Robert Gitler And The Japan Library School:

Robert Gitler and the Japan Library School Robert L. Gitler, 1999-07-22 The founding in 1951 of the Japan Library School now called the School of Library and Information Science at Keio University was a development of great significance in the development of librarianship in Japan and a remarkable example of international collaboration Robert Gitler was a central figure in that important event and continues to be a key player in the growing field The present volume is a collection of reminiscences that were recorded for the most part between November 1994 and September 1995 An informal reminiscence this oral history is of interest in its own right and also as a resource that can be drawn upon in the future for more formal historical work It has been carefully reviewed and revised by the narrator himself and organized for readability by the editor Some bio bibliographical information a list of bibliographical references and an index have been added to increase ease of use

Ideology and Libraries Michael K. Buckland, 2020-11-13 In 1950 Robert L Gitler went to Japan to found the first college level school of library science in that country His mission an improbable success was documented in an assisted autobiography as *Robert Gitler and the Japan Library School* Scarecrow Press 1999 Subsequent research into initiatives to improve library services during the Allied occupation has revealed surprising discoveries and human interest of the lives of very diverse individuals A central role was played by a librarian Philip Keeney who later became well known as an alleged communist spy A national plan designed for Japan's libraries was based directly on the county library system developed by progressive thinkers in California itself a dramatic story The School of Librarianship at the University of California and its founding director Sydney Mitchell was found to have deeply influenced key figures The story also requires an appreciation of the deployment of American libraries abroad as tools of foreign policy as cultural diplomacy Meanwhile library services in Japan were seriously underdeveloped despite Japan's extraordinarily high literacy rate very well developed publishing and book retail industries and librarians who were far from backward The difference in library development lay in the huge divergence between the ethos of the American public library dominated by support for individual self development and Western liberal democracy and the evolving political ideology of Japanese governments after the Meiji Restoration 1868 After absorbing authoritarian French and German administrative practices Japan became a militarist dictatorship from the 1920s onwards until surrender in 1945 The literature on the Allied Occupation of Japan is vast but library services have received very little attention beyond the creation of the National Diet Library in 1948 The story of initiatives to improve library services in occupied Japan the role of libraries as cultural diplomacy the dramatic development of free public library services in California have remained unknown or little known until now

A Pioneering and Independent Spirit Debra Gold Hansen, 2010 *A Pioneering and Independent Spirit* chronicles the history of San Jos State University's School of Library and Information Science as it evolved from a small school library training program established in 1928 into the largest MLIS degree program in the world Set within the heart of California's Silicon Valley the School's history reflects the dramatic

social economic and educational changes resulting from the information revolution in the 20th century From the use of closed circuit television in the 1950s to microfilmed course readings in the 1970s to the delivery of courses on the World Wide Web the School harnessed these new technologies to keep librarianship relevant as a profession and to make education for the field as widely available as possible In March 2009 they took another bold step by going completely online This means that now they are not only the world s largest MLIS program but the first wholly virtual one Based on extensive research in the university s records Dr Hansen shows how the School s tradition of entrepreneurship and innovation shaped its development between 1928 and 2009 and pays tribute to the administrators faculty and students who contributed to the School s success *Library Journal* Melvil Dewey, Richard Rogers Bowker, L. Pylodet, Charles Ammi Cutter, Bertine Emma Weston, Karl Brown, Helen E.
