## **Realisms A Nineteenth Century Novel:**

**The Nineteenth-Century Novel: Realisms** Delia Correa Sousa de, 2013-05-13 The essays in this volume trace the experimentation of nineteenth century writers in advancing new modes of realist fiction while revitalizing the inheritance of the Gothic and the Romantic Focusing on some of the most popular novels of the century *Northanger Abbey* *Jayne Eyre* *Dombey and Son* *Middlemarch* *Far from the Madding Crowd* and *Germinal* this attractive volume explores some of the recurring themes in nineteenth century fiction aspiration and vocation social class sexual politics political reform colonialism and commerce This is an ideal introduction to some of the major fictional achievements of the first industrial era and to most of the crucial themes in nineteenth century fiction [Nineteenth-Century Literary Realism](#) Katherine Kearns, 1996-01-26 A challenging rethinking of traditional theories and redefinition of the genre of realism *The Nineteenth-century Novel* Delia da Sousa Correa, 2000 This text explores the scope and variety of the great novels of the 19th century The essays in this collection trace the experimentation of 19th century writers in advancing new modes of realist fiction **Realism's Empire** Geoffrey Baker, 2009 **Empirical Knowledge in the Eighteenth-Century Novel** Aaron R. Hanlon, 2022-11-17 This Element examines the eighteenth century novel's contributions to empirical knowledge Realism has been the conventional framework for treating this subject within literary studies This Element identifies the limitations of the realism framework for addressing the question of knowledge in the eighteenth century novel Moving beyond the familiar focus in the study of novelistic realism on problems of perception and representation this Element focuses instead on how the eighteenth century novel staged problems of inductive reasoning It argues that we should understand the novel's contributions to empirical knowledge primarily in terms of what the novel offered as training ground for methods of reasoning rather than what it offered in terms of formal innovations for representing knowledge We learn from such a shift that the eighteenth century novel was not a failed experiment in realism or in representing things as they are but a valuable system for reasoning and thought experiment *Landscapes of Realism* Dirk Göttsche, Rosa Mucignat, Robert Weninger, 2021-04-15 Few literary phenomena are as elusive and yet as persistent as realism While it responds to the perennial impulse to use literature to reflect on experience it also designates a specific set of literary and artistic practices that emerged in response to Western modernity *Landscapes of Realism* is a two volume collaborative interdisciplinary exploration of this vast territory bringing together leading edge new criticism on the realist paradigms that were first articulated in nineteenth century Europe but have since gone on globally to transform the literary landscape Tracing the manifold ways in which these paradigms are developed discussed and contested across time space cultures and media this first volume tackles in its five core essays and twenty five case studies such questions as why realism emerged when it did why and how it developed such a transformative dynamic across languages to what extent realist poetics remain central to art and popular culture after 1900 and how generally to reassess realism from a twenty first century comparative perspective *Realism* Pam Morris, 2004-06-02 A

clear reader friendly guide to debates around realism this guide is vital reading for students of literature in particular those working on the realist novel      *Realism and Space in the Novel, 1795-1869* Rosa Mucignat, 2016-04-01 Posing new questions about realism and the creative power of narratives Rosa Mucignat takes a fresh look at the relationship between representation and reality As Mucignat points out worlds evoked in fiction all depend to a greater or lesser extent on the world we know from experience but they are neither parasites on nor copies of those realms Never fully aligned with the real world stories grow out of the mismatch between reality and representation those areas of the fictional space that are not located on actual maps but still form a fully structured imagined geography Mucignat offers new readings of six foundational texts of modern Western culture Goethe's *Wilhelm Meister's Apprenticeship* Jane Austen's *Mansfield Park* Alessandro Manzoni's *The Betrothed* Stendahl's *The Red and the Black* Charles Dickens's *Great Expectations* and Gustave Flaubert's *Sentimental Education* Using these texts as source material and supporting evidence for a new and comprehensive theory of space in fiction she examines the links between the nineteenth century novel's interest in creating substantial life like worlds and contemporary developments in science art and society Mucignat's book is an evocative analysis of the way novels marshal their technical and stylistic resources to produce imagined geographies so complex and engrossing that they intensify and even transform the reader's experience of real life places      **The Persistence of Realism in Modernist Fiction** Paul Stasi, 2022-10-06 Demonstrates the persistence of realism's characteristic concerns sympathy melodrama gender and class in the most aesthetically innovative works of modernist fiction      Rendering French Realism Lawrence R. Schehr, 1997-07-01 Realist novels are usually seen as verisimilar representations of the world and even when that verisimilitude is critically examined as it has been by Marxist and feminist critics the criticism has referred to extra literary matters such as bourgeois ideology or defects in the portrayal of women This book takes as its thesis that the point defining realism is the point at which the processes of representation break down a sort of black hole of textuality a rent in the tissue The author argues that our notions of continuity of readability of representability or our ideas about unity and ideological shift or even our notions of what is hidden occulted or absent all come from the nineteenth century realist model itself Instead of assuming representability the author argues that we should look at places where the texts do not continue the representationalist model where there is a sudden falling off an abyss Instead of seeing that point as a shortcoming the author argues that it is equal to the mimetic successes of representation After an initial chapter dealing with the limits and ruptures of textuality the book considers the work of Stendhal from its early state as a precursor to the later realism to *La Chartreuse de Parme* which shows how the act of communication for Stendhal is always made of silences gaps and interruptions The author then reads several works of Balzac showing how he while setting up the praxes of continuity on which his oeuvre depends ruptures the works at various strategic points In a chapter entitled *Romantic Interruptions* works of Nerval and the younger Dumas seemingly unrelated to the realist project are shown to be marked by the ideological

representational and semiotic assumptions that produced Balzac The book concludes with Flaubert looking both at how Flaubert incessantly makes things unfit and how critics even the most perspicacious postmodern ones often try to smooth over the permanent crisis of rupture that is the sign of Flaubert's writing
