Vincent L. Wimbush

New Vigilantes:

Yesterday's Monsters Hadar Aviram, 2020-02-18 In 1969 the world was shocked by a series of murders committed by Charles Manson and his family of followers Although the defendants were sentenced to death in 1971 their sentences were commuted to life with parole in 1972 since 1978 they have been regularly attending parole hearings Today all of the living defendants remain behind bars Relying on nearly fifty years of parole hearing transcripts as well as interviews and archival materials Hadar Aviram invites readers into the opaque world of the California parole process a realm of almost unfettered administrative discretion prison programming inadequacies high pitched emotions and political pressures Yesterday's Monsters offers a fresh longitudinal perspective on extreme punishment *Radical Religion in America* Jeffrey Kaplan, 1997-01-01 The burning in Waco of the Branch Davidian compound and the Oklahoma City bombing have heightened fear of American extremist groups Jeffrey Kaplan combines interviews correspondence and publications not hitherto accessible to examine the cultic milieu in which these religious movements exist Kaplan discusses several radical belief systems but concentrates on three of the more prominent groups They include the Christian Identity whose members believe they are the true Aryan descendants of Israeli biblical tribes Odinism and the related Asatru movement which attempts to reconstruct the practices of Norse Germanic paganism and B bai Noah the anti Christian movement in favor of God's covenant with Noah To explain the existence and durability of religious cults he applies the philosophy of Colin Campbell From Martin Marty he employs the mapping theory to place the movements in the sphere of American spirituality His work details how the groups interact the internal organizational friction and how the private anti cult groups the Anti Defamation League Klanwatch and Cult Awareness Network monitor the activity of the movements He argues that right wing violence is primarily an impulsive act carried out by part time revolutionaries against convenient targets or against that which represents change in the status quo Thought provoking in his analysis Kaplan lays bare the issues for current debate how sectarian organizations far outside the mainstream of American religious life pose a significant challenge to prevailing conceptions of the First Amendment He questions the extent to which even the most antagonistic and despised groups can carry out fanatical actions and still benefit from such protection **Bearing False Witness?** Douglas E. Cowan, 2003-05-30 From Hare Krishna to the Latter Day Saints and from Jehovah's Witnesses to the New Age religious pluralism in North America presents evangelical Protestantism with significant challenges Declaring newer religious groups cults aberrant sects and heretical religions the Christian countercult movement has warned that these groups represent a threat to society In *Bearing False Witness* R Cowan considers the Christian countercult as a whole locating it in sociological perspective as an entity distinct from the secular anti cult Through his analysis the author argues that the primary purpose of the countercult movement is to reinforce and repair the Christian worldview when it appears threatened by the advent of alternative religious traditions This unique analysis of the Christian countercult helps explain why conservative Christian responses to

competing religious movements have taken the form that they have in addition to how those responses are carried out Unlike the anti cult movement which is concerned with removing individuals from cults and returning them to their families the Christian countercult movement according to the author attempts not only to remove cultists from the negative influences of the cults to which they belong but also to insure that they will join the particular version of Christianity adhered to by the countercultists themselves Beginning with the countercult s early history the author provides an historical account of the movement and its present activities Since the rise of new religious movements the growing interest in religions imported from outside North America and the broadening of the religious marketplace continues to grow understanding the Christian countercult and its presence as a countervailing pressure to these increasingly socioreligious dynamics becomes ever more important

The Oxford Handbook of Religious Conversion Lewis R. Rambo, Charles E. Farhadian, 2014-03-06 The Oxford Handbook of Religious Conversion offers a comprehensive exploration of the dynamics of religious conversion which for centuries has profoundly shaped societies cultures and individuals throughout the world Scholars from a wide array of religions and disciplines interpret both the varieties of conversion experiences and the processes that inform this personal and communal phenomenon This volume examines the experiences of individuals and communities who change religions those who experience an intensification of their religion of origin and those who encounter new religions through colonial intrusion missionary work and charismatic and revitalization movements The thirty two innovative essays provide overviews of the history of particular religions including Hinduism Buddhism Confucianism Taoism Sikhism Islam Christianity Judaism indigenous religions and new religious movements The essays also offer a wide range of disciplinary perspectives psychological sociological anthropological legal political feminist and geographical on methods and theories deployed in understanding conversion and insight into various forms of deconversion

Regulating Religion James T. Richardson, 2012-12-06 *Regulating Religion Case Studies from Around the Globe* presents through the inclusion of contributions by international scholars a global examination of how a number of contemporary societies are regulating religious groups It focuses on legal efforts to exert social control over such groups especially through court cases but also with selected major legislative attempts to regulate them As such this analysis falls within the broad area of the sociology of social control and more specifically legal social control a topic of great interest when studying how contemporary societies attempt to maintain social order The factual details about social and legal developments in societies where religion has been defined as problematic include Western and Eastern Europe Asia Oceania and the Americas This book will be of interest to researchers and students in the sociology of religion the sociology of law social policy and religious studies as well as policy makers

The Darkest Sides of Politics, II Jeffrey M. Bale, 2017-10-04 This book examines a wide array of phenomena that arguably constitute the most noxious extreme terrifying murderous secretive authoritarian and or anti democratic aspects of national and international politics Scholars should not ignore these dark sides of politics however unpleasant they

may be since they influence the world in a multitude of harmful ways The second volume in this two volume collection focuses primarily on assorted religious extremists including apocalyptic millenarian cults Islamists and jihadist terrorist networks as well as CBRN chemical biological radiological and nuclear terrorism and the supposedly new nexus between organized criminal and extremist groups employing terrorist operational techniques A range of global case studies are included most of which focus on the lesser known activities of certain religious extremist milieus This collection should prove to be essential reading for students and researchers interested in understanding seemingly arcane but nonetheless important dimensions of recent historical and contemporary politics

The Acadians James Laxer, 2010-05-14 An evocative and beautifully written history of some of Canada's earliest settlers and their search for a definitive home In 1604 a small group of migrants fled political turmoil and famine in France to start a new colony on Canada's east coast Their roughly demarcated territory included what are now Canada's Maritime provinces land that was fought over by the British and French empires until the Acadians were finally expelled in 1755 Their diaspora persists to this day *The Acadians* is the definitive history of a little known part of the North American past and the quintessential story of a people in search of their identity In the absence of a state what defines an Acadian is elusive and while today's Acadian community centred in New Brunswick is more confident than ever it is entering a contentious debate about its future James Laxer's compelling book brilliantly explores one of Canada's oldest and most distinct cultural groups and shows how their complex often tragic history reflects the larger problems facing Canada and the world today

The Bible and the American Myth Vincent L. Wimbush, 2012-03-01 *The Bible and the American Myth* challenges the academic study of the Bible to orient itself to cultural criticism The essays model an approach to the study of the Bible that entails efforts to fathom not only the meanings of texts but the role of texts in the construction of meaning It is all the more fascinating and poignant that the essayists are students of theology of varied backgrounds What they have in common is the pursuit of theological studies at the mouth of Harlem This location at the turn of the century inspired them to think differently about the focus and agenda of theological studies especially biblical studies Each essayist is convinced that the study of the Bible should entail the study of cultural construction and deconstruction the study of the making and unmaking of cultural myths that shape existence

The Satanism Scare Joel Best, 2017-09-29 Although there is growing concern over Satanism as a threat to American life the topic has received surprisingly little serious attention Recognizing this the editors of this volume have selected papers from a wide variety of disciplines broadly covering contemporary aspects of Satanism from the vantage points of studies in folklore cults religion deviance rock music rumor and the mass media All contributors are skeptical of claims that a large powerful satanic conspiracy can be substantiated Their research focuses instead on claims about Satanism and on the question of whose interests are served by such claims Several papers consider the impact of anti Satanism campaigns on public opinion law enforcement and civil litigation child protection services and other sectors of American society The constructionist

perspective adopted by the editors does not deny the existence of some activities by real Satanists and two papers describe the workings of satanic groups Whatever the basis of the claims examined and analyzed there is growing evidence that belief in the satanic menace will have real social consequences in the years ahead **Advances in the Psychology of Religion**

Michael Argyle, 2013-10-22 This collection of previously unpublished papers written by well known researchers in the psychology of religion is unique in its broad coverage and in its comparison between quite different and strictly theoretical perspectives The subjects range from theoretical analyses of social science perspectives on religion and its methods to reports of experimental correlational or descriptive studies of religious experience and attitudes The emphasis throughout is on the directions in which this work might move in the future **Religion, Rights and Secular Society** Peter Cumper, Tom Lewis, 2012-01-01 Religion Rights and Secular Society by Peter Cumper and Tom Lewis is a both timely and important publication In a series of highly interesting and well written essays some of which are case studies covering many different European nations whereas others are more theoretical the book looks at a key paradox in contemporary Europe the relatively high levels of secularity in most European countries on the one hand and the marked resurgence of religion in public debates on the other While never pretending that there are ready answers to the problems of reconciling secular and religious values in Europe the contributors make it quite clear that Europeans need to return to questions about religion that they had previously regarded as being settled This is food for thought at a very high level Helle Porsdam University of Copenhagen Denmark This topical collection of chapters examines secular society and the legal protection of religion and belief across Europe both in general and more nation specific terms The expectations of many that religion in modern Europe would be swept away by the powerful current of secularization have not been realised and today few topics generate more controversy than the complex relationship between religious and secular values The religious secular relationship is examined in this book which brings together scholars from different parts of Europe and beyond to provide insights into the methods by which religion and equivalent beliefs have been and continue to be protected in the legal systems and constitutions of European nations The contributors chapters reveal that the oft tumultuous legacy of Europe's relationship with religion still resonates across a continent where legal political and social contours have been powerfully shaped by faith and religious difference Covering recent controversies such as the Islamic headscarf and the presence of the crucifix in school classrooms this book will appeal to academics and students in law human rights and the social sciences as well as law and policy makers and NGOs in the field of human rights **Protectors of Privilege** Frank Donner, 1992-09-30 This landmark exposé of the dark history of repressive police operations in American cities offers a richly detailed account of police misconduct and violations of protected freedoms over the past century In an incisive examination of undercover work in Chicago Los Angeles New York and Philadelphia as well as Washington D C Detroit New Haven Baltimore and Birmingham Donner reveals the underside of American law enforcement **Blind Faith** Chester Dolan, 1995 Rejecting the many magical solutions offered for human

problems Chester Dolan unmasks the folly that has passed for religion throughout history and the many dangers it poses to the human community Dolan urges that the world would be a better place if we could exorcise our presumptuous gods reject the religion of the mystics and realize that our destiny rests with us Krishna Consciousness in the West David G. Bromley, Larry D. Shinn, 1989 Scholars of comparative religion theology philosophy History sociology and psychology and members of the Hare Krishna movement discuss the history theology and organization of the International Society for Krishna Consciousness and public reaction to the movement in America Recovery from Cults Michael D. Langone, 1995 Drawing upon the clinical expertise of professionals and the personal experiences of those formerly involved in high intensity mind control groups this book is a comprehensive guide to the cult experience Michael Langone and his colleagues provide practical guidelines for helping former cult members manage the problems they encounter when leaving cults *Versions of Deconversion* John D. Barbour, 1994 In *Versions of Deconversion* John Barbour examines the work of a broad selection of authors in order to discover the reasons for their loss of faith and to analyze the ways in which they have interpreted that loss For some the experience of deconversion led to another religious faith some turned to atheism or agnosticism and others used deconversion as a metaphor or analogy to interpret an experience of personal transformation The loss of faith is closely related to such vital ethical and theological concerns as the role of conscience the assessment of religious communities the dialectical relationship between faith and doubt and the struggle to reconcile faith with intellectual and moral integrity This book shows the persistence and the vitality of the theme of deconversion in autobiography and it demonstrates how the literary form and structure of autobiography are shaped by ethical critique and religious reflection *Versions of Deconversion* should appeal at once to scholars in the fields of religious studies and theology who are concerned with narrative texts to literary critics and specialists on autobiography and to a wider audience interested in the ethical and religious significance of autobiography Naval Aviation News, 1970 **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office, 1977 **Social Movements in an Organizational Society** Mayer N. Zald, 2017-09-29 First Published in 2017 This book is concerned with the carriers and fate of social movements in modern America It presents an argument that in an organizational society the shape of social movements is closely tied to the technologies forms opportunities and targets created by that society **Religious Conversion** Christopher Lamb, M. Darroll Bryant, 1999-10-01 Conversion has been an important issue for most of the universal religions those usually associated with a founder such as Christianity Buddhism Islam and Judaism which have a mission to spread their message Other religions have been less concerned with conversion except in so far as it has been a negative force for them to confront This study explores how conversion has been understood by different religions during different eras and includes a survey of the textual legal ritual historic and experiential dimensions of the phenomenon of conversion
