Patristic sources and their uses until ca. 1200* Irena Backus,1997 *Theology and Science in the Thought of Francis Bacon* Professor Steven Matthews,2013-06-28 This study re evaluates the religious beliefs of Francis Bacon and the role which his theology played in the development of his program for the reform of learning and the natural sciences the Great Instauration Bacon s Instauration writings are saturated with theological statements and Biblical references which inform and explain his program yet this aspect of his writings has received little attention Previous considerations of Bacon s religion have been drawn from a fairly short list of his published writings Consequently Bacon has been portrayed as everything from an atheist to a Puritan scholarly consensus is lacking This book argues that by considering the historical context of Bacon s society and his conversion from Puritanism to anti Calvinism as a young man his own theology can be brought into clearer focus and his philosophy more properly understood After leaving his mother s household Bacon underwent a transformation of belief which led him away from his mother s Calvinism and toward the writings of the ancient Church Fathers particularly Irenaeus of Lyon Bacon s theology increasingly came to reflect the theological interests of his friend and editor Lancelot Andrewes The patristic turn of Bacon s belief in the last two decades of the reign of Elizabeth significantly affected the development of his philosophical program which was produced in the first two decades of the Stuart era This study then examines the theology present in the Instauration writings themselves and concludes with a consideration of the effect which Bacon s theology had on the subsequent direction of empirical science and natural theology in the English context In so doing it not only offers a new perspective on Bacon but will serve as a contribution toward a better understanding of the religious context of and motivations behind empirical science in early modern England **The Reception of the Church Fathers in the West: pt. 3. Izbicki,2009 The division of the Church or Schism that took place between 1378 and 1417 had no precedent in Christianity No conclave since the twelfth century had acted as had those in April and September 1378 electing two concurrent popes This crisis was neither an issue of the authority claimed by the pope and the Holy Roman Emperor nor an issue of authority and liturgy The Great Western Schism was unique because it forced upon Christianity a rethinking of the traditional medieval mental frame It raised question of personality authority human fallibility ecclesiastical jurisdiction and taxation and in the end responsibility in holding power and authority This collection presents the broadest range of experiences center and periphery clerical and lay male and female Christian and Muslim Theology including exegesis of Scripture diplomacy French literature

History and Memory in the Carolingian World Rosamond

McKitterick, 2004-07-29 The writing and reading of history in the early Middle Ages form the key themes of this 2004 book. The primary focus is on the remarkable manifestations of historical writing in relation to historical memory in the Frankish kingdoms of the eighth and ninth centuries. It considers the audiences for history in the Frankish kingdoms, the recording of memory in new genres including narrative histories, cartularies and *Libri memoriales*, and thus particular perceptions of the Frankish and Christian past. It analyses both original manuscript material and key historical texts from the Carolingian period, a remarkably creative period in the history of European culture. Presentations of the past developed in this period were crucial in forming an historical understanding of the Greco-Roman and Judaeo-Christian past and in subsequent centuries of early medieval Europe. They also played an extraordinarily influential role in the formation of political ideologies and senses of identity within Europe.

The Oxford Handbook of the Early Modern Sermon Peter McCullough, Hugh Adlington, Emma Rhatigan, 2011-08-04 The Oxford Handbook of the Early Modern Sermon is the first book to survey this rich new field for both students and specialists. It is divided into sections devoted to sermon composition, delivery and reception, sermons in Scotland, Ireland and Wales, English Sermons 1500-1660 and English Sermons 1660-1720.

In Search of Authority Paul

Avis, 2014-03-13 In this new three-part book series, Avis tackles a series of issues relevant to Anglicanism in the current day. The first book, *In Search of Authority*, seeks to examine Anglican Theology in relation to questions of authority. Anglican theology has been a hotbed of debate about the issue of authority since the Reformation. What do we really appeal to when attempting to decide matters of doctrine, worship, ministry or ethics? The debate is very much alive today between Evangelical, Liberal and Catholic Anglicans around the world. This book focuses on the understanding of authority in Anglican theology.
