Abstract David Friedrich Strauß, Father of Unbelief Frederick C. Beiser,2020-08-27 David Friedrich Strauss is a central figure in 19th century intellectual history The first major source for the loss of faith in Christianity in Germany his work *Das Leben Jesu* was the most scandalous publication in Germany during his time His book was a critique of the claims to historical truth of the New Testament which had been the mainstay of Protestantism since the Reformation As the father of unbelief his critique of Christianity preceded that of Nietzsche Marx Feuerbach and Schopenhauer His views imposed a harsh fate upon him he was persecuted for his beliefs by religious and political authorities and was denied employment in the university and government forcing him to live as a free lance writer He led a wandering and isolated life as an outcast Here Frederick C Beiser studies the intellectual development of Strauss and recounts his fate which began in faith as a young man but finally ended in unbelief **Catholic World** ,1919 *University of Pennsylvania Bulletin* University of Pennsylvania,1911

The Imperial Cult and the Development of Church Order Revd Allen Brent,2015-12-22 Recent studies have re assessed Emperor worship as a genuinely religious response to the metaphysics of social order Brent argues that Augustus revolution represented a genuinely religious reformation of Republican religion that had failed in its metaphysical objectives Against

this backcloth Luke John the Seer Clement Ignatius and the Apologists refashioned Christian theology as an alternative answer to that metaphysical failure Callistus and Pseudo Hippolytus gave different responses to Severan images of imperial power The early Monarchian theology of the Trinity was thus to become a reflection of imperial culture and its justification that was later to be articulated both in Neo Platonism and in Cyprian's view of episcopal Order Contra cultural theory is employed as a sociological model to examine the interaction between developing Pagan and Christian social order

Writing and Difference Jacques Derrida, 2021-01-27 First published in 1967 Writing and Difference a collection of Jacques Derrida's essays written between 1959 and 1966 has become a landmark of contemporary French thought In it we find Derrida at work on his systematic deconstruction of Western metaphysics The book's first half which includes the celebrated essay on Descartes and Foucault shows the development of Derrida's method of deconstruction In these essays Derrida demonstrates the traditional nature of some purportedly nontraditional currents of modern thought one of his main targets being the way in which structuralism unwittingly repeats metaphysical concepts in its use of linguistic models The second half of the book contains some of Derrida's most compelling analyses of why and how metaphysical thinking must exclude writing from its conception of language finally showing metaphysics to be constituted by this exclusion These essays on Artaud Freud Bataille Hegel and Lévi Strauss have served as introductions to Derrida's notions of writing and difference the untranslatable formulation of a nonmetaphysical concept that does not exclude writing for almost a generation of students of literature philosophy and psychoanalysis Writing and Difference reveals the unacknowledged program that makes thought itself possible In analyzing the contradictions inherent in this program Derrida goes on to develop new ways of thinking reading and writing new ways based on the most complete and rigorous understanding of the old ways Scholars and students from all disciplines will find Writing and Difference an excellent introduction to perhaps the most challenging of contemporary French thinkers challenging because Derrida questions thought as we know it

The Dilemma of Our Times (Works of Harold J. Laski) Harold J. Laski, 2014-10-24 This book originally published in 1952 unfinished and perhaps imperfect is the last book of one of the most acute political thinkers of the twentieth century Laski's earlier optimism about a swing to the Left was beginning to be reversed and in this volume he saw the defects of his previous optimistic surveys which in his opinion still had value but needed to be brought up to date and consequently he began to write an additional chapter which was never completed It remains a valuable last word of an author who for thirty years was respected and listened to on the topic of civilisation's survival through change
