topics ranging from history to cookery detailed descriptions of the 11 towns in the state that had populations of more than 10 000 and 21 remarkably detailed guided tours to all sections of the state In addition to the original chapters there are two appendices updated highway numbers for each tour and a guide to getting off the present Interstate Highway System and picking up the guided tours South Carolina s Guide is very much a product of its times The essays and tours mince no words in describing the state s poverty or the reality of a world in which class and race played major roles For those who have studied and taught South Carolina history the old Guide has been an indispensable reference work Parts of it may be dated to some jaded modern eyes some phrases may be jarring to the post 1954 generation However the original South Carolina The WPA Guide to the Palmetto State was what its cover claimed it to be It accurately described the state as it was not as romantics wanted it to be

American Architects and the Mechanics of Fame Roxanne Kuter Williamson,2014-03-07 Why does one talented individual win lasting recognition in a particular field while another equally talented person does not While there are many possible reasons one obvious answer is that something more than talent is requisite to produce fame The something more in the field of architecture asserts Roxanne Williamson is the association with a famous architect at the moment he or she first receives major publicity or designs the building for which he or she will eventually be celebrated In this study of more than six hundred American architects who have achieved a place in architectural histories Williamson finds that only a small minority do not fit the right person right time pattern She traces the apprenticeship connection in case studies of Louis Sullivan Frank Lloyd Wright Henry Hobson Richardson the firm of McKim Mead White Latrobe and his descendants the Bulfinch and Renwick Lines the European immigrant masters and Louis Kahn Although she acknowledges and discusses the importance of family connections the right schools self promotion scholarships design competition awards and promotion by important journals Williamson maintains that the apprenticeship connection is the single most important predictor of architectural fame She offers the intriguing hypothesis that what is transferred in the relationship is not a particular style or approach but rather the courage and self confidence to be true to one s own vision Perhaps she says this is the case in all the arts American Architects and the Mechanics of Fame is sure to provoke thought and comment in architecture and other creative fields

"To the Immortal Name and Memory of George Washington" Louis Torres,1985 Touring the Antebellum South with an English Opera Company Michael Burden,2020-10-21 The diary of Anton Reiff Jr c 1830 1916 is one of only a handful of primary sources to offer a firsthand account of antebellum riverboat travel in the American South The

Pyne and Harrison Opera Troupe a company run by English sisters Susan and Louisa Pyne and their business partner tenor William Harrison hired Reiff then freelancing in New York to serve as musical director and conductor for the company's American itinerary. The grueling tour began in November 1855 in Boston and then proceeded to New York Philadelphia Baltimore Pittsburgh and Cincinnati where after a three week engagement the company boarded a paddle steamer bound for New Orleans. It was at that point that Reiff started to keep his diary. Diligently transcribed and annotated by Michael Burden, Reiff's diary presents an extraordinarily rare view of life with a foreign opera company as it traveled the country by river and rail. Surprisingly, Reiff comments little on the Pyne-Harrison performances themselves although he does visit the theaters in the river towns including New Orleans where he spends evenings both at the French Opera and at the Gaiety. Instead, Reiff focuses his attention on other passengers on the mechanics of the journey on the landscape and on events he encounters including the 1856 Mardi Gras and the unveiling of the statue of Andrew Jackson in New Orleans's Jackson Square. Reiff is clearly captivated by the river towns and their residents including the enslaved whom he encountered whenever the boat tied up. Running throughout the journal is a thread of anxiety for apart from the typical dangers of a river trip the winter of 1855-1856 was one of the coldest of the century and the steamer had difficulties with river ice. Historians have used Reiff's journal as source material but until now the entire text which is archived in Louisiana State University's Special Collections in Hill Memorial Library has only been available in its original state. As a primary source the published journal will have broad appeal to historians and other readers interested in antebellum riverboat travel highbrow entertainment and the people and places of the South.

Washington's Monument John Steele Gordon, 2016-02-02 The colorful story behind one of America's greatest monuments and of the ancient obelisks of Egypt now scattered around the world. Conceived soon after the American

Revolution ended the great monument to George Washington was not finally completed until almost a century later the great obelisk was finished in 1884 and remains the tallest stone structure in the world at 555 feet The story behind its construction is a largely untold and intriguing piece of American history which acclaimed historian John Steele Gordon relates with verve connecting it to the colorful saga of the ancient obelisks of Egypt Nobody knows how many obelisks were crafted in ancient Egypt or even exactly how they were created and erected since they are made out of hard granite and few known tools of the time were strong enough to work granite Generally placed in pairs at the entrances to temples they have in modern times been ingeniously transported around the world to Istanbul Paris London New York and many other locations Their stories illuminate that of the Washington Monument once again open to the public following earthquake damage and offer a new appreciation for perhaps the most iconic memorial in the country
