Tse**

Rival Jeruselems The Geography Of Victorian Religion:

Rival Jeruselems K. D. M. Snell, Paul S. Ell, 2000-10-26 This pioneering book is based upon very extensive analysis of the famous 1851 Census of Religious Worship and earlier sources such as the 1676 Compton Census The authors stress contextual and regional understanding of religion Among the subjects covered for all of England and Wales are the geography of the Church of England Roman Catholicism the old and new dissenting denominations the spatial complementarity of denominations and their importance for political history A range of further questions are then analysed such as regional continuities in religion the growth of religious pluralism Sunday schools and child labour during industrialisation free and appropriated church sittings landownership and religion and urbanisation and regional secularisation This book s advanced methods and findings will have far reaching influence within the disciplines of history historical and cultural geography religious sociology and in the social science community general [The Religious Census of 1851 in Yorkshire](#) John Wolffe, 2005 *A Companion to Nineteenth-Century Britain* Chris Williams, 2008-04-15 A Companion to Nineteenth Century Britain presents 33 essays by expert scholars on all the major aspects of the political social economic and cultural history of Britain during the late Georgian and Victorian eras Truly British rather than English in scope Pays attention to the experiences of women as well as of men Illustrated with maps and charts Includes guides to further reading [Handbook of the Geographies of Religion](#) Lily Kong, Orlando Woods, Justin K.H. Tse, 2024-12-02 This international and interdisciplinary handbook offers a comprehensive and an in depth overview of contemporary research theory and practice in the geographies of religion in various parts of the world and with different populations The book showcases the major theoretical interventions in the field and the debates about the existential constitution of sacred space and what this means for secularization It outlines the most significant geographical themes related to these new developments with their implications for how to think about landscapes space bodies and worlds The book also discusses the future of the field especially in the realms of encounters and ethics economies and markets institutions and organisations movements and migrations and media and mediums It also offers views from disciplines outside of geography including from sociology anthropology religious studies and media and communications which demonstrates the contributions of geographers of religion to wider intellectual conversations and debates [The Origins of Primitive Methodism](#) Sandy Calder, 2016 The Primitive Methodist Connexion s mature social character may have been working class but this did not reflect its social origins **Tying the Knot** Rebecca Probert, 2021-09-23 The Marriage Act 1836 established the foundations of modern marriage law allowing couples to marry in register offices and non Anglican places of worship for the first time Rebecca Probert draws on an exceptionally wide range of primary sources to provide the first detailed examination of marriage legislation social practice and their mutual interplay from 1836 through to the unanticipated demands of the 2020 coronavirus pandemic She analyses how and why the law has evolved closely interrogating the parliamentary and societal

debates behind legislation She demonstrates how people have chosen to marry and how those choices have changed and evaluates how far the law has been help or hindrance in enabling couples to marry in ways that reflect their beliefs be they religious or secular In an era of individual choice and multiculturalism Tying the Knot sign posts possible ways in which future legislators might avoid the pitfalls of the past

Material Change Jan De Maeyer, Peter Jan Margry, 2021-12-17 The long nineteenth century c 1780 c 1920 in Western Europe saw an unprecedented rise in the production and possession of material goods The material culture diversified and led to a rich variety of expressions Dovetailing with a process of confessionalisation that manifested itself quite simultaneously material religion witnessed its heyday in this period from church buildings to small devotional objects The present volume analyses how various types of reform state societal and ecclesiastical that were part of the process of modernisation affected the material devotional culture within Protestantism Anglicanism and Roman Catholicism Although the contributions in this book start from a comparative European perspective the case studies mostly focus on individual countries in North West Europe namely Germany Belgium the Netherlands the United Kingdom Ireland Norway Sweden and Denmark The concept of material religion is approached in a very inclusive way The volume discusses amongst others parish infrastructures and religious buildings that are part of land and cityscapes but also looks into interior design and decorations of chapels churches monasteries cemeteries and educational charitable and health institutions It comprises the fine arts of religious painting and sculpture the applied arts and iconographic designs As far as private material culture is concerned this volume examines and presents objects related to private devotion at home including a great variety of popular devotional and everyday life objects such as booklets cards photographs and posters

Secularization and Its Discontents Rob Warner, 2010-10-21 Secularization and Its Discontents provides an illuminating overview of major current debates in the sociology of religion exploring changing patterns of religious practice in the West during the past 150 years Examining classical secularization theory as well as modified versions that allow for difference between national and social contexts Rob Warner also explores the proposed post secularization paradigm as well as its close offshoot rational choice theory Possibilities for a spiritual revolution and the feminisation of religion are scrutinised and also theories of the durability of conservative religion The author goes on to develop a new interpretation of resilient religion from an analysis of 21st century trends in religious participation These are categorised as entrepreneurial and experiential therapeutic before the volume finally focuses upon individual identity construction through autonomous religious consumption This book provides a clear and penetrating overview of theoretical frameworks and develops a new theoretical synthesis derived from fresh examination of empirical data and will be of interest to academics and students in religious studies practical theology and the sociology of religion

The Oxford Handbook of Modern British Political History, 1800-2000 David Brown, Robert Crowcroft, Gordon Pentland, 2018-03-29 The two centuries after 1800 witnessed a series of sweeping changes in the way in which Britain was governed the duties of the state and its role in the wider world

Powerful processes from the development of democracy the changing nature of the social contract war and economic dislocation have challenged and at times threatened to overwhelm both governors and governed Such shifts have also presented challenges to the historians who have researched and written about Britain s past politics This Handbook shows the ways in which political historians have responded to these challenges providing a snapshot of a field which has long been at the forefront of conceptual and methodological innovation within historical studies It comprises thirty three thematic essays by leading and emerging scholars in the field Collectively these essays assess and rethink the nature of modern British political history itself and suggest avenues and questions for future research The Oxford Handbook of Modern British Political History thus provides a unique resource for those who wish to understand Britain s political past and a thought provoking long view for those interested in current political challenges

Christianity and Social Service in Modern Britain Frank Prochaska, 2006-01-26 Few subjects bring out so well the differences between ourselves and our ancestors as the history of Christian charity In an increasingly mobile and materialist world in which culture has grown more national indeed global we no longer relate to the lost world of nineteenth century parish life Today we can hardly imagine a voluntary society that boasted millions of religious associations providing essential services in which the public rarely saw a government official apart from the post office clerk Against the background of the welfare state and the collapse of church membership the very idea of Christian social reform has a quaint Victorian air about it In this elegantly written study of shifting British values Frank Prochaska examines the importance of Christianity as an inspiration for political and social behaviour in the nineteenth century and the forces that undermined both religion and philanthropy in the twentieth The waning of religion and the growth of government responsibility for social provision were closely intertwined Prochaska shows how the creation of the modern British state undermined religious belief and customs of associational citizenship In unravelling some of the complexities in the evolving relationship between voluntarism and the state the book presents a challenging new interpretation of Christian decline and democratic traditions in Britain

Thank you for downloading **Rival Jerusalems The Geography Of Victorian Religion**. Maybe you have knowledge that, people have look numerous times for their favorite readings like this Rival Jerusalems The Geography Of Victorian Religion, but end up in malicious downloads.

Rather than enjoying a good book with a cup of tea in the afternoon, instead they cope with some harmful virus inside their desktop computer.
