Realism In Revolution

Sandy Petrey

Realism In Revolution:

Realism in Revolution Richard Lack, 1985 Realism and Revolution Sandy Petrey, 1988 Sandy Petrey here looks at the emergence of nineteenth century French realism in the light of the concept of speech acts as defined by J L Austin and as exemplified by the history of the French Revolution Through analysis of the techniques of representation in works by Balzac Stendhal and Zola Petrey suggests that the expression of a truth depends on the same collective forces necessary to change a regime According to Petrey political legitimacy in the Revolution the Empire and the Restoration was established by means of a series of demonstrations that what words say cannot be interpreted without reference to the community to which they speak Petrey first discusses the creation of France's National Assembly in 1789 as a foundational example of how speech acts can bring about historical transformation He then challenges the most powerful twentieth century assault on realist aesthetics Roland Barthes's *S/Z* and also considers the views of such contemporary critics as Jacques Derrida Barbara Johnson and Stanley Fish During the Revolution Petrey says statements of truth were not descriptions of what was but rather exhortations to produce what was not Nineteenth century French fiction represents in literary form a similar collectively authorized linguistic performance the real in realism comes from representing facts not as they are in themselves but as they are produced and rejected in society In the course of illuminating readings of three central realist works Balzac's *Pere Goriot* Stendhal's *The Red and the Black* and Zola's *Germinal* Petrey takes the position that the dilemmas of representation far from being one of realism's blind spots figure among its major narrative subjects Revolution and War Stephen M. Walt, 2013-08-07 Revolution within a state almost invariably leads to intense security competition between states and often to war In *Revolution and War* Stephen M Walt explains why this is so and suggests how the risk of conflicts brought on by domestic upheaval might be reduced in the future In doing so he explores one of the basic questions of international relations What are the connections between domestic politics and foreign policy Walt begins by exposing the flaws in existing theories about the relationship between revolution and war Drawing on the theoretical literature about revolution and the realist perspective on international politics he argues that revolutions cause wars by altering the balance of threats between a revolutionary state and its rivals Each state sees the other as both a looming danger and a vulnerable adversary making war seem both necessary and attractive Walt traces the dynamics of this argument through detailed studies of the French Russian and Iranian revolutions and through briefer treatment of the American Mexican Turkish and Chinese cases He also considers the experience of the Soviet Union whose revolutionary transformation led to conflict within the former Soviet empire but not with the outside world An important refinement of realist approaches to international politics this book unites the study of revolution with scholarship on the causes of war **Revolution, War, and Offensive Realism** Paul Ewenstein, 2011 Total Modernity and the Avant-Garde in Twentieth-Century Chinese Art Minglu Gao, 2011-04-29 A groundbreaking book that describes a distinctively Chinese avant gardism and a modernity that unifies art politics and social

life To the extent that Chinese contemporary art has become a global phenomenon it is largely through the groundbreaking exhibitions curated by Gao Minglu China Avant Garde Beijing 1989 Inside Out New Chinese Art Asia Society New York 1998 and The Wall Reshaping Contemporary Chinese Art Albright Knox Art Gallery 2005 among them As the first Chinese writer to articulate a distinctively Chinese avant gardism and modernity one not defined by Western chronology or formalism Gao Minglu is largely responsible for the visibility of Chinese art in the global art scene today Contemporary Chinese artists tend to navigate between extremes either embracing or rejecting a rich classical tradition Indeed for Chinese artists the term modernity refers not to a new epoch or aesthetic but to a new nation modernity inextricably connects politics to art It is this notion of total modernity that forms the foundation of the Chinese avant garde aesthetic and of this book Gao examines the many ways Chinese artists engaged with this intrinsic total modernity including the 85 Movement political pop cynical realism apartment art maximalism and the museum age encompassing the emergence of local art museums and organizations as well as such major events as the Shanghai Biennial He describes the inner logic of the Chinese context while locating the art within the framework of a worldwide avant garde He vividly describes the Chinese avant garde s embrace of a modernity that unifies politics aesthetics and social life blurring the boundaries between abstraction conception and representation Lavishly illustrated with color images throughout this book will be a touchstone for all considerations of Chinese contemporary art

The Hooded Eagle Peter Bauland, 1968 *Ethics and Counterrevolution* Kermit D. Johnson, 1997 This book is an ethical critique of U S policy and involvement in counterrevolutionary war It rejects the thesis that the end of the Cold War means the end of revolution since revolution is grounded in root causes The defining characteristics of revolutionary war are outlined based on thought ranging from Mao Tse tung to modern counterinsurgency theorists to recent U S national security directives and military publications Underlying doctrines for U S interventions are traced from the Monroe Doctrine and the Roosevelt Corollary to Kennedy s Counterinsurgency Doctrine and the Nixon Doctrine From previous U S war fighting experience and declaratory policy an outline of national policy and strategy for counterinsurgency emerges This policy has been a formula for winning wars not revolutions The book advocates the adoption of a modest political Hippocratic oath of Do no harm and argues that civilizational demilitarization and the root causes for revolution are necessary for the building of true democracy

Theatres of Struggle and the End of Apartheid Belinda Bozzoli, 2019-06-01 This is a compelling study of the origins and trajectory of a legendary black uprising against apartheid the Alexandra Rebellion of 1986 Using insights from the literature on collective action and social movements it delves deep into the rebellion s inner workings It examines how the residents of Alexandra a poverty stricken segregated township in Johannesburg manipulated and overturned the meanings of space time and power in their sequestered world how they used political theatre to convey stage and dramatise their struggle and how young and old residents generated differing ideologies and tactics giving rise to a distinct form of generational politics Theatres of Struggle asks the reader to enter into the world

of the rebels and to confront the moral complexity and social duress they experienced as they invented new social forms and violently attacked old ones

Art and Revolution in Latin America, 1910-1990 David Craven, 2006-01-01 In this uniquely wide ranging book David Craven investigates the extraordinary impact of three Latin American revolutions on the visual arts and on cultural policy The three great upheavals in Mexico 1910 40 in Cuba 1959 89 and in Nicaragua 1979 90 were defining moments in twentieth century life in the Americas Craven discusses the structural logic of each movement s artistic project by whom how and for whom artworks were produced and assesses their legacies In each case he demonstrates how the consequences of the revolution reverberated in the arts and cultures far beyond national borders The book not only examines specific artworks originating from each revolution s attempt to deal with the challenge of socializing the arts but also the engagement of the working classes in Mexico Cuba and Nicaragua with a tradition of the fine arts made newly accessible through social transformation Craven considers how each revolution dealt with the pressing problem of creating a dialogical art one that reconfigures the existing artistic resource rather than one that just reproduces a populist art to keep things as they were In addition the author charts the impact on the revolutionary processes of theories of art and education articulated by such thinkers as John Dewey and Paulo Freire The book provides a fascinating new view of the Latin American revolutionaries from artists to political leaders who defined art as a fundamental force for the transformation of society and who bequeathed new ways of thinking about the relations among art ideology and class within a revolutionary process

The Revolution's Echoes Nomi Dave, 2019-10-02 Music has long been an avenue for protest seen as a way to promote freedom and equality instill hope and fight for change Popular music in particular is considered to be an effective form of subversion and resistance under oppressive circumstances But as Nomi Dave shows us in *The Revolution's Echoes* the opposite is also true music can often support rather than challenge the powers that be Dave introduces readers to the music supporting the authoritarian regime of former Guinean president S kou Tour and the musicians who even long after his death have continued to praise dictators and avoid dissent Dave shows that this isn t just the result of state manipulation even in the absence of coercion musicians and their audiences take real pleasure in musical praise of leaders Time and again whether in traditional music or in newer genres such as rap Guinean musicians have celebrated state power and authority With *The Revolution's Echoes* Dave insists that we must grapple with the uncomfortable truth that some forms of music choose to support authoritarianism generating new pleasures and new politics in the process
