Ravitch,2007-04-01 Many legal theorists and judges agree on one major premise in the field of law and religion that religion clause jurisprudence is in a state of disarray and has been for some time In *Masters of Illusion* Frank S Ravitch provocatively contends that both hard originalism a strict focus on the intent of the Framers and neutrality are illusory in religion clause jurisprudence the former because it cannot live up to its promise for either side in the debate and the latter because it is simply impossible in the religion clause context Yet these two principles have been used in almost every Supreme Court decision addressing religion clause questions Ravitch unpacks the various principles of religion clause interpretation drawing on contemporary debates such as school prayer and displaying the Ten Commandments on courthouses to demonstrate that the neutrality principle does not work in a pluralistic society When defined by large overarching principles of equality and liberty neutrality fails to account for differences between groups and individuals If however the Court drew on a variety of principles instead of a single notion of neutrality to

decide whether or not laws facilitated or discouraged religious practices the result could be a more equitable approach to religion clause cases Jacqueline Golding,2006-01-01 With over 500 hand picked titles Healing Stories recommends carefully selected books essential for any adult looking to help children cope with their growing pains through reading Featuring the long established children s classics and the most recent library sensations these hand picked stories address kids struggles from the everyday to life changing while offering adults the information they need to make the right choices for their kids Also includes useful tips to make reading fun and helpful for both adults and children
