Gino K Piovesana

Recent Japanese Philosophical Thought 1862-1994 A Survey:

Recent Japanese Philosophical Thought 1862-1994 Gino K. Piovesana, 2013-12-16 Piovesana's famous survey is republished with an additional chapter by Naoshi Yamawaki to cover the intervening years up to 1994. It continues to be the only introduction to Japanese thinkers and philosophical thought covering the period of Japan's modern era. **Modern**

Japanese Political Thought and International Relations Felix Rösch, Atsuko Watanabe, 2018-09-16 In an ever more globalized world, sustainable global development requires effective intercultural co-operations. This dialogue between non-western and western cultures is essential to identifying global solutions for global socio-political challenges. *Modern Japanese Political Thought and International Relations* critiques the formation of non-western International Relations by assessing Japanese political concepts to contemporary IR discourses since the Meiji Restoration to better understand knowledge exchanges in intercultural contexts. Each chapter focuses on a particular aspect of this dialogue from international law and nationalism to concepts of peace and Daoism. This collection grapples with postcolonial questions of Japan's indigenous IR theory. *Handbook of Confucianism in Modern Japan* Shaun O'Dwyer, 2025-10-01 In mainstream assessments of Confucianism's modern genealogy, there is a Sinocentric bias which is in part the result of a general neglect of modern Japanese Confucianism by political and moral philosophers and intellectual historians during the post-war era. This collection of essays joins a small group of other studies bringing modern Japanese Confucianism to international scholarly notice, largely covering the time period between the Bakumatsu era of the mid 19th century and the 21st century. The essays in this volume can be read for the insight they provide into the intellectual and ideological proclivities of reformers, educators, and philosophers explicitly reconstructing Confucian thought or more tacitly influenced by it during critical phases in Japan's modernization, imperialist expansionism, and post-1945 reconstitution as a liberal democratic polity. They can be read as introductions to the ideas of modern Japanese Confucian thinkers and reformers whose work is little known outside Japan and sometimes barely remembered inside Japan. They can also be read as a needed corrective to the above-mentioned Sinocentric bias in the 20th-century intellectual history of Confucianism. For those Confucian scholars currently exploring how Confucianism is or can be made compatible with democracy, at least some of the studies in this volume serve as a warning. They enjoin readers to consider how Confucianism was also rendered compatible with the authoritarian ultranationalism and militarism that captured Japan's political system in the 1930s and brought war to the Asia-Pacific region.

Japan at War Louis G. Perez, 2013-01-08 This compelling reference focuses on the events, individuals, organizations, and ideas that shaped Japanese warfare from early times to the present day. Japan's military prowess is legendary. From the early samurai code of morals to the 20th-century battles in the Pacific theater, this island nation has a long history of duty, honor, and valor in warfare. This fascinating reference explores the relationship between military values and Japanese society and traces the evolution of war in this country from 700 CE to modern times. In *Japan at War: An Encyclopedia*, author Louis G.

Perez examines the people and ideas that led Japan into or out of war analyzes the outcomes of battles and presents theoretical alternatives to the strategic choices made during the conflicts The book contains contributions from scholars in a wide range of disciplines including history political science anthropology sociology language literature poetry and psychology and the content features internal rebellions and revolutions as well as wars with other countries and kingdoms Entries are listed alphabetically and extensively cross referenced to help readers quickly locate topics of interest **Micro and Macro Philosophy: Organicism in Biology, Philosophy, and Politics** Thorsten Botz-Bornstein, 2020-10-26 What role can philosophy play in a world dominated by neoliberalism and globalization Must it join universalist ideologies as it did in past centuries Or might it turn to ethnophilosophy and postmodern fragmentation Micro and Macro Philosophy argues that universalist cosmopolitanism and egocentric culturalism are not the only alternatives Western philosophy has created a false dichotomy A better solution can be found in an organic philosophy that functions through micro macro interactions According to biologists the twentieth century was the century of the gene while the twenty first century is destined to be the century of the organic Micro and Macro Philosophy attempts to establish such a view in philosophy by highlighting micro macro patterns found in history it seeks to design new ways of organic thinking in the human sciences *Glocal Public Philosophy* Naoshi Yamawaki, 2016 Glocal Public Philosophy means a practical philosophy that deals with universal public issues from the particular public world or place where each individual lives and acts Taking historical changes of the nature of public philosophy as well as of academic situations from the 19th century onwards into consideration the author tries to develop this idea in view of contemporary philosophies both in Western countries and in Japan This book provides not only new knowledge about modern Japanese public philosophies but also inspiration for a new role of philosophy for the realization of a more peaceful and just societies Series Philosophy in International Context Philosophie im internationalen Kontext Studies Abhandlungen Vol 9 Subject Philosophy Recent Japanese Philosophical Thought 1862-1994 Gino K Piovesana, 2016-01-21 Piovesana's famous survey is republished with an additional chapter by Naoshi Yamawaki to cover the intervening years up to 1994 It continues to be the only introduction to Japanese thinkers and philosophical thought covering the period of Japan's modern era **Subject Guide to Books in Print**, 2001 *Forthcoming Books* Rose Arny, 1996-06 Whitaker's Books in Print, 1998

Eventually, you will utterly discover a additional experience and skill by spending more cash. yet when? realize you acknowledge that you require to acquire those every needs in the same way as having significantly cash? Why dont you try to get something basic in the beginning?
