Rechenschaft Und Ausblick:

Rechenschaft und Ausblick Karl Jaspers, 1958 Filosofiske taler og afhandlinger The Palgrave Handbook of German Idealism and Existentialism Jon Stewart, 2020-08-25 This Handbook explores the complex relations between two great schools of continental philosophy German idealism and existentialism While the existentialists are commonly thought to have rejected idealism as overly abstract and neglectful of the concrete experience of the individual the chapters in this collection reveal that the German idealists in fact anticipated many key existentialist ideas A radically new vision of the history of continental philosophy is thereby established one that understands existentialism as a continuous development from German idealism Key Features Operates at both the macro level and micro level treating both the two schools of thought and the individual thinkers associated with them Explores the relations from shifting perspectives by examining how the German idealists anticipated existentialist themes and how the existentialists concretely drew on the work of the idealists Meticulously uncovers and documents many little known points of contact between the German idealists and the existentialists Includes often neglected figures such as Jacobi and Trendelenburg This Handbook is an essential resource for researchers and advanced students interested in thinking critically about the broad development of continental philosophy Moreover the individual chapters on specific philosophers contain a wealth of information that will compel experts in the field to reconsider their views on these figures Existentielle Freiheit und politische Freiheit Philipp Batthyány, 2019-10-09 Intention dieses Buches ist ein zusammenfassender Vergleich der Freiheitsbegriffe der Existenzphilosophie und des Liberalismus Hierzu werden die Werke zweier der profiliertesten Denker der jeweiligen Freiheitsauffassung im 20. Jahrhundert Karl Jaspers und Friedrich August von Hayek ausführlich dargelegt und ihre Freiheitsideen von deren Grundlagen her sowohl eigenständig als auch aneinander entwickelt Im politischen Schlussteil wird die Möglichkeit einer Freiheitskonzeption aufgezeigt die beide Ansätze verbindet Wenngleich bei Jaspers durch einen expliziten Bezug auf Hayek in einem seiner Bücher selbst schon angelegt ist ein solcher Vergleich in der Literatur bislang nicht vorgenommen worden In vielerlei Hinsicht ideengeschichtlich und systematisch wird mit dieser Arbeit folglich Neuland betreten und eröffnet sich in Forschung und Lehre neue philosophische Diskurse und Deutungsweisen beider Werke Phenomenology in Psychology and Psychiatry Herbert Spiegelberg, 1972-02 Phenomenology in Psychology and Psychiatry is a historical introduction to phenomenology in psychology working from the general to the details of the subject **Innere Freiheit** Christoph Goos, 2011 German description Die Bedeutung des grundgesetzlichen Würdebegriffs ist noch immer ungeklärt Rechtsprechung und Literatur verzichten in der Regel auf eine positive Bestimmung des Begriffs und argumentieren negativ vom Verletzungsvorgang her Der für die Identifikation verbotener Verletzungshandlungen erforderliche Konsens im Einzelfall jedoch stellt sich immer seltener ein Christoph Goos weist anhand der Materialien und weiterer zeitgenössischer Texte nach dass die Vater und Mutter des Grundgesetzes anders als verbreitet angenommen eine durchaus präzise

Vorstellung von der Bedeutung des Würdebegriffs hatten Sie verstanden unter der Würde des Menschen seine innere geistige Freiheit die in der NS Zeit systematisch mit Füssen getreten worden war Ausgehend von diesem historischen Befund werden das Schutzgut die unvertretbare Erst Person Perspektive jedes Menschen und die Normgehalte des Art 1 Abs 1 GG Antastungsverbot Achtungs und Schutzpflicht dargestellt und entfaltet

Phenomenology and Existentialism in the Twentieth Century Anna-Teresa Tymieniecka, 2010-06-23 The discussion on the phenomenology of life will continue to be crucial to the general outlook and direction of phenomenological investigations The importance of it is not only the fact that it is an innovation in the philosophical circle but it is also an effort that contributes to the re-reading of the hitherto exaggerated differences between phenomenology and metaphysics What is new and significant about life is that even though it is evident in the flow of the history of philosophy no philosopher has seriously addressed it Not many philosophers have said something in particular about life in serious philosophical reflection The discussion on life by Henri Bergson attests to this and one can hardly point to other deep reflections elsewhere about the subject The advantage here about our area is not only that it has extended the horizon of phenomenological thinking it has also helped to lead phenomenology from the constitutive analysis to a creative impetus that has brought a new point of view to the field hence raising questions about the general philosophical tradition from ancient times This is a reading which my philosophy attempts to investigate about Tymieniecka's thought The emphasis in philosophy till now has been more on reason in its intellectual and pure rational dimension based on the earliest conception of the human person distinguished by rationality

Daoist Encounters with Phenomenology David Chai, 2020-01-09 This collection is intercultural philosophy at its best It contextualizes the global significance of the leading figures of Western phenomenology including Husserl Hegel Nietzsche Heidegger Buber and Levinas enters them into intercultural dialogue with the Daoism of Laozi and Zhuangzi and in doing so breaks new ground By presenting the first sustained analysis of the Daoist worldview by way of phenomenological experience this book not only furthers our understanding of Daoism and phenomenology but delves deeper into the roots of human thinking aesthetic expression and its impact on the modern social world The international team of philosophers approach the phenomenological tradition in the broadest sense possible looking beyond the phenomenological language of Husserl With chapters on art ethics death and the metaphor of dream and hermeneutics this collection encourages scholars and students in both Asian and Western traditions to rethink their philosophical bearings and engage in meaningful intercultural dialogue

One Century of Karl Jaspers' General Psychopathology Giovanni Stanghellini, Thomas Fuchs, 2013-07-04 2013 sees the centenary of Jaspers' foundation of psychopathology as a science in its own right In 1913 Karl Jaspers published his psychiatric opus magnum the *Allgemeine Psychopathologie* General Psychopathology Jaspers was working at a time much like our own with rapid expansion in the neurosciences and responding to the philosophical challenges that this raised The idea inspiring his book was very simple to bring order into the chaos of abnormal psychic phenomena by rigorous description definition and classification and to

empower psychiatry with a valid and reliable method to assess and make sense of abnormal human subjectivity After almost one century many of the concepts challenged by Jaspers are still at issue and Jaspers investigation is even now the ground for analyses and discussions With a new edition of the Diagnostic and Statistical Manual DSM imminent many of the issues concerning methodology and diagnosis are still the subject of much discussion and debate This volume brings together leading psychiatrists and philosophers to discuss and evaluate the impact of this volume its relevance today and the legacy it left Jaspers General Psychopathology is not an easy text to read Especially nowadays in the Internet era it may appear in several parts obscure convoluted or repetitive This is why the present volume has the potential to be not only attractive to scholars but also extremely useful for young psychiatrists and busy clinicians It may represent for them a guide to the reading of that ponderous text helping them to extract the key messages that are likely to resonate with and at the same time enrich their clinical practice and theoretical reflection From the Introduction by Mario Maj *The Phenomenological Movement* E. Spiegelberg, 2012-12-06 The present attempt to introduce the general philosophical reader to the Phenomenological Movement by way of its history has itself a history which is pertinent to its objective It may suitably be opened by the following excerpts from a review which Herbert W Schneider of Columbia University the Head of the Division for International Cultural Cooperation Department of Cultural Activities of Unesco from 1953 to 56 wrote in 1950 from France The influence of Husserl has revolutionized continental philosophies not because his philosophy has become dominant but because any philosophy now seeks to accommodate itself to and express itself in phenomenological method It is the sine qua non of critical respectability In America on the contrary phenomenology is in its infancy The average American student of philosophy when he picks up a recent volume of philosophy published on the continent of Europe must first learn the tricks of the phenomenological trade and then translate as best he can the real import of what is said into the kind of analysis with which he is familiar No doubt American education will gradually take account of the spread of phenomenological method and terminology but until it does American readers of European philosophy have a severe handicap and this applies not only to existentialism but to almost all current philosophical literature These sentences clearly implied a challenge if not a mandate to all those who by background and interpretive ability were in a position to meet it *Translations from Kommunist* ,1964
