Loss And How To Cope With It:

Loss and how to Cope with it Joanne E. Bernstein, 1977-01-01 An exploration of how death of a loved one affects the survivors with practical discussion of how to handle the many emotional and physical reactions we may encounter in bereavement

Midwives Coping with Loss and Grief Doreen Kenworthy, Mavis Kirkham, 2019-01-22 The experience of stillbirth and other losses in pregnancy at what is usually a time of great joy is tragic for everyone involved including midwifery professionals Although research increasingly shows how profound the effects of loss can be few studies have explored the effects of pregnancy loss which often leads to other personal and professional traumas such as loss of autonomy or a workplace on midwives This in depth investigation uses a phenomenological approach to capture midwives experiences of loss and grief in their own words and encompasses both pregnancy loss and wider professional and personal issues It then makes recommendations to enhance midwives resilience and ability to cope appropriately whilst giving maximum support to their clients Reflections on the emerging implications for midwifery education and practice further broaden the scope of the analysis The insights in this book will be of great use to midwifery managers and supervisors They will also help midwives to nurture themselves their colleagues and their clients at a time when pressures on the service can leave support lacking The devastating experience of losing a baby for women and their families is something that as midwives we strive to understand in order to provide appropriate practical and emotional support Doreen and Mavis encourage us to consider how we are affected by the grief of others at a deeply personal level Ultimately the message in this book is one of hope through reflection and the sharing of experiences midwives who have been with women whose babies have died can regain their personal strength and learn to re shape memories in ways that contribute to personal growth and understanding A From the Foreword by Nicky Leap

Coping with Loss Susan Nolen-Hoeksema, Judith Larson, 1999 Most earlier books on bereavement have fallen into two categories distillations of the clinical experience of individual therapists or collections of chapters reporting the results of empirical studies Each category is valuable but has tended to serve a narrow group of readers practitioners with particular theoretical orientations or researchers in quest of the latest findings Coauthored by a leading research psychologist and an experienced therapist who specializes in bereavement education and intervention this book is different The authors weave together the strands of theory research and clinical wisdom into a seamless and readable narrative

Coming to Grips with Loss Kate Cummings, 2015-11-02 Coming to Grips with Loss is a theory that depicts how people heal from any type of significant loss The strength of this theory is that it is grounded in data gathered from people who experienced a myriad of losses of loved ones physical and mental abilities homes careers material goods as well as safety security and other aspects that people hold dear The theory is written in a very deliberate manner that is non pathologizing relevant to a wide array of audiences and is transferable to various fields of study It explains what people say they go through on their way from the initial discovery assessing the possible impact experiencing related feelings and choosing coping actions that can either move one closer or

farther away from healing It offers a road map to recovery for those in helping relationships business managers community leaders and people involved in self care Most importantly it offers a perspective that normalizes the grief process and offers hope that healing is possible

Handbook of Coping Moshe Zeidner, Norman S. Endler, 1995-12-12 how a man rallies to life's challenges and weathers its storms tells everything of who he is and all that he is likely to become St Augustine It has long been understood that how a person adjusts to life stresses is a major component of his or her ability to lead a fulfilling life Yet it wasn't until the 1960s that coping became a discrete topic of psychological inquiry Since then coping has risen to a position of prominence in the modern psychological discourse especially within the personality cognitive and behavioral spheres and within the past decade alone many important discoveries have been made about its mechanisms and functioning and its role in ongoing psychological and physical health and well being A book whose time has come at last the Handbook of Coping is the first professional reference devoted exclusively to the psychology of coping Reporting the observations and insights of nearly sixty leading authorities in stress and coping from a wide range of affiliations and schools of thought it brings readers the state of the art in coping theory research assessment and applications In orchestrating the book the editors have scrupulously avoided imposing any particular slant or point of view other than the need to foster greater eclecticism and cooperation between researchers and clinicians concerned with the phenomenon of coping The Handbook of Coping is divided into five overlapping parts the first of which serves to lay the conceptual foundations of all that follows It traces the history of coping from its origins in psychoanalytic theories of unconscious defense mechanisms and provides an exhaustive review of the latest conceptualizations models and constructs The following section provides an in depth exploration of current research methodology measurement and assessment tools Part Three explores key facets of coping in a broad range of specific domains including everyday hassles chronic disease cataclysmic events and many others The penultimate section focuses on individual differences Among important topics covered here are coping styles and dispositions the role of family social support and education and coping behaviors across the life span The final section Part Five is devoted to current applications Clinical parameters are defined and a number of specific interventions are described as are proven techniques for helping clients to improve their coping skills A comprehensive guide to contemporary coping theory research and applications the Handbook of Coping is an indispensable resource for practitioners researchers students and educators in psychology the health sciences and epidemiology Of related interest EGO DEFENSES Theory and Measurement Edited by Hope R Conte and Robert Plutchik This book explores the nature and manifestations of defense mechanisms and traces ego defense theory and research from Freud's initial conceptualization through recent work in object relations theory and other psychoanalytically oriented approaches It provides clinical guidelines for diagnosing assessing and dealing with defenses reviews empirical research techniques and indicates their value in development and in psychotherapy This volume should be of value to theoreticians clinicians and researchers interested in finding appropriate tools for measurement of

defense mechanisms 1994 **SOCIAL SUPPORT An Interactional View** Edited by Barbara R Sarason Irwin G Sarason and Gregory R Pierce The study of social support and its relationship to personality health and adjustment is one of the fastest growing areas of research and application in psychology This book contains integrative surveys of clinical and field studies experimental investigations and life span explorations It approaches social support as an important facet of interpersonal relationships and shows its undesirable as well as its positive features 1990 0 471 60624 3 528 pp Coping With Grieving
