Reason And Religious Faith:

Reason and Religious Faith Terence Penelhum, Emeritus, 2021-06-02 The concerns of philosophy and of religion overlap to a considerable extent each seeks among other things to develop an account of mankind's place in the universe But their relationship has never been an easy one Faith gives rise to philosophical puzzlement just as secular beliefs do but it also generates special philosophical questions that secular beliefs do not This engaging text encourages students and other readers to grapple with these special questions of faith to look at how they relate to other issues in philosophy and in the empirical study of religion Equally accurate and insightful in its treatment of historical authors such as Aquinas and Pascal as it is in treatment of such contemporaries as Plantinga and Alston *Reason and Religious Faith* is the most up to date and balanced introduction to these issues available It marks an advance over earlier surveys in its recognition of religious pluralism and the relevance of non Christian religious views It is an ideal introduction to the issues of religious epistemology for students of both religious studies and philosophy

Reason & Religious Belief Michael L. Peterson, 1998 Drawing from both classical and contemporary discussions the authors examine topics of religious experience faith and reason theistic arguments the problem of evil religious language miracles life after death and much more The volume is enhanced by study questions and suggestions for further reading The book also may serve as a companion to the authors 1996 anthology *PHILOSOPHY OF RELIGION*

Reason and Religious Belief an Introduction to the Philosophy of Religion :, 2015 *Reason and Religious Belief* now in its fifth edition explores perennial questions in the philosophy of religion Drawing from the best in both classical and contemporary discussions the authors examine religious experience faith and reason the divine attributes arguments for and against the existence of God divine action in various forms of theism Reformed epistemology religious language religious diversity and religion and science

Faith and Reason in Religion George Galloway, 1927

Rationality and Religion Roger Trigg, 1998-06-08 *Rationality and Religion* deals with the perennial question of how far religious faith needs reason

Revelation and Reason: The Christian Doctrine of Faith and Knowledge Emil Brunner, 1946 *Reason & the Contours of Faith* Richard Rice, 2013-05-17 Can reason and religion get together Should believers think Can thinking people believe Does religion have to make sense Does careful thinking help or hinder religious experience People have wrestled with such questions for hundreds of years and they are just as perplexing today as ever *Reason the Contours of Faith* explores the wide ranging issues these questions raise from biblical interpretation and proofs for God's existence to the nature of religious conversion Its central purpose is to find an alternative to both fideism the idea that reason has nothing to do with faith and rationalism the conviction that reason has everything to do with it Part One *Reason and the Contents of Faith* argues that reason contributes in important but limited ways to our understanding of religion Part Two *Reason and the Experience of Faith* shows that reason can support religious commitment but never produces it

Religious Reason Ronald Michael Green, 1978 The purpose of this book is to call the separation of reason and

religion into question **Reason and Religion** Herman Philipse, 2022-04-28 Combines philosophical investigations concerning the truth of religious convictions with empirical research on the origins and functions of religious beliefs This book focuses on two core questions 1 How probable is it that any particular god exists 2 How should we account for the occurrence of religious beliefs in human societies *Postmodernism, Reason and Religion* Ernest Gellner, 1992 First Published in 1992 On questions of faith Ernest Gellner believes three ideological options are available to us today One is the return to a genuine and firm faith in a religious tradition The other is a form of relativism which abandons the notion of unique truth altogether and resigns itself to treating truth as relative to the society or culture in question The third which Gellner calls enlightenment rationalism upholds the idea that there is a unique truth but denies that any society can ever possess it definitively Learned and stimulating Professor Gellner's book is an important contribution to our understanding of postmodernism and the relations between Islam and the West It will be of great interest to anyone concerned with the ideological condition of contemporary society
