

A painting of a landscape with a large, gnarled tree in the center. The tree has thick, dark branches and green foliage. In the foreground, there are several people sitting on the ground, some looking towards the tree. The background shows a yellow sky and a red building. The overall style is impressionistic with visible brushstrokes.

ROADBLOCKS ON THE JOURNEY OF PSYCHOTHERAPY

JANE S. HALL

Roadblocks On The Journey Of Psychotherapy

Anitha Nadig

Roadblocks On The Journey Of Psychotherapy:

Roadblocks on the Journey of Psychotherapy Jane S. Hall, 2004 Once a journey for self understanding has begun there is inevitably a struggle against real change Inner roadblocks on both sides of the couch impede the journey of psychoanalytic psychotherapy The pressure to repeat the past in the present including the attachments to pain and the difficulty of letting go of abusive relations both internal and external are enemies of growth and change These roadblocks resistances and the forms they take are explored and illustrated in *Roadblocks on the Journey of Psychotherapy* Book jacket *Removing the Roadblocks* Marsha Vannicelli, 1992-02-14 Based on the author's 18 years of experience supervising group therapists this quintessentially practical book is designed to help practitioners think through and formulate appropriate strategies in their clinical work Utilizing many clinical examples and providing explanations throughout for her interventions Vannicelli pays special attention to the therapeutic stance where the clinician positions him or herself in relation to the patient and why and how various strategies and techniques maximize the patient's opportunity for therapeutic growth A hallmark of Dr Vannicelli's approach richly illustrated in this work is her sensitivity to countertransference and the ways it can be used productively in clinical practice Alone among books in the substance abuse field *REMOVING THE ROADBLOCKS* analyzes the group therapy issues that arise in the three populations most commonly seen in substance abuse clinics substance abusers themselves adult children of alcoholics and other family members The author describes characteristics unique to each population and addresses overlap among them in terms of basic procedures formats and hurdles that group leaders face The book also differs from most psychotherapy texts by giving the reader an opportunity to hear the voice of an experienced therapist as she provides examples of various kinds of interventions and demonstrates how they might actually be communicated and implemented Rather than reading about psychotherapy or about various kinds of problems one has the sense of experiencing a thorough consultation with a truly seasoned supervisor A particularly useful feature is the appendix at the end of the volume which provides examples of assessment and intake questionnaires history questionnaires ground rules for treatment contracts and other practical materials Designed for all mental health professionals who work with substance abusers the book's focus on practical clinical issues also makes it ideal for paraprofessionals It is an excellent text for courses on substance abuse in social work psychology nursing and other disciplines as well as for courses in group psychotherapy

Wearing My Tutu to Analysis and Other Stories Kerry L. Malawista, Anne J. Adelman, Catherine Louise Anderson, 2011 There couldn't be a more appropriate method for illustrating the dynamics of psychoanalysis than the vehicle of story In this book Kerry L Malawista Anne J Adelman and Catherine L Anderson share amusing poignant and sometimes difficult stories from their personal and professional lives inviting readers to explore the complex underpinnings of the psychoanalytic profession and its esoteric theories Through their narratives these practicing analysts show how to incorporate psychodynamic concepts and identify common truths at the root of shared experience Their approach demystifies

dense material and the emotional consequences of deep clinical work The book covers psychodynamic theory the development of ideas various techniques the challenges of treatment and the experiences of trauma and loss Each section begins with a brief memoir by one of the authors and leads into a discussion of related concepts Overall the text follows a developmental trajectory opening with stories from early childhood and concluding with present encounters The result is a unique approach enabling the absorption of psychodynamic concepts as they unfold across the life span
