The Vancouver Island Letters of Edmund Hope Verney Allan Pritchard, 2011-11-01 This previously unknown collection of letters lets us experience colonial British Columbia through the eyes of a young British naval officer who spent three years on Vancouver Island commanding a Royal Navy gunboat during the Cariboo gold rush A keen observer of life in the new world Edmund Hope Verney corresponded on a regular basis with his father a prominent British MP In his letters which are filled with lively narration and description candid commentary and fascinating personal detail he talks about having the opportunity to observe a colony in its first stage of existence and to watch the development of a community *Vancouver Island* Robert Brown, Vancouver Island Exploration Committee, 1864 **First Journey of Exploration Across Vancouver Island** Robert Brown, 1991 **North American Exploration** John Logan Allen, 1997-01-01 The third volume of North American Exploration covering 1784 to 1914 charts a dramatic shift in the purpose priorities and results of the exploration of

North America As the nineteenth century opened exploration was still fostered by the growth of empire but by the 1830s commercial interests came to drive most exploratory ventures particularly through the fur trade By midcentury however as imperial rivalries lessened and the fur trade declined exploration was driven by the growing scientific spirit of the age although the science was often conducted in the service of a search for railroad routes or natural resources linked to military concerns A clear transition took place as the spirit of the Enlightenment gave way to economic imperatives and to the science of the post Darwinian age and exploration passed beyond discovery and geographical definition This volume explores the resultant beginnings of an understanding of the continent and its native peoples **Victorian Science in Context** Bernard

Lightman,2008-07-31 Victorians were fascinated by the flood of strange new worlds that science was opening to them Exotic plants and animals poured into London from all corners of the Empire while revolutionary theories such as the radical idea that humans might be descended from apes drew crowds to heated debates Men and women of all social classes avidly collected scientific specimens for display in their homes and devoured literature about science and its practitioners Victorian Science in Context captures the essence of this fascination charting the many ways in which science influenced and was influenced by the larger Victorian culture Contributions from leading scholars in history literature and the history of science explore questions such as What did science mean to the Victorians For whom was Victorian science written What ideological messages did it convey The contributors show how practical concerns interacted with contextual issues to mold Victorian science which in turn shaped much of the relationship between modern science and culture *The Land of Heart's Delight*

Michael Layland,2013-10-01 Shortlisted for the 2014 City of Victoria Butler Book Prize Shortlisted for a 2014 BC Book Prize Finalist for the Lieutenant Governor's Medal for Historical Writing Just how and why did Vancouver Island get onto the map How was knowledge of our immediate geography acquired and recorded With 130 maps dating between 1593 and 1915 this cartographic history tells the story of how Vancouver Island and the surrounding area came to be mapped The book shows local cartographic milestones marking progress in our knowledge through the island's rich although comparatively short recorded history However the maps by themselves and without context cannot tell the whole story The accompanying text reveals the motives constraints agendas and intrigues that underpin their making The narrative roughly chronological begins before the arrival of Europeans and concludes at the outset of the First World War and includes an introduction on the history and significance of map making as well as an afterword summarizing subsequent cartographic developments Also included are an index endnotes a list of cartographic sources and a glossary *Salish Archipelago* Moshe
