Jane Gangi,2014-03-14 This book studies children s and young adult literature of genocide since 1945 considering

issues of representation and using postcolonial theory to provide both literary analysis and implications for educating the young. Many of the authors visited accurately and authentically portray the genocide about which they write; others perpetuate stereotypes or otherwise distort, demean or oversimplify. In this focus on young people's literature of specific genocides, Gangi profiles and critiques works on the Cambodian genocide 1975-1979, the Iraqi Kurds 1988, the Maya of Guatemala 1981-1983, Bosnia, Kosovo and Srebrenica 1990s, Rwanda 1994 and Darfur 2003, present. In addition to critical analysis, each chapter also provides historical background based on the work of prominent genocide scholars. To conduct research for the book, Gangi traveled to Bosnia, engaged in conversation with young people from Rwanda and spoke with scholars who had traveled to or lived in Guatemala and Cambodia. This book analyses the ways contemporary children, typically ages ten and up, are engaged in the study of genocide and addresses the ways in which child survivors who have witnessed genocide are helped by literature that mirrors their experiences.

Teaching Language and Literature in Elementary Classrooms Marcia S. Popp, 2006-04-21. The goal of this book, a theoretically based, well-organized, useful guide for teaching, is to help the beginning teacher create a classroom environment that integrates literacy development with learning in all areas of the curriculum. The major components of an integrated language program are identified, and the skills teachers need to implement this kind of program in their own classrooms are described. Designed to be kept and used as a resource in the classroom, this text provides fundamental information about language arts teaching. A constructivist orientation, an emphasis on teachers as reflective decision makers, and vivid portrayals of the classroom as a community of learners and inquirers are woven throughout the book. Key features include a wealth of models, suggestions, and step-by-step guidelines for introducing integrated teaching and learning practices into elementary classrooms at the kindergarten, primary, and intermediate levels; a focus on relevant research in language arts and professional teacher development; true-to-life classroom narratives that model instructional strategies and demonstrate interactions between real teachers and students; and an innovative chapter format that makes the text accessible as a resource for student beginning and experienced teachers.
