremendous economic cultural and political upheaval In a state increasingly pulled between the demands of the growing market and the long established tradition of unfree labor Pflugrad Jackisch argues that groups like the Freemasons the Independent Order of Odd Fellows and the Sons of Temperance promoted market oriented values and created bonds among white men that softened class distinctions At the same time these groups sought to stabilize social hierarchies that subordinated blacks and women Pflugrad Jackisch examines all aspects of the secret orders including their bylaws and proceedings their material culture and regalia and their participation in a wide array of festivals parades and civic celebrations Regarding gender she shows how fraternal orders helped reinforce an alternative definition of southern white manhood that emphasized self discipline moral character temperance and success at work These groups ultimately established a civic brotherhood among white men that marginalized the role of women in the public sphere and bolstered the

respectability of white men regardless of class status *Brothers of a Vow* is a nuanced look at how dominant groups craft collective identities and it adds to our understanding of citizenship and political culture during a period of rapid change

Building the Black City Joe William Trotter, 2024 *Building the Black City* shows how African Americans built and rebuilt thriving cities for themselves even as their unpaid and underpaid labor enriched the nation's economic political and cultural elites Covering an incredible range of cities from the North to the South the East to the West Joe William Trotter Jr traces the growth of Black cities and political power from the preindustrial era to the present Trotter defines the Black city as a complicated socioeconomic spiritual political and spatial process unfolding time and again as Black communities carved out urban space against the violent backdrop of recurring assaults on their civil and human rights including the right to the city As we illuminate the destructive depths of racial capitalism and how Black people have shaped American culture politics and democracy *Building the Black City* reminds us that the case for reparations must also include a profound appreciation for the creativity and productivity of African Americans on their own behalf
