Today we can walk into any well stocked bookstore or library and find an array of historical atlases The first thorough review of the source material Historical Atlases traces how these collections of maps for history maps whose sole purpose was to illustrate some historical moment or scene came into being Beginning in the sixteenth century and continuing down to the late nineteenth Walter Goffart discusses milestones in the origins of historical atlases as well as individual maps illustrating historical events in alternating paired chapters He focuses on maps of the medieval period because the development of maps for history hinged particularly on portrayals of this segment of the postclassical modern past Goffart concludes the book with a detailed catalogue of more than 700 historical maps and atlases produced from 1570 to 1870 Historical Atlases will immediately take its place as the single most important reference on its subject Historians of cartography medievalists and anyone seriously interested in the role of maps in portraying history will find it invaluable Visualizing the Past Kathrin Maurer,2013-03-22 Visual media had a decisive impact on how the past was perceived in historicist culture in nineteenth century Germany The panorama photography and book illustrations can portray the past under the auspices of spatiality Research on historicist culture often neglects this dimension of space and concentrates on traditional historicist paradigms such as temporality narrative and teleology By investigating the visual vocabulary of different historicist genres academic historiography illustrated history books historical maps this volume expands an understanding of German historicist culture as a multi medial phenomenon and shows that past is conveyed in spatial forms such as travel locations national and colonial spaces as well as geographical areas Tracing these concepts of historical space this volume demonstrates that the image works as a powerful tool to propagate the ideology of German imperialism in the nineteenth century but also can critically reflect the political agendas of national historicism *An Historical Atlas of Modern Europe from 1789 to 1914* Sir Charles Grant Robertson,John George Bartholomew,1915
