Ray Bradbury:

The Stories of Ray Bradbury Ray Bradbury, 1981 **Ray Bradbury** Jonathan R. Eller, William F. Touponce, 2004 This is a textual bibliographical and cultural study of 60 years of Bradbury's fiction. The authors draw upon correspondence with his publishers, agents and friends as well as archival manuscripts to examine the story of Bradbury's authorship over more than half a century.

Becoming Ray Bradbury Jonathan R. Eller, 2011-08-10 **Becoming Ray Bradbury** chronicles the making of an iconic American writer by exploring Ray Bradbury's childhood and early years of his long life in fiction, film, television, radio and theater. Jonathan R. Eller measures the impact of the authors, artists, illustrators and filmmakers who stimulated Bradbury's imagination throughout his first three decades. Unprecedented access to Bradbury's personal papers and other private collections provides insight into his emerging talent through his unpublished correspondence, his rare but often insightful notes on writing and his interactions with those who mentored him during those early years. Beginning with his childhood in Waukegan, Illinois and Los Angeles, this biography follows Bradbury's development from avid reader to maturing author making a living writing for the genre pulps and mainstream magazines. Eller illuminates the sources of Bradbury's growing interest in the human mind, the human condition and the ambiguities of life and death themes that became increasingly apparent in his early fiction. Bradbury's correspondence documents his frustrating encounters with the major trade publishing houses and his earliest unpublished reflections on the nature of authorship. Eller traces the sources of Bradbury's very conscious decisions following the sudden success of *The Martian Chronicles* and *The Illustrated Man* to voice controversial political statements in his fiction. Eller also elucidates the complex creative motivations that yielded *Fahrenheit 451*. **Becoming Ray Bradbury** reveals Bradbury's emotional world as it matured through his explorations of cinema and art, his interactions with agents and editors, his reading discoveries and the invaluable reading suggestions of older writers. These largely unexplored elements of his life pave the way to a deeper understanding of his more public achievements, providing a biography of the mind, the story of Bradbury's self-education and the emerging sense of authorship at the heart of his boundless creativity.
