Ill. by Hermann Greissle Dagobert David Runes, 1961 The Myth of the Twelve <u>Tribes of Israel</u> Andrew Tobolowsky, 2022-03-17 The Myth of the Twelve Tribes of Israel is the first study to treat the history of claims to an Israelite identity as an ongoing historical phenomenon from biblical times to the present By treating the Hebrew Bible's accounts of Israel as one of many efforts to construct an Israelite history rather than source material for later legends Andrew Tobolowsky brings a long term comparative approach to biblical and nonbiblical Israelite histories In the process he sheds new light on how the structure of the twelve tribes tradition enables the creation of so many different visions of Israel and generates new questions How can we explain the enduring power of the myth of the twelve tribes of Israel How does becoming Israel work why has it proven so popular and how did it change over time Finally what can the changing shape of Israel itself reveal about those who claimed it The Jewish Story Finder Sharon Barcan Elswit, 2012-08-02 Storytelling as oral tradition and in writing has long played a central role in Jewish society Family educators and clergy employ stories to transmit Jewish culture traditions and values This comprehensive bibliography identifies 668 Jewish folktales by title and subject summarizing plot lines for easy access to the right story for any occasion Some centuries old and others freshly imagined the tales include animal fables supernatural yarns and anecdotes for festivals and holidays Themes include justice community cause and effect and mitzvahs or good deeds This second edition nearly doubles the number of stories and expands the guide s global reach with new pieces from Turkey Morocco Libya Tunisia and Chile Subject cross references and a glossary complete the volume a living tool for understanding the ever evolving world of **Jewish folklore** Studies in Jewish and World Folklore Haim Schwarzbaum, 2015-09-25 No detailed description available for Studies in Jewish and World Folklore Catalogue of English Bible Translations William J. Chamberlin, 1991-12-10 While other Bible catalogs are available this comprehensive reference book is destined to become the standard in the field Chamberlin's one volume work traces the publication history of multiple editions of Bible translations and offers valuable decriptive annotations The catalog not only includes complete Bibles but also Old and New Testaments partial texts

commentaries that include translations children's Bibles Apocryphal writings and the Koran as well Other bibliographies are usually limited to editions commonly found in academic libraries but Chamberlin's guide also includes Bibles found in private collections Overall this catalogue contains more than five times as many entries of different English translations as two other Bible bibliographies those by Hill and Herbert combined The entries are grouped in 151 categories and within each category entries are listed in chronological order. The accompanying annotations identify the translator and provide an overview of the contents of each work The detailed indexes make this bibliography a convenient tool for researchers Bible scholars collectors and rare book dealers will find this catalogue a necessary addition to their libraries **Creating a Judaism Without Religion** Daniel S. Breslauer, 2001-09 This book examines how some modern and contemporary Jewish thinkers and writers have imagined a Judaism without the boundaries and restrictions that go by the name of religion The book offers scholarly insights into some Jewish thinkers notably Martin Buber and Eugene Borowitz some Jewish writers in particular the poet Hayyim Nahman Bialik and the Yiddish author I L Peretz The study also introduces more contemporary thinkers and writers such as the postmodernist Jacques Derrida the contemporary Israeli novelist David Grossman and the young Israeli poet Ilan Sheinfeld While of scholarly interest the ten chapter work has more general appeal as a way of conceiving Jewish living outside the restrictions of religion One third of the book suggests a way of looking at God and theology as part of the process of living rather than as fixed realities Another third explores how Jewish culture can be liberated from the restrictions of nationalism and parochialism The final third focuses on a postmodern ethics of the self that emerges from face to face meetings with others The author contends that the future Judaism has created will be pluralistic diverse and oriented toward the future **Catalogue** American Friends of the Middle East. Gene Matlock, 2008-04 All the races of men along with their gods descend from Japhet son of Noah The Hebrew and Hindu holy books say that all our deities and religions came from a race of spacemen from Outer Space to keep mankind from devolving to animal level It was then and later too that the Nephilim appeared on earth when the divine beings cohabited with the daughters of men Genesis 6 4 The ancient Hindus and Turks called them Navalin Star Ship People and Anunaka Anunaki One who is from the Sky From the Place of No Pain The Sumerians Mesopotamians and Akkadians called them Anunaki Sky Gods People of Heaven and Earth The divine strangers appointed the tribe of Japhet or the Sanskrit Jyapeti to rule the earth This divine right of kingship extended also to their close relatives the Yadu Yadava and Yahuda Jews The divine religions they inherited were Judaism Christianity Hinduism Buddhism and Jainism all of which originated in Siberia But things went wrong Mankind kept getting worse Men started to deny that Christaya Kurus and Aryans as they were called originated from Mt Meru in Southern Siberia The ancient Jews insisted that mankind had spread from the Tower of Babylon which was just a symbol of Meru The Hindus likewise insisted that their Gods were home grown and not from Outer Space Yet the story might be true It extended over the entire Eastern Hemisphere Catalog of Copyright Entries.
