Hecht,Alexander Cockburn,2011-01-15

The Amazon rain forest covers more than five million square kilometers amid the territories of nine different nations It represents over half of the planet s remaining rain forest Is it truly in peril What steps are necessary to save it To understand the future of Amazonia one must know how its history was forged in the eras of large pre Columbian populations in the gold rush of conquistadors in centuries of slavery in the schemes of Brazil s military dictators in the 1960s and 1970s and in new globalized economies where Brazilian soy and beef now dominate while the market in carbon credits raises the value of standing forest Susanna Hecht and Alexander Cockburn show in compelling detail the panorama of destruction as it unfolded and also reveal the extraordinary turnaround that is now taking place thanks to both the social movements and the emergence of new environmental markets Exploring the role of human hands in destroying and saving this vast forested

region The Fate of the Forest pivots on the murder of Chico Mendes the legendary labor and environmental organizer assassinated after successful confrontations with big ranchers A multifaceted portrait of Eden under siege complete with a new preface and afterword by the authors this book demonstrates that those who would hold a mirror up to nature must first learn the lessons offered by some of their own people      *Mastariam* Paulette Mary Blomeley, 2016-12-12 Marsane and Valara were chosen to come to earth from their home planet Ziama residing in the twelfth dimension In this dimension they were one being Not until they lived on earth did they realize how harsh it could be to be separated into two souls and to drop ones vibration so low Once the wheel of destiny had begun to turn there would be no turning back They had begun the experience of being human and could not return to their source until they had experienced and completed a cycle which could be hundreds of thousands of years Here is their story their beginning of being human and the enormous shock that was to come to them in learning what the future held pain and suffering until they could eventually return to their original advanced state of consciousness Their star family especially Oriam and Stariam would be there to guide them at all times especially the many times they both wanted to give up Marsane pledged to do all he could to keep balance on planet earth He had no idea what was in store for him committing himself to such a grand task The time on earth for them to come back together is now
