Reading About Place A Longman Topics Reader:

Writing Places Paula Mathieu, Tim Lindgren, George Grattan, Staci Shultz, 2012 Part of the Longman Topics reader series Writing Places encourages students to examine the locations that define their past present and future As students begin to think critically and to write about these places they realize that location is an enormous part of identity both personally and academically This collection of readings offers a poignant and oftentimes moving variety of essays from writers of all ages styles and backgrounds It is designed to be flexible to any teaching method and any composition class The text is divided into four chapters The first chapter is an introduction for both instructors and students to the concept of writing about place The middle two chapters divide the essays by the period of time represented in the author s work The last chapter provides valuable instruction from start to finish for writing about place It focuses specifically on how to better understand the meaning of place in life and writing Longman Topics are brief attractive readers on a single complex but compelling topic Featuring about 30 full length selections these volumes are generally half the size and half the cost of standard composition readers

Romanticism Gendered Andrea Fischerová, 2020-11-09 This study focuses on the six writing men who have been throughout decades regarded as the alpha and omega of British Romanticism Byron Coleridge Keats Scott Shelley and Wordsworth It sees these men as a representative cohort of their time and examines their letters as results of a reading process Although letters are usually seen as additional sources of reference in literary studies in this book they are treated as the dominant information material correspondence enables to reconsider British Romanticism on the basis of the epistolary communication of the first half of the nineteenth century The target information from the letters are references to women writers and to their writings A detailed analysis of the correspondence manages to answer the question whether male Romantics regarded writing women as provoking from time to time as Duncan Wu assumes and whether the gender identity of the woman author influenced the way male readers read her literary works The examination of the correspondence thus takes a gendered perspective on British Romanticism This approach to the target research data discloses a long list of almost 120 names of women writers from different periods and of different literary genres Whereas the male readers in question have acquired a well established stable long term position within literary history the women were often marginalized even forgotten The study presents plentiful examples proving the discrepancies between what the twenty first century reader regards as the core of women s Romantic literary tradition and what the Romantic reader did The following women writers are discussed in the study in detail Susannah Centlivre Anne Finch Lady Winchelsea Ann Radcliffe Mary Robinson Felicia Hemans Mary Shelley Joanna Baillie Maria Edgeworth Maria Jane Jewsbury Catherine Grace Godwin and Emmeline Fisher

Interpreting Ecclesiastes: Readers Old and New Katherine J. Dell, 2013-09-15 Readers of texts come from all generations from different contexts and with different agendas This book gives a sample of what both ancient and contemporary readers have brought to the book of Ecclesiastes in the quest for illumination of the text and for their own

enlightenment often furnishing their own agenda Debates over meaning are formed shaped and illuminated by the interpreters themselves Part One looks at ancient interpreters and at their methods of approaching the text Jewish and Christian interpreters alike sought to find meaning amongst some of the key puzzles of the book why does the author call himself the son of David and appear to be Solomon when his pen name also seems to be Qoheleth Why the contradictions in content How did such an unorthodox book come to be canonized How did the dualistic contemptus mundi interpretation of the vanity theme perpetuated by Jerome and others come to hold the field for so long And how did Luther and the reformers seek to rectify that approach These questions and others are addressed in this book looking through the lens of past interpretation Part Two acknowledges our increasing self awareness of the importance of method in approaching biblical texts and turns to a sample of modern interpretations from familiar reading groups such as the ecologist the animal theologian the liberationist the post colonialist and the feminist It will be seen that different modern approaches often enlighten the interpretation of specific verses within Ecclesiastes and hence that no one method is a wholesale solution to interpretive concerns
