

Roberts v. US Jaycees – Intimate Association

- Intimate association must be secured from undue intrusion (p. 226)
- 2 poles to relationships – families (protected) & business enterprises (not protected)
 - If group falls in-between – look to factors (size, purpose, policies, selectivity, congeniality, other characteristics)
 - Why don't Jaycees fit w/in “intimate association”?
 - What kinds of groups would fall under this protection?
- Even if group is an “intimate association” it isn't automatically protected – law is okay as long as it isn't an “undue” intrusion

Our Lives Before the Law Judith A. Baer, 1999-08-16 According to Judith Baer feminist legal scholarship today does not effectively address the harsh realities of women's lives Feminists have marginalized themselves she argues by withdrawing from mainstream intellectual discourse In *Our Lives Before the Law* Baer thus presents the framework for a new feminist jurisprudence one that would return feminism to relevance by connecting it in fresh and creative ways with liberalism Baer starts from the traditional feminist premise that the legal system has a male bias and must do more to help women combat violence and overcome political economic and social disadvantages She argues however that feminist scholarship has over corrected for this bias By emphasizing the ways in which the system fails women feminists have lost sight of how it can be used to promote women's interests and have made it easy for conventional scholars to ignore legitimate feminist concerns In particular feminists have wrongly linked the genuine flaws of conventional legal theory to its basis in liberalism arguing that liberalism focuses too heavily on individual freedom and not enough on individual responsibility In fact Baer contends liberalism rests on a presumption of personal responsibility and can be used as a powerful intellectual foundation for holding men and male institutions more accountable for their actions The traditional feminist approach Baer writes has led to endless debates about such abstract matters as character differences between men and women and has failed to deal sufficiently with concrete problems with the legal system She thus constructs a new feminist interpretation of three central components of conventional theory equality rights and responsibility through analysis of such pressing legal issues as constitutional interpretation reproductive choice and fetal protection Baer concludes by presenting the outline of what she calls feminist post liberalism an approach to jurisprudence that not only values individual freedoms but also recognizes our responsibility for addressing individuals needs however different those may be for men and women Powerfully and passionately written *Our Lives Before the Law* will have a major impact on the future course of feminist legal scholarship
