Plug In Drug Television Computers And Family Life:

The Plug-In Drug Marie Winn, 2002-03-26 How does the passive act of watching television and other electronic media regardless of their content affect a developing child's relationship to the real world Focusing on this crucial question Marie Winn takes a compelling look at television's impact on children and the family Winn's classic study has been extensively updated to address the new media landscape including new sections on computers video games the VCR the V-Chip and other control devices TV programming for babies television and physical health and gaining control of your TV *"Sesame Street" and the Reform of Children's Television* Robert W. Morrow, 2008-12-08 An accessible well researched introduction to the people and principles behind the show's creation Essential Choice An Outstanding Academic Title of the Year By the late 1960s more than a few critics of American culture groused about the condition of television programming and in particular the quality and content of television shows for children In the eyes of the reform minded commercial television crassly exploited young viewers its violence and tastelessness served no higher purpose than the bottom line The Children's Television Workshop CTW and its fresh approach to writing and producing programs for kids emerged from this growing concern Sesame Street CTW's flagship hour long show aimed to demonstrate how television could help all preschoolers including low income urban children prepare for first grade In this engaging study Robert W Morrow explores the origins and inner workings of CTW how the workshop in New York scripted and designed Sesame Street and how the show became both a model for network television and a thorn in its side Through extensive archival research and a systematic study of sample programs from Sesame Street's first ten seasons Morrow tells the story of Sesame Street's creation the ideas techniques organization and funding behind it its place in public discourse and its ultimate and unfortunate failure as an agent of commercial television reform An insightful look at American children's television Library Journal Little Madnesses Annette Kuhn, 2013-02-21 Little madnesses are our most deeply felt enthusiasms investments and attachments in the sphere of culture The term was coined by the child psychoanalyst Donald Winnicott whose work on transitional phenomena grew out of his naming of the transitional object and extended into preliminary explorations of the crucial role played by cultural experience in a life that feels satisfying In our socially and culturally sanctioned little madnesses everyone can find relief from the burden of having to maintain a clear boundary between inner and outer worlds fantasy and reality because it is in the space between them that we can find the enthusiasms and passions that excite our creative imaginations This idea offers intriguing pathways towards understanding how we can engage effectively with the world at a public social level without setting aside our inner lives our emotions and our most deeply felt attachments In Little Madnesses writers artists scholars and experts in a range of fields and disciplines explore the idea of transitional phenomena and consider its potential to extend and deepen our understanding of cultural experience in mental and social life focusing on the importance of space place and boundaries in cultural experience on how we can negotiate media use and cultural identity and on the

aesthetic and creative aspects of cultural experience Topics covered include cult films computer use installation art trips to the cinema museums and galleries the agony and ecstasy of making art and the significance of life stage in cultural experience

Posthuman Buddhism and the Digital Self Les Roberts, 2023-09-20 In *Posthuman Buddhism and the Digital Self* Les Roberts extends his earlier work on spatial anthropology to consider questions of time spaciousness and the phenomenology of self Across the book's four main chapters which range from David Bowie's long standing interest in Buddhism to street photography of 1980s Liverpool to the ambient soundscapes of Derek Jarman's *Blue* or to the slow contemplative cinema of Tsai Ming Liang Roberts lays the groundwork for the concept of dwellspace as a means by which to unpick the shifting spatial temporal and experiential modalities of everyday mediascapes Understood as a particular disposition towards time Roberts's foray into dwellspace proceeds from a Pascalian reflection on the self non self in which being content in an empty room vies with the demands of having content in an empty room Taking the idea of posthuman Buddhism as a heuristic lens Roberts sets in motion a number of interrelated lines of enquiry that prompt renewed focus on questions of boredom distraction and reverie and cast into sharper relief the psychosocial and creative affordances of ambience spaciousness and slowness The book argues that the colonisation of empty time by 24/7 digital capitalism has gone hand in hand with the growth of the corporate mindfulness industry and with it the co-option commodification and digitisation of dwellspace *Posthuman Buddhism* is thus in part an exploration of the dialectics of dwellspace that orbits around a creative self praxis rooted in the negation and dissolution of the self one of the foundational cornerstones of Buddhist theory and practice

What Makes Kids Kick Fran Kick, 2005 *What Makes Kids Kick* is the groundbreaking first book in Fran Kick's insightful series exploring the Millennial Generation This essential guide serves as a comprehensive compass for educators youth group leaders parents coaches and anyone working with today's postmodern kids born between 1980-2000 Drawing from over two decades of nationwide experience speaking and working with both young people and the adults who guide them author Fran Kick delivers a unique blend of research backed insights and real world wisdom The book weaves together an extensive collection of studies surveys research articles and news stories with compelling personal anecdotes to create a fresh framework for understanding this dynamic generation *What Makes Kids Kick* goes beyond surface level observations to explore the deeper influences and inspirational factors shaping Millennial minds Readers will discover the cultural technological and social forces that drive today's youth gaining valuable perspective on what motivates and inspires them This engaging and informative resource transforms how adults view and interact with the Millennial Generation Rather than focusing on generational gaps or challenges Kick provides practical strategies for raising teaching managing leading and mentoring young people more effectively The book's ultimate goal is empowering adults to help cultivate a more self motivated generation of kids one equipped with the attitude and skills necessary to KICK IT IN TAKE THE LEAD Whether you're struggling to connect with young people in your classroom home or community this book offers

the tools and understanding needed to bridge generational divides and unlock their potential What Makes Kids Kick is both entertaining and educational making complex generational research accessible and actionable It s an indispensable resource for anyone committed to understanding and successfully working with the Millennial Generation *Engaging Imagination and Developing Creativity in Education (2nd Edition)* Kieran Egan,Gillian Judson,Krystina Madej,2015-09-10 Imagination is the source of creativity and invention This volume of essays has been collected expressly to bring readers new ideas about imagination and creativity in education that will both stimulate discussion and debate and also contribute practical ideas for how to infuse daily classrooms with imaginative activities Researchers and educators around the world have taken up the discussion about the importance of imagination and creativity in education This global relevance is represented here by writings from authors from Brazil Canada China Denmark Italy Israel Japan and Romania In the first part of the book these authors explore and discuss theories of development imagination and creativity In the second part they extend these theories to broader social issues including responsible citizenship gender and special needs education and to new approaches to teaching curriculum subjects such as literacy science and mathematics as well as to the educational environment of the museum Since the first edition of this book Imaginative Education IE has developed increasingly accessible strategies for teachers to routinely engage imagination in everyday practice New essays for the second edition include discussions about increasing political consciousness improving teacher education and using mathematical evaluation in Part I and phenomenological approaches to media education in Part II **Teens & The Media** Roger E. Hernandez,2014-09-02 The media have a great influence over the lives of young people helping to determine how they dress what they listen to and how they think This book will explore teens views and experiences with different mediatelevision movies newspapers magazines and the Internetand will examine how each has taken steps in recent years to attract a younger audience **Addicted?** Marilyn Freimuth,2008-05-29 Despite our associating addictions with crazy out of control behavior most addictions go unrecognized Those who suffer from addictions often misinterpret their symptoms as a sign of some other problem Health care professionals who are entrusted by society to identify such problems routinely fail to do so When addictions are recognized they are confined to substance use which overlooks the wide array of activities that engage people in an addictive manner Further when addictions are detected they are in their most advanced and difficult to treat phases In large part this is due to the all or none way we think about addiction either you are addicted or not In reality an addiction does not emerge fully formed what starts out as just having fun gradually over time becomes a problem To limit the devastation created by late stage addictions and reap the benefits of early detection this book provides questionnaires that screen for a wide array of chemical and behavioral addictions at all stages of development Much in the same way we learned the early warning signs of cancer this book explores different ways to recognize the early and often subtle signs of addiction Unlike cancer where people rush to get treatment facing an addiction is associated with guilt and ambivalence To navigate these feelings and get

help the book provides a step by step guide for how to prepare the addicted person be it oneself or someone else to change an addiction

Listening Publics Kate Lacey, 2013-05-03 In focusing on the practices politics and ethics of listening this wide ranging book offers an important new perspective on questions of media audiences publics and citizenship Listening is central to modern communication politics and experience but is commonly overlooked and underestimated in a culture fascinated by the spectacle and the politics of voice Listening Publics restores listening to media history and to theories of the public sphere In so doing it opens up profound questions for our understanding of mediated experience public participation and civic engagement Taking a cross national and interdisciplinary approach the book explores how listening publics have been constituted in relation to successive media technologies from the invention of writing to the digital age It asks how new practices of listening associated with sound and audiovisual media transform a public world forged in the age of print Through detailed histories and sophisticated theoretical analysis Listening Publics demonstrates the embodied and critical activity of listening to be a rich concept with which to rethink the practices politics and ethics of media communication

Communicating with Our Families Jill K. Burk, Maryl R. McGinley, Joel S. Ward, 2022-07-12 Communicating with Our Families Continuity Interruption and Transformation examines how communication technologies are shaping childhood parenthood and families by exploring topics such as parental loneliness family storytelling family technology rules mindful technology usage multigenerational communication and community The scholars in this volume work from a human communication perspective and use various research modes of inquiry including quantitative qualitative and interpretive methods Perhaps the most significant question implied by our contributors in this volume is whether the introduction of new communication technologies will fundamentally alter familial forms and if those new groupings that emerge will resemble what has been generally assumed for several millennia

Hypercrime Michael McGuire, 2007-12-06 Hypercrime develops a new theoretical approach toward current reformulations in criminal behaviours in particular the phenomenon of cybercrime Emphasizing a spatialized conception of deviance one that clarifies the continuities between crime in the traditional physical context and developing spaces of interaction such as a cyberspace this book analyzes criminal behaviours in terms of the destructions degradations or

incursions to a hierarchy of regions that define our social world Each chapter outlines violations to the boundaries of each of these spaces from those defined by our bodies or our property to the more subtle borders of the local and global spaces we inhabit By treating cybercrime as but one instance of various possible criminal virtualities the book develops a general theoretical framework as equally applicable to the as yet unrealized technologies of criminal behaviour of the next century as it is to those which relate to contemporary computer networks Cybercrime is thereby conceptualized as one of a variety of geometries of harm merely the latest of many that have extended opportunities for illicit gain in the physical world Hypercrime offers a radical critique of the narrow conceptions of cybercrime offered by current justice systems and challenges the governing presumptions about the nature of the threat posed by it Runner up for the British Society of Criminology Book Prize 2008

Slow Media Jennifer Rauch, 2018-09-11 Slow Media examines innovative theories and practices that connect mediated life with social and environmental sustainability including mindful use of media green media consumption and other new and compelling perspectives on media s socio cultural impact Jennifer Rauch reveals the surprising connections between human well being the natural world and everyday media choices

Perfect Madness Judith Warner, 2006-02-07 A lively and provocative look at the modern culture of motherhood and at the social economic and political forces that shaped current ideas about parenting What is wrong with this picture That s the question Judith Warner asks in this national bestseller after taking a good hard look at the world of modern parenting at anxious women at work and at home and in bed with unhappy husbands When Warner had her first child she was living in Paris where parents routinely left their children home with state subsidized nannies to join friends in the evening for dinner or to go on dates with their husbands When she returned to the States she was stunned by the cultural differences she found toward how people think about effective parenting in particular assumptions about motherhood None of the mothers she met seemed happy instead they worried about the possibility of not having the perfect child panicking as each developmental benchmark approached Combining close readings of mainstream magazines TV shows and pop culture with a thorough command of dominant ideas in recent psychological social and economic theory Perfect Madness addresses our cultural assumptions and examines the forces that have shaped them Working in the tradition of classics like Betty Friedan s *The Feminine Mystique* and Christopher Lasch s *The Culture of Narcissism* and with an awareness of a readership that turned recent hits like *The Bitch in the House* and Allison Pearson s *I Don t Know How She Does It* into bestsellers Warner offers a context in which to understand parenting culture and the way we live as well as ways of imagining alternatives actual concrete changes that might better our lives

Wrestling and Hypermasculinity Patrice A. Oppliger, 2015-03-21 Professional wrestling revels in its exaggeration of masculinity This hyper masculinity is evident in the physical appearance of wrestlers the sexuality charged and violent moves used in and out of the ring the role assigned to women and the extensive use of weapons such as chains barbed wire and steel folding chairs This study explores the link between watching televised wrestling matches and increases

in verbal aggression rebellion and propensity toward violence and retaliation Wrestling is placed within the larger context of popular culture and other hyper masculine entertainment The book begins with a brief history of professional wrestling a summary of the criticisms of the sport and a discussion of the author s research methods One chapter discusses how gender socialization plays a part in the effects of wrestling on its viewers arguing that wrestling goes beyond the image of physically violent acts to models of interpersonal behavior The expansion of wrestling into storylines outside the ring includes problem situations involving class race homophobia and nationality to which violence is often presented as a solution The book concludes with an investigation of the attractiveness of wrestling and its ability to lure fans back year after year

Connecting Sociology to Our Lives Tim Delaney,2015-11-17 Many introductory texts claim to make sociology relevant to student interests Perhaps no other text has done this so completely and engagingly as *Connecting Sociology to Our Lives* Tim Delaney not only uses popular and contemporary culture examples he explains sociology thoroughly within the frame of the contemporary culture of students a culture shaped by political economic and environmental trends just as much as by today s pop stars This book will help academics to engage their students in sociology through the prism of their own culture It involves students in critical thinking and classroom discussion through the book s many What Do You Think inserts and will inspire them to careers with the book s unique chapter *Sociology s Place in Society Completing the Connection* *Growing Up With Technology* Lydia Plowman,Christine Stephen,Joanna McPake,2010-04-05 This book explores the role of technology in the lives of three and four year old children considering children s experiences at home and in preschool settings from the perspectives of parents practitioners and children *Children's books, brain development, and language acquisition* Ralf Thiede,2018-11-13 This book correlates English speaking children s brain development and acquisition of language with the linguistic input that comes from children s books Drawing from the most current research on the developing brain the author demonstrates how language acquisition is exclusively interactive and highlights the benefit that accrues when that interaction includes the exploratory language play found in early childhood literature Through discussions of specific domains of grammar the relation of these domains to children s literature through scaffolding and the resultant linguistic and cognitive advantages for the child this volume offers an innovative approach to early brain maturation **Understanding Agency** Liz Jeffery,2011-02-23 Using student friendly features such as case studies and a glossary this textbook provides a straightforward introduction to the concept of agency and how it can usefully inform the practice of social welfare *Media Education Goes to School* Allison Butler,2010 *Media Education Goes to School* examines the struggles involved in integrating media education across the curriculum at a small urban school Based on quasi ethnographic research specifically semi formal individual and group interviews with twenty one participants and participant observation the text focuses on how students understand and make meaning of media education in their schools and what they know about urban education and urban school reform The book argues against the neoliberal ethos that continuously harms urban youth and the rhetoric of new

school reform that replicates not heals subjected social positions Media education is a necessity in secondary schooling but it cannot be thoroughly integrated into schools until significant structural changes are made in education this book positions the site of change through the struggles students express with their own experience of education
