Horror in Space Michele Brittany, 2017-11-21 In sharp contrast to many 1960s science fiction films with idealized views of space exploration Ridley Scott's *Alien* 1979 terrified audiences depicting a harrowing and doomed deep space mission The *Alien* films launched a new generation of horror set in the great unknown inspiring filmmakers to take Earth bound franchises like *Leprechaun* and *Friday the 13th* into space This collection of new essays examines the space horror subgenre with a focus on such films as Paul W S Anderson's *Event Horizon* Duncan Jones' *Moon* Mario Bava's *Planet of the Vampires* and John Carpenter's *Ghosts of Mars* Contributors discuss how filmmakers explored the concepts of the final girl survivor the uncanny valley the isolationism of space travel religion and supernatural phenomena

Too Bold for the Box Office Cynthia J. Miller, 2012-08-02 Although considered a relatively new genre the mockumentary has existed nearly as long as filmmaking itself and has become one of the most common forms of film and television comedy today In order to better understand the larger cultural truths artfully woven into their deception these works demonstrate just how tenuous and problematic our collective understandings of our social worlds can be In *Too Bold for the Box Office* *The Mockumentary* from Big Screen to Small Cynthia J Miller has assembled essays by scholars and filmmakers who examine this unique cinematic form Individually each of these essays looks at a given instance of mockumentary parody and subversion examining the ways in which each calls into question our assumptions pleasures beliefs and even our senses Writing about national film television and new media traditions as diverse as their

backgrounds this volume's contributors explore and theorize the workings of mockumentaries as well as the strategies and motivations of the writers and filmmakers who brought them into being. Reflections by filmmakers Kevin Brownlow *It Happened Here*, Christopher Hansen *The Proper Care and Feeding of An American Messiah*, and Spencer Schaffner *The Urban Literacy Manifesto* add valued perspective and significantly deepen the discussions found in the volume's other contributions. This collection of essays on films, television programming and new media illustrates common threads running across cultures and eras and attempts to answer sweeping existential questions about the nature of social life and the human condition.

Cultural Geography in Practice provides an innovative and accessible approach to the sources, theories and methods of cultural geography. Written by an international team of prominent cultural geographers, all of whom are experienced researchers, this book is a fully illustrated guide to methodological approaches in cultural geography. In order to demonstrate the practice of cultural geography, each chapter combines the following features: Practical instruction in using one of the main methods of cultural geography, e.g. interviewing, interpreting texts and visual images, participatory methods; An overview of a key area of concern in cultural geography, e.g. the body, national identity, empire, marginality; A nuts and bolts description of the actual application of the theories and methods within a piece of research. With the addition of boxed definitions of key concepts and descriptions of research projects by students who devised and undertook them, *Cultural Geography in Practice* is an essential manual of research practice for both undergraduate and graduate geography students.

Safety and Security in Tourism C. Michael Hall, Dallen J. Timothy, David Timothy Duval, 2012-12-06

How will the travel and tourism industry respond to the terrorist attacks on America? The recent terrorist attacks in the United States and their repercussions for the travel and leisure industries have focused more attention on tourism safety and security issues than ever before. The impact on tourism destinations and businesses as well as on traveler behavior will be significant. Recent events require further analysis not only of how travel safety may be improved but also how security issues may be seen in terms of tourism marketing and management so that the industry is able to better respond to such challenges. In this, an era of turbulent global relationships, the need for destination marketing organizations to demonstrate that they are safe for tourists has become increasingly important. Negative publicity often unrelated to on the ground reality may also serve to affect tourist perceptions. *Safety and Security in Tourism: Relationships, Management and Marketing* examines the effects of the September 11, 2001 attacks on the tourism industry and how the industry is responding; the importance of safety as a factor in destination or activity choice; case studies of destination and business responses to past political instability and/or attacks against tourists; safety, security and destination image; the role of the media in influencing consumer perceptions of travel safety; consumer awareness of travel advisories and their influence on behavior; the role of insurance in the travel industry; consumer awareness and acceptance of security measures in travel and tourism; safety and security as a component in destination
