Recasting Conservatism Michael Oakeshott Leo Strauss And Conservative Political Thoughts Response To Postmodernism:

Recasting Conservatism Robert Devigne, 1996-08-28 Explores how conservative thought in the work of Oakeshott and Strauss and their followers responds to the postmodern loss of tradition morality and authority in contemporary British and American society The work also compares each theory to previous political outlooks in both countries *The Cambridge Companion to Oakeshott* Efraim Podoksik, 2012-06-07 A systematic and accessible presentation of the ideas of one of the leading British philosophers of the twentieth century *The Western Ideology and Other Essays* Andrew Gamble, 2021-04-28 Capitalism may be teetering once again on the edge of a terminal crisis but there are no gravediggers in sight This time around not only are there no gravediggers there are no longer any rival economic systems either In *The Western Ideology* Andrew Gamble demonstrates the contradictions and the resilience of the doctrines that define liberal modernity and examines the contemporary possibilities for dissent and change This volume brings together for the first time this seminal essay with a collection of Andrew Gamble's writings on political ideas and ideologies which have been chosen by the author to illustrate the main themes of his writing in intellectual history and the history of ideas Themes include the character of economic liberalism and neoliberalism especially as expressed in the work of Friedrich Hayek as well as critiques from both social democratic and conservative perspectives and from critics as varied as Karl Marx Michael Oakeshott and Bob Dylan The collection includes a new autobiographical introduction notes on the essays and an epilogue putting the essays into the context of today's society Andrew Gamble provides a unique exploration of the debates and the ideas that have shaped our politics and Western ideology A companion volume of Andrew Gamble's essays *After Brexit and Other Essays* focusing on political economy and British politics is also available from Bristol University Press [The Right-Wing Mirror of Critical Theory](#) Larry Alan Busk, 2023-08-21 What really separates emancipatory thinking from its opposite The prevailing Left defines itself against neoliberalism conservative traditionalism and fascism as a matter of course The philosophical differences however may be more apparent than real *The Right Wing Mirror of Critical Theory* argues that dominant trends in critical and radical theory inadvertently reproduce the cardinal tenets of the twentieth century's most influential right wing philosophers It finds the rejection of foundationalism rationalism economic planning and vanguardism mirrored in the work of Schmitt Oakeshott Hayek and Strauss If it is to be more than merely an inverted image of the Right critical theory must reevaluate its relationship to what Julius Nyerere once called deliberate design in politics In the era of anthropogenic climate change a substantial not merely nominal departure from right wing talking points is all the more necessary and momentous [International Political Theory after Hobbes](#) R. Prokhovnik, G. Slomp, 2011-01-05 The idea of international political theory after Hobbes is a timely and lively focus through which to raise key questions about international politics and to set up dialogues between historical political theory and contemporary theories of international relations about the legacy

of Hobbes in international politics The move by political theorists towards consideration of the international realm and the consequent blurring of the distinction between domestic and international politics over recent years has been marked In the light of these changes the role of Hobbes in the dominant realist theory of International Relations requires urgent re examination This book makes an important and distinctive contribution to the argument that international political theory is moving beyond the reading of Hobbes as a founding theorist of the modern state in an inter state system perpetuated by orthodox International Relations The volume brings together a set of internationally respected researchers with an expertise on Hobbes views on international relations in the context of the history of political thought Hobbesian realism and on Hobbes and contemporary international political theory *Leo Strauss in Northeast Asia* Jun-Hyeok Kwak, Sungwoo Park, 2019-10-23 This book analyzes the reception of Leo Strauss and his political philosophy in Northeast Asia By juxtaposing the central idea of Strauss's political philosophy with the question of modernity the contributors explore the eclectic adaptations of Strauss in Northeast Asian countries as a philosophical appropriation across cultures Examining how Strauss's philosophy was first introduced in Northeast Asia the book sheds light on the similarities and differences in experiences challenging the dominant approach which attributes various receptions of Strauss in Northeast Asia solely to sociopolitical circumstances This book also seeks to move beyond a China centric approach to investigate the possible transcultural appeals of Strauss's political philosophy by exploring the cases of Japan and South Korea Appealing to a wide network of scholars and practitioners in East Asia engaged in rethinking cultural particularities this volume will be attractive to upper level undergraduate students graduate students and advanced researchers in political philosophy political theory and Asian politics **The Great Persuasion** Angus Burgin, 2012-10-30 Just as economists struggle today to justify the free market after the global economic crisis an earlier generation revisited their worldview after the Great Depression In this intellectual history of that project Burgin traces the evolution of postwar economic thought in order to reconsider the most basic assumptions of a market centered world *The Bloomsbury Encyclopedia of Philosophers in America* John R. Shook, 2016-02-11 For scholars working on almost any aspect of American thought The Bloomsbury Encyclopedia to Philosophers in America presents an indispensable reference work Selecting over 700 figures from the Dictionary of Early American Philosophers and the Dictionary of Modern American Philosophers this condensed edition includes key contributors to philosophical thought From 1600 to the present day entries cover psychology pedagogy sociology anthropology education theology and political science before these disciplines came to be considered distinct from philosophy Clear and accessible each entry contains a short biography of the writer an exposition and analysis of his or her doctrines and ideas a bibliography of writings and suggestions for further reading Featuring a new preface by the editor and a comprehensive introduction The Bloomsbury Encyclopedia to Philosophers in America includes 30 new entries on twenty first century thinkers including Martha Nussbaum and Patricia Churchland With in depth overviews of Waldo Emerson Margaret Fuller Noah Porter Frederick

Rauch Benjamin Franklin Thomas Paine and Thomas Jefferson this is an invaluable one stop research volume to understanding leading figures in American thought and the development of American intellectual history **Forthcoming**
Books Rose Arny,1994-02 **Between Athens and Jerusalem** David Janssens,2009-01-08 Examines the early works of German Jewish philosopher Leo Strauss 1899 1973
