Roads To Dominion Rightwing Movements And Political Power In The United States

Chip Berlet, Matthew N. Lyons

Roads To Dominion Rightwing Movements And Political Power In The United States:

Roads to Dominion Sara Diamond,1995-09-08 Diamond looks at conservative politics in the United States from World War II to the post Reagan years **Right-Wing Movements in North America and Europe** Hank Johnston,Rory McVeigh,Ziad Munson,2025-10-13 From Boogaloo Bois and Rassemblement National to Nordic Resistance Movement and Forza Nuova majoritarian ethnonational movements and extreme right politics are growing in different national contexts and continue to challenge democratic norms around the globe This collection brings together research by prominent senior scholars and up and coming junior researchers to present an up to date examination of the right s resurgence in Europe and North America Its chapters focus on movement party intersections social media identity work extremism anti immigration rhetoric and theoretical approaches and methodologies to studying the right Bringing together several studies originally presented as plenary talks at the annual Mobilization SDSU conferences the editors combine their expertise and draw upon their scholarly networks to offer a collection of research that will be significant for years to come Each chapter is an important contribution that deepens our knowledge of right wing contentious politics They will be widely used by both sociologists and political scientists who are interested in current global trend of a resurgent and authoritarian right

Right-Wing Populism in America Chip Berlet,Matthew N. Lyons,2016-05-06 Right wing militias and other antigovernment organizations have received heightened public attention since the Oklahoma City bombing While such groups are often portrayed as marginal extremists the values they espouse have influenced mainstream politics and culture far more than most Americans realize This important volume offers an in depth look at the historical roots and current landscape of right wing populism in the United States Illuminated is the potent combination of anti elitist rhetoric conspiracy theories and ethnic scapegoating that has fueled many political movements from the colonial period to the present day The book examines the Jacksonians the Ku Klux Klan and a host of Cold War nationalist cliques and relates them to the evolution of contemporary electoral campaigns of Patrick Buchanan the militancy of the Posse Comitatus and the Christian Identity movement and an array of millennial sects Combining vivid description and incisive analysis Berlet and Lyons show how large numbers of disaffected Americans have embraced right wing populism in a misguided attempt to challenge power relationships in U S society Highlighted are the dangers these groups pose for the future of our political system and the hope of progressive social change Winner Outstanding Book Award Gustavus Myers Center for the Study of Bigotry and Human Rights in North America *Media, Movements, and Political Change* Jennifer S. Earl,Deana A. Rohlinger,2012-05-18 This volume explores the relationship between media movements and political change through analyses of how actors use print media and the Internet to achieve their goals The chapters examine the role of media in the Anti Abortion Globalization Labor Townsend and White Power movements as well as Barack Obama s 2008 campaign **Killing for Life** Carol Mason,2018-08-06 How can those who seek to protect the right to life defend assassination in the name of saving lives Carol

Mason investigates this seeming paradox by examining pro life literature both archival material and writings from the front lines of the conflict Her analysis reveals the apocalyptic thread that is the ideological link between established anti abortion organizations and the more shadowy pro life terrorists who subject clinic workers to anthrax scares bombs and bullets The portrayal of abortion as America s Armageddon began in the 1960s In the 1970s Mason says Christian politics and the post Vietnam paramilitary culture popularized the idea that legal abortion is a harbinger of apocalypse By the 1990s Mason asserts even the movement s mainstream had taken up the call narrating abortion as an apocalyptic battle between so called Christian and anti Christian forces Pro life violence of the 1990s signaled a move away from protest and toward retribution she writes Pro life retribution is seen as a way to restore the order of God In this light the phenomenon of killing for life is revealed not as an oxymoron but as a logical consistency and a political manifestation of religious retribution Mason s scrutiny of primary sources direct mail internal memoranda personal letters underground manuals and pro life films magazines and novels draws attention to elements of pro life millennialism Killing for Life is a powerful indictment of pro life ideology as a coherent mass produced narrative that does not merely condone violence but anticipates it as part of God s plan British and American Anti-communism Before the Cold War Markku Ruotsila,2023-05-09 This work examines in a comparative historical way the socialist liberal and conservative strands of Anglo American anticommunist thought before the Cold War In so doing this book provides us with an intellectual pre history of Cold War attitudes and policy positions

The Sociology of Religion George Lundskow,2008-06-10 Using a lively narrative The Sociology of Religion is an insightful text that investigates the facts of religion in all its great diversity including its practices and beliefs and then analyzes actual examples of religious developments using relevant conceptual frameworks As a result students actively engage in the discovery learning and analytical processes as they progress through the text Organized around essential topics and real life issues this unique text examines religion both as an object of sociological analysis as well as a device for seeking personal meaning in life The book provides sociological perspectives on religion while introducing students to relevant research from interdisciplinary scholarship Sidebar features and photographs of religious figures bring the text to life for readers Key Features Uses substantive and truly contemporary real life religious issues of current interest to engage the reader in a way few other texts do Combines theory with empirical examples drawn from the United States and around the world emphasizing a critical and analytical perspective that encourages better understanding of the material presented Features discussions of emergent religions consumerism and the link between religion sports and other forms of popular culture Draws upon interdisciplinary literature helping students appreciate the contributions of other disciplines while primarily developing an understanding of the sociology of religion Accompanied by High Quality Ancillaries Instructor Resources on CD contain chapter outlines summaries multiple choice questions essay questions and short answer questions as well as illustrations from the book C Intended Audience This core text is designed for upper level undergraduate students

of Sociology of Religion or Religion and Politics **Researching the Far Right** Stephen D. Ashe, Joel Busher, Graham Macklin, Aaron Winter, 2020-11-09 Researching the Far Right brings together researchers from across the humanities and social sciences to provide much needed discussion about the methodological ethical political personal practical and professional issues and challenges that arise when researching far right parties their electoral support and far right protest movements Drawing on original research focussing mainly on Europe and North America over the last 30 years this volume explores in detail the opportunities and challenges associated with using ethnographic interview based quantitative and online research methods to study the far right These reflections are set within a wider discussion of the evolution of far right studies from a variety of disciplinary viewpoints within the humanities or the social sciences tracing the key developments and debates that shape the field today This volume will be essential reading for students and scholars with an interest in understanding the many manifestations of the far right and cognate movements today It also offers insight and reflection that is likely to be valuable for a wider range of students and scholars across the humanities and social sciences who are carrying out work of an ethically politically personally practically and professionally challenging nature **New Directions in Public Opinion** Adam J. Berinsky, 2015-12-21 The field of public opinion is one of the most diverse in political science Over the last 60 years scholars have drawn upon the disciplines of psychology economics sociology and even biology to learn how ordinary people come to understand the complicated business of politics But much of the path breaking research in the field of public opinion is published in journals taking up fairly narrow questions one at a time and often requiring advanced statistical knowledge to understand these findings As a result the study of public opinion can seem confusing and incoherent to undergraduates To engage undergraduate students in this area a new type of textbook is required The second edition of New Directions in Public Opinion brings together leading scholars to provide an accessible and coherent overview of the current state of the field of public opinion Each chapter provides a general overview of topics that are at the cutting edge of study as well as well established cornerstones of the field Each contributor has made substantive revisions to their chapters and three chapters have been added on genetics and biology immigration and political extremism and the Tea Party Suitable for use as a main textbook or in tandem with a lengthier survey this book comprehensively covers the topics of public opinion research and pushes students further to explore critical topics in contemporary politics We Are Worth Fighting For Joshua M. Myers, 2022-04 The Howard University protests from the perspective and worldview of its participants We Are Worth Fighting For is the first history of the 1989 Howard University protest The three day occupation of the university s Administration Building was a continuation of the student movements of the sixties and a unique challenge to the politics of the eighties Upset at the university s appointment of the Republican strategist Lee Atwater to the Board of Trustees students forced the issue by shutting down the operations of the university The protest inspired in part by the emergence of conscious hip hop helped to build support for the idea of student governance and drew upon a resurgent black nationalist ethos At the

center of this story is a student organization known as Black Nia F O R C E Co founded by Ras Baraka the group was at the forefront of organizing the student mobilization at Howard during the spring of 1989 and thereafter We Are Worth Fighting For explores how black student activists young men and women helped shape and resist the rightward shift and neoliberal foundations of American politics This history adds to the literature on Black campus activism Black Power studies and the emerging histories of African American life in the 1980s

This is likewise one of the factors by obtaining the soft documents of this **Roads To Dominion Rightwing Movements And Political Power In The United States** by online.
