Reassessing Nuclear Power The Fallout From Chernobyl:

Reassessing Nuclear Power Christopher Flavin, 1987 *The Demise of Nuclear Energy?* Joseph G. Morone, Edward J. Woodhouse, 1989-01-01 Looks at the history of nuclear reactors discusses the process of technological decision making and examines the political reasons for nuclear power failure Bulletin of the Atomic Scientists, 1987-07 *Chernobyl (Routledge Revivals)* Chris Park, 2013-09-05 First published in 1989 Chernobyl The Long Shadow offers a balanced review of what happened there why and how it happened and what the main lessons and implications of the accident are It looks back on events during and after the disaster in particular reviewing how it and the radiation fallout were dealt with in different countries and looks forward to how the incident might affect the nuclear power industry around the world The book explores the significance of the accident within the Soviet Union considers its impact on public confidence in nuclear power and reviews what improvements are necessary in emergency planning throughout the rest of the world It is written from an interdisciplinary perspective based on detailed scientific research which is described in non specialist terms it considers themes like attitudes to nuclear power and political reaction to the accident itself It sets the Chernobyl accident into a proper context Chernobyl The Long Shadow will appeal to students and teachers of geography environmental science international politics nuclear physics and to anyone interested in current affairs and environmental problems **Chernobyl** Boris Segerstahl, 2012-12-06 This series is dedicated to serving the growing community of scholars and practitioners concerned with the principles and applications of environmental management Each volume is a thorough treatment of a specific topic of importance for proper management practices A fundamental objective of these books is to help the reader discern and implement man's stewardship of our environment and the world's renewable resources For we must strive to understand the relationship between man and nature act to bring harmony to it and nurture an environment that is both stable and productive These objectives have often eluded us because the pursuit of other individual and societal goals has diverted us from a course of living in balance with the environment At times therefore the environmental manager may have to exert restrictive control which is usually best applied to man not nature Attempts to alter or harness nature have often failed or backfired as exemplified by the results of imprudent use of herbicides fertilizers water and other agents Each book in this series will shed light on the fundamental and applied aspects of environmental management It is hoped that each will help solve a practical and serious environmental problem The International Politics of Nuclear Waste Andrew Blowers, David Lowry, Barry D. Solomon, 1991-04-01 Looking at the politics of nuclear waste this book examines the subject from an international standpoint Other works by the author Andrew Blowers include *The Limits of Power* and *Something in the Air* and he has been co editor on books such as *Nuclear Power in Crisis* *Nuclear Power* Michael J. Daley, 1996-12-01 Explores opposing viewpoints on expanding the uses of nuclear power with emphasis on pollution safety and waste disposal

Forum for Applied Research and Public Policy, 1990 *Resources in Education*, 1987 *Nuclear Choices* Richard

Wolfson, 1993 background needed to make informed choices about nuclear technologies introducing concepts that can be used for evaluating the claims of both proponents and opponents
