Ritual Human Sacrifice in Mesoamerica Rubén G. Mendoza, Linda Hansen, 2024-03-01 This edited volume addresses the environmental and cultural underpinnings of the kind of social conflict that spawned the origins and elaboration of ritualized human and animal sacrifice in Mesoamerica The chapters variously document the place of cultural evolution and social complexity in the origins and elaboration of ritual human sacrifice cannibalism and trophy taking across a broad spectrum of Mesoamerican cultural and social contexts that first saw the light of day before 2600 BCE and rapidly developed and proliferated across the Mesoamerican world in the centuries to follow They study the developments in sacrifice rituals through the centuries into the first millennium CE when the Mexica Aztec and their allies had elevated ritual human sacrifice such that they produced a plethora of sacrificial acts modes and manners of death and associated deities to articulate the necro cultures and blood tribute of the times The chapters further study present day rites of Amerindian communities from throughout Mesoamerica that include paying homage to the deities of earth and sky through sacrifice and consumption of animal surrogates The interdisciplinary effort undertaken by this international cadre of scientists including anthropologists bioarchaeologists art historians ethnohistorians iconographers and religious studies experts provides a particularly rich forum for launching an interrogation into the role of

Time and Sacrifice in the Aztec Cosmos Kay Almere Read, 1998-07-22 This introduction to the imaginative world of the Mexica or Aztec explores sacrifice in the richly

textured life of 16th century Mexico Kay Almere Read describes a universe in which every object was timed by a given lifespan and in which sacrifice was the mechanism by which time functioned This book makes a convincing case for what sacrifice meant religiously and for how it came to be that human sacrifice of staggering proportions could be accepted matter of factly by the Mexica people Mito y realidad de Zuyuá Alfredo López Austin, Leonardo López Luján, 2017-06-30 Hay incógnitas históricas que inquietan a los especialistas desde hace décadas el tema del presente libro es una de ellas las relaciones políticas culturales religiosas y comerciales que surgieron en Mesoamérica tras el colapso de Teotihuacán sobre todo el hecho de que ciudades muy distantes Tula y Chichén Itz' presentaran sorprendentes similitudes Arte y trama en el cuento indígena Carlos Montemayor, 1998-01-01 La narrativa tradicional es el género más estudiado en la investigación antropológica debido a su particular predominio en el amplio espectro de la llamada tradición oral por ello uno de los principales objetivos ha sido proponer un método práctico Para analizar el arte de composición de las formas literarias tradicionales en algunas lenguas indígenas de México Árbol sagrado Manuel Alberto Morales Damián, 2006 *Healing Like Our Ancestors* Edward Anthony Polanco, 2024-08-27 Offering a provocative new perspective *Healing Like Our Ancestors* examines sixteenth and seventeenth century Nahua healers in central Mexico and how their practices have been misconstrued and misunderstood in colonial records Early colonial Spanish settlers defined assessed and admonished Nahua titi ih healing specialists and ti iyotl healing knowledge in the process of building a society in Mexico that mirrored Iberia Nevertheless Nahua survivance intergenerational knowledge transfer has allowed communities to heal like their ancestors through changes and adaptations Edward Anthony Polanco draws from diverse colonial primary sources largely in Spanish and Nahuatl the Nahua ancestral language to explore how Spanish settlers framed titi ih their knowledge and their practices within a Western complex Polanco argues for the usage of Indigenous terms when discussing Indigenous concepts and arms the reader with the Nahuatl words to discuss central Mexican Nahua healing In particular this book emphasizes the importance of women as titi ih and highlights their work as creators and keepers of knowledge These vital Nahua perspectives of healing and how they differed from the settler narrative will guide community members as well as scholars and students of the history of science Latin America and Indigenous studies **The Offerings of the Templo Mayor of Tenochtitlan** Leonardo López Luján, 2005 The spectacular findings of the historic Templo Mayor Project which took place in the heart of Mexico City from 1978 to 1997 *Book of the Fourth World* Gordon Brotherston, 1995-11-24 The Book of the Fourth World offers detailed analyses of texts that range far back into the centuries of civilised life from what is now Latin and Anglo America At the time of its discovery the American continent was identified as the Fourth World of our planet In the course of just a few centuries its original inhabitants though settled there for millennia and countable in many millions have come to be perceived as a marginal if not entirely dispensable factor in the continent's destiny Today the term has been taken up again by its native peoples to describe their own world both its threatened present condition and its political history which stretches back

thousands of years before Columbus In order to explore the literature of this world Brotherston uses primary sources that have traditionally been ignored because they have not conformed to Western definitions of oral and written literature such as the scrolls of the Algonkin the knotted strings Quipus of the Inca Navajo dry paintings and the encyclopedic pages of Meso America s screenfold books
