a broad range of philosophers including Dewey Eisner Greene Hume Plato Kant Langer Read and Schiller The book aims to show how attempts to justify art as a tool for societal and individual improvement fail in advocating art education Ultimately she claims that the arts should be taught because children have the right to receive art education That right stems from the unique nature of art *Rethinking Language Arts* Nina Zaragoza,2013-12-02 In *Rethinking Language Arts Passion and Practice* SecondEdition author Nina Zaragoza uses the form of letters to her students to engage pre service teachers in reevaluating teaching practices thus bringing to life a vision of an alternative classroom environment in which the teacher is the prime mover and creative leader Zaragoza discusses and explains the need for teachers to be decision makers reflective thinkers political beings and agents of social change in order to create a positive and inclusive classroom setting This book is both a critical text that deconstructs the way language arts are traditionally taught in our schools as well as a visionary text with clear no nonsense directions on how to provide much needed change in our schools *Critical Literacy as Resistance* Laraine Wallowitz,2008 *Critical Literacy as Resistance* is a collaborate effort among secondary and university educators from across the United States that addresses questions such as What does a critical literacy classroom look like What various texts are used What strategies do teachers use to encourage students and teacher candidates to recognize how texts construct power and privilege How do educators inspire activism in and out of the classroom This book documents the experiences of scholars and teachers who have successfully bridged theory and practice by applying critical literacy into their respective content areas The authors spell out the difference between critical thinking and critical literacy then show how to write and implement curriculum that incorporates diverse texts and multiple literacies in all content areas including world language and includes the voices of students as they confront issues of race class gender and power The principles and practices laid out here will help teachers use literacy to liberate and empower students both in and outside the classroom by respecting and studying the literacies students bring to school while simultaneously teaching and challenging the literacies of those in power This is a book for pre and in service teachers in all content areas staff developers secondary literacy specialists university professors and anyone interested in social justice *Art for Children Experiencing Psychological Trauma* Adrienne D. Handbook for Achieving Gender Equity Through Education Susan S. Klein,Barbara Richardson,Dolores A. Grayson,Lynn H. Fox,Cheris Kramarae,Diane S. Pollard,Carol Anne Dwyer,2014-05-22 First published in 1985 the Handbook

for Achieving Gender Equity Through Education quickly established itself as the essential reference work concerning gender equity in education. This new expanded edition provides a 20 year retrospective of the field, one that has the great advantage of documenting U.S. national data on the gains and losses in the efforts to advance gender equality through policies such as Title IX, the landmark federal law prohibiting sex discrimination in education. Key features include:

- Expertise: Like its predecessor, over 200 expert authors and reviewers provide accurate, consensus research-based information on the nature of gender equity challenges and what is needed to meet them at all levels of education.
- Content Area Focus: The analysis of gender equity within specific curriculum areas has been expanded from 6 to 10 chapters, including mathematics, science, and engineering.
- Global Diversity Focus: Global gender equity is addressed in a separate chapter, as well as in numerous other chapters.
- The expanded section on gender equity strategies for diverse populations contains seven chapters on African Americans, Latinas/os, Asian and Pacific Island Americans, American Indians, gifted students, students with disabilities, and lesbian, gay, bisexual, and transgender students.
- Action Oriented: All chapters contain practical recommendations for making education activities and outcomes more gender equitable.
- A final chapter consolidates individual chapter recommendations for educators, policymakers, and researchers to achieve gender equity in and through education.

New Material Expanded from 25 to 31 chapters, this new edition includes more emphasis on male gender equity and on sexuality issues, special within-population gender equity challenges, race ability and disability, etc. Coeducation and single-sex education, increased use of rigorous research strategies such as meta-analysis, showing more sex similarities and fewer sex differences, and of evaluations of implementation programs. Technology and gender equity is now treated in three chapters: women's and gender studies, communication skills relating to English, bilingual and foreign language learning, and history, and implementation of Title IX and other federal and state policies. Since there is so much misleading information about gender equity and education, this Handbook will be essential for anyone who wants accurate, research-based information on controversial gender equity issues: journalists, policy makers, teachers, Title IX coordinators, equity trainers, women's and gender study faculty, students, and parents.
