Road To Lagoa Santa:

Road to Lagoa Santa Henrik Stangerup, 1997 While on a scientific expedition in the Brazilian jungle the Danish naturalist Dr P W Lund struggles to overcome the harsh conditions

The Laughter Is on My Side Søren Kierkegaard, 1989-09-21 Here is an engaging alternative to the more solemn introductions to Søren Kierkegaard that are currently available The Laughter Is on My Side entices us into Kierkegaard's way of looking at the world Skillfully clearing a path to the heart of Kierkegaard's writings for those who may be unfamiliar with the great Danish thinker Roger Poole and Henrik Stangerup rearrange some of his most pleasurable and most readable passages to form an entertaining text narrative not a selection in the ordinary sense but an innovative presentation that tells a new story The book replaces the inaccessible Kierkegaard of philosophical legend with an ironic witty shrewdly observant writer writing for the amusement of writing and not for the grimmer satisfactions of instructing or upbraiding Above all the Kierkegaard revealed by Poole and Stangerup becomes in the deepest sense our contemporary Taking its title from the young Kierkegaard's nickname The Fork the first section of the work is full of urbane and erotic materials and has much to say about his famous broken engagement to Regine Olsen A section called Women will be of special interest to feminists particularly the three discourses from the Symposium section of Stages on Life's Way The Midnight Hour presents Kierkegaard's most anguished and existential passages Do you not know there comes a midnight hour when everyone has to throw off his mask Do you think you can slip away a little before midnight in order to avoid this Lastly 1848 1984 presents Kierkegaard as an incisive and relevant political thinker in a way that has never been attempted before

The World Republic of Letters Pascale Casanova, 2004 The world of letters has always seemed a matter more of metaphor than of global reality In this book Pascale Casanova shows us the state of world literature behind the stylistic refinements a world of letters relatively independent from economic and political realms and in which language systems aesthetic orders and genres struggle for dominance Rejecting facile talk of globalization with its suggestion of a happy literary melting pot Casanova exposes an emerging regime of inequality in the world of letters where minor languages and literatures are subject to the invisible but implacable violence of their dominant counterparts Inspired by the writings of Fernand Braudel and Pierre Bourdieu this ambitious book develops the first systematic model for understanding the production circulation and valuing of literature worldwide Casanova proposes a baseline from which we might measure the newness and modernity of the world of letters the literary equivalent of the meridian at Greenwich She argues for the importance of literary capital and its role in giving value and legitimacy to nations in their incessant struggle for international power Within her overarching theory Casanova locates three main periods in the genesis of world literature Latin French and German and closely examines three towering figures in the world republic of letters Kafka Joyce and Faulkner Her work provides a rich and surprising view of the political struggles of our modern world one framed by sites of publication circulation translation and efforts at literary annexation
