

Rituals Of Manhood Male Initiation In Papua New Guinea

James Faubion

Rituals Of Manhood Male Initiation In Papua New Guinea:

Rituals of Manhood Gilbert H. Herdt, 2017-09-08 *Rituals of Manhood* provides some of the most dramatic and richly textured accounts of ritual passages known to anthropologists of the late twentieth century. When in an earlier time anthropologists and sociologists described collective initiation rituals, the political and gender aspects of these practices were seldom underscored. Today the power relationships of the body and domination and the social arena of gender politics are widely regarded as critical to the cultural meaning and interpretation. Rituals of Manhood Gilbert H. Herdt, 1997

Rituals of Manhood Gilbert H. Herdt, Roger M. Keesing, 1982 **Ritual of Manhood** Gilbert Herdt, 1982 Rituals of Manhood Gilbert H. Herdt, *Rituals of Manhood* provides some of the most dramatic and richly textured accounts of ritual passages known to anthropologists of the late twentieth century. When in an earlier time anthropologists and sociologists described collective initiation rituals, the political and gender aspects of these practices were seldom underscored. Today the power relationships of the body and domination and the social arena of gender politics are widely regarded as critical to the cultural meaning and interpretation. Gilbert H. Herdt is the editor **The Making of Great Men** Maurice

Godelier, 1986-03-31 This book presents a detailed account of the lives of the Baruya, a tribal society in the highlands of Papua New Guinea, and will interest scholars and students of anthropology. Gender in Amazonia and Melanesia Thomas Gregor, Donald Tuzin, 2001-11 Amazonia and Melanesia are half a world in distance yet their cultures bear similarities in the areas of sex and gender. This work looks at ways in which sex and gender are elaborated, obsessed over, and internalized.

Handbook of Material Culture Chris Tilley, Webb Keane, Susanne Kuechler, Mike Rowlands, Patricia Spyer, 2006-01-05 The study of material culture is concerned with the relationship between persons and things in the past and in the present in urban and industrialized and in small scale societies across the globe. The *Handbook of Material Culture* provides a critical survey of the theories, concepts, intellectual debates, substantive domains, and traditions of study characterizing the analysis of things. It is cutting edge rather than simply reviewing the field as it currently exists. It also attempts to chart the future, the manner in which material culture studies may be extended and developed. The *Handbook of Material Culture* is divided into five sections. Section I maps material culture studies as a theoretical and conceptual field. Section II examines the relationship between material forms, the human body, and the senses. Section III focuses on subject-object relations. Section IV considers things in terms of processes and transformations in terms of production, exchange, and consumption, performance, and the significance of things over the long term. Section V considers the contemporary politics and poetics of displaying, representing, and conserving material, and the manner in which this impacts on notions of heritage, tradition, and identity. The *Handbook* charts an interdisciplinary field of studies that makes a unique and fundamental contribution to an understanding of what it means to be human. It will be of interest to all who work in the social and historical sciences, from anthropologists and archaeologists to human geographers to scholars working in heritage design and cultural studies. Language, Gender, and

Sex in Comparative Perspective Susan U. Philips, 1987-06-26 Most studies of gender differences in language use have been undertaken from exclusively either a sociocultural or a biological perspective By contrast this innovative volume places the analysis of language and gender in the context of a biocultural framework examining both cultural and biological sources of gender differences in language as well as the interaction between them The first two parts of the volume on cultural variation in gender differentiated language use comparing Western English speaking societies with societies elsewhere in the world The essays are distinguished by an emphasis on the syntax rather than style or strategy of gender differentiated forms of discourse but also often carry out the same forms differently through different choices of language form These gender differences are shown to be socially organized although the essays in Part I also raise the possibility that some cross cultural similarities in the ways males and females differentially use language may be related to sex based differences in physical and emotional makeup Part III examines the relationship between language and the brain and shows that although there are differences between the ways males and females process language in the brain these do not yield any differences in linguistic competence or language use Taken as a whole the essays reveal a great diversity in the cultural construction of gender through language and explicitly show that while there is some evidence of the influence of biologically based sex differences on the language of women and men the influence of culture is far greater and gender differences in language use are better accounted for in terms of culture than in terms of biology The collection will appeal widely to anthropologists psychologists linguists and other concerned with the understanding of gender roles **The Missionary Family** Dwight P. Baker, Robert J. Priest, 2014-08-29

The title of this book points to a feature the missionary family often considered to be a distinctive of the Protestant missionary movement Certainly the presence of missionary families in the field has been a central factor in enabling configuring and restricting Protestant missionary outreach What special concerns does sending missionary families raise for the conduct of mission What means are available for extending care and support to missionary families These issues are the focus of the chapters in part 1 of this book In recent years an increasing number of reports have surfaced of sexual abuse in mission settings Some reports have been based on recovered memories the assessment of which raises difficult questions Clearly sexual abuse in mission settings and how to understand allegations of abuse based on recovered memories are matters of grave concern to mission agencies and mission supporters as well as to missionary families Part 2 serves the mission community by scrutinizing such matters offering legal historical and psychological perspectives on the topic In a new feature Forum on Sexual Orientation and Mission An Evangelical Discussion the Evangelical Missiological Society takes up a pressing issue of our day Fourteen evangelical scholars participate in the discussion found in part 3 Far from being the final word this forum is presented with the prayer that it will serve as an opening to and basis for ongoing missiological conversation about an urgent and timely topic The Training and Socializing of Military Personnel Peter Karsten, 1998

First Published in 1999 Routledge is an imprint of Taylor Francis an informa company **Ritualized Homosexuality in**

Melanesia Gilbert H. Herdt, 2023-04-28 This book contains the work of seven leading anthropologists on the subject of ritualized homosexuality and it marks the first time that anthropologists have systematically studied cross cultural variations in homosexual behavior in a non Western culture area The book as a whole indicates that contemporary theories of sex and gender development need revision in light of the Melanesian findings This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1984 This book contains the work of seven leading anthropologists on the subject of ritualized homosexuality and it marks the first time that anthropologists have systematically studied cross cultural variations in homosexual behavior in a non Western culture

Religions of Melanesia Garry Trompf, 2006-09-30 Melanesia boasts over one quarter of the world s distinct religions and presents the most complex religious panorama on earth The region is famous for its unusual new religious movements that have adapted traditional beliefs to modernity in surprising ways As the first bibliographical survey to comprehensively cover the entire region Religions of Melanesia is an invaluable research aid for anyone interested in this growing field Trompf s work is a complete listing of scholarly publications and provides readable and concise descriptions that will clearly guide the researcher toward the most relevant sources This survey covers 2188 entries organized topically and regionally Trompf covers such subjects as traditional and modern belief systems and the emergent indigenous Christianity that has taken root Regional coverage includes Irian Jaya Papua New Guinea Solomon Islands Vanuatu New Caledonia and Fiji

Rethinking The Subject James Faubion, 2018-02-06 Since the early seventies European thinkers have departed notably from their predecessors in order to pursue analytical programs more thoroughly their own Rethinking the Subject brings together in one volume some of the most influential writings of Foucault Habermas Bourdieu Pizzorno Macfarlane and other authors whose ideas have had a worldwide influence in recent social theory This anthology is testament to the central importance of three contemporary themes each familiar to earlier thinkers but never definitively formulated or resolved The first two concern the nature and modalities of power and legitimacy in society The third and most fundamental deals with the nature and modalities of the self or subject These themes owe their special contemporary relevance to an array of events from the collapse of colonialism to the birth of test tube babies James Faubion s introduction traces the historical context of these influential events and themes It also traces the lineaments of a still inchoate intellectual movement of which the anthology s contributors are the vanguard Whether modernist or post modernist this movement leads away from a world constituting subject which in one guise or another has served as the ontological ground of social reflection and research since Kant It points instead toward ontological pluralism and toward polythetic diagnostics of heterogeneous forces that constitute a multiplicity of worlds and subjects

On Aboriginal Religion W. E. H. Stanner, 2014-02-19 Anthropologist W E H Stanner

is perhaps most well known for coining the phrase the great Australian silence addressing the culture of denial or conscious forgetting regarding the history Australia since European arrival This reprint of *On Aboriginal Religion* pays tribute to the ongoing relevance of Stanner's work His research into Aboriginal religion was first published as a series of articles in the journal *Oceania* between 1959 and 1963 In 1963 the articles were published as the collection in as *Oceania Monograph 11* which was later reprinted as a facsimile edition with introductory sections by Francesca Merlan and Les Hiatt 1989 As Stanner writes in his introduction to the 1963 collection I thought I should take Aboriginal religion as significant in its own right and make it the primary subject of study rather than study it as was done so often in the past mainly to discover the extent to which it expressed or reflected facts and preoccupations of the social order It is this dedication to recording the beliefs and observing the practice of Aboriginal religion that has made this monograph so important **Integrating**

Traditional Healing Practices Into Counseling and Psychotherapy Roy Moodley, William West, 2005-04-20 This book seeks to define redefine and identify indigenous and traditional healing in the context of North American and Western European health care particularly in counseling psychology and psychotherapy **Sambia Sexual Culture** Gilbert

Herd, 1999-06 This collection of essays on the sexual culture of the Sambia of Papua New Guinea examines fetish and fantasy ritual nose bleeding the role of homoerotic insemination the role of the father and mother in the process of identity formation *Masculinity, Motherhood, and Mockery* Eric Kline Silverman, 2001 An important ethnographic analysis of motherhood in one Melanesian society *Human Ecology* Daniel G. Bates, Judith Tucker, 2010-03-29 This book arose from

the need to develop accessible research based case study material which addresses contemporary issues and problems in the rapidly evolving field of human ecology Academic political and indeed public interest in the environmental sciences is on the rise This is no doubt spurred by media coverage of climate change and global warming and attendant natural disasters such as unusual drought and flood conditions toxic dust storms pollution of air and water and the like But there is also a growing intellectual awareness of the social causes of anthropogenic environmental impacts political vectors in determining conservation outcomes and the role of local representations of ecological knowledge in resource management and sustainable yield production This is reflected in the rapid increase of ecology courses being taught at leading universities in the fast growing developing countries much as was the case a decade or two ago in Europe and North America The research presented here is all taken from recent issues of *Human Ecology* An Interdisciplinary Journal Since the journal itself is a leading forum for contemporary research the articles we have selected represent a cross section of work which brings the perspectives of human ecology to bear on current problems being faced around the world The chapters are organized in such a way to facilitate the use of this volume either to teach a course or to introduce an informed reader to the field *Thicker Than Water* Melissa Meyer, 2014-02-04 Blood is more than a fluid solution of cells platelets and plasma It is a symbol for the most basic of human concerns life death and family find expression in rituals surrounding everything from menstruation to human sacrifice

Comprehensive in its scope and provocative in its argument this book examines beliefs and rituals concerning blood in a range of regional and religious contexts throughout human history Meyer reveals the origins of a wide range of blood rituals from the earliest surviving human symbolism of fertility and the hunt to the Jewish bris and the clitoridectomies given to young girls in parts of Africa The book also explores how cultural practices influence gene selection and makes a connection with the natural sciences by exploring how color perception influences the human proclivity to create blood symbols and rituals
