

Social Construction of the Field of Entrepreneurship Research

- **What is an Entrepreneurship research?**
 - Entrepreneurship research is, in a sense, caught between two projects: the development of scientific knowledge related to the realities of entrepreneurship, and active participation in those realities.
 - Entrepreneurship research is at one and the same time a strategy employed by members of the field and a stake in their social relations.

Realities Of Americanpalestine Relations

Realities Of Americanpalestine Relations:

The Realities of American-Palestine Relations Frank Edward Manuel, 1975 **Realities of American-Palestine Relations** Manuel, 1949 **Britain and Its Mandate over Palestine** John Quigley, 2022-09-13 Analysis of Britain's role in Palestine has proceeded on the assumption that Britain was lawfully in control of the territory Analysts differ on whether what it did was proper but they agree that Britain had a lawful mandate and that through the League of Nations and that the international community advocated for Jewish territorial rights in Palestine This analysis though widely shared is incorrect Britain had no territorial rights itself to govern Palestine It was there by dint of force of arms The mandate it had over Palestine was initiated unilaterally The mandate was not given to Britain by the League of Nations The League of Nations had no authority over Palestine and in particular nothing it could give to Britain The document that Britain composed for the governance of Palestine was never approved by the League of Nations When in 1947 Britain had to explain the United Nations its legal status in Palestine it resorted to distorting the historical facts in an effort to make it appear it had been in Palestine lawfully **A Companion to U.S. Foreign Relations** Christopher R. W. Dietrich, 2020-03-04 Covers the entire range of the history of U S foreign relations from the colonial period to the beginning of the 21st century A Companion to U S Foreign Relations is an authoritative guide to past and present scholarship on the history of American diplomacy and foreign relations from its seventeenth century origins to the modern day This two volume reference work presents a collection of historiographical essays by prominent scholars The essays explore three centuries of America's global interactions and the ways U S foreign policies have been analyzed and interpreted over time Scholars offer fresh perspectives on the history of U S foreign relations analyze the causes influences and consequences of major foreign policy decisions and address contemporary debates surrounding the practice of American power The Companion covers a wide variety of methodologies integrating political military economic social and cultural history to explore the ideas and events that shaped U S diplomacy and foreign relations and continue to influence national identity The essays discuss topics such as the links between U S foreign relations and the study of ideology race gender and religion Native American history expansion and imperialism industrialization and modernization domestic and international politics and the United States role in decolonization globalization and the Cold War A comprehensive approach to understanding the history influences and drivers of U S foreign relation this indispensable resource Examines significant foreign policy events and their subsequent interpretations Places key figures and policies in their historical national and international contexts Provides background on recent and current debates in U S foreign policy Explores the historiography and primary sources for each topic Covers the development of diverse themes and methodologies in histories of U S foreign policy Offering scholars teachers and students unmatched chronological breadth and analytical depth A Companion to U S Foreign Relations Colonial Era to the Present is an important contribution to scholarship on the history of America's interactions with the world **The Politics of Christian Zionism**

1891-1948 Paul C. Merkley, 2012-10-12 For this book Professor Merkley has researched presidential archives Jewish historical libraries and official Zionist records in the US and in Israel for evidence of the dealings between official Zionists and active Christian Restorationists Much of this record appears here for the first time in print and is linked to the much better known history of the relationship between the official Zionists and the politicians and leaders of the US and Britain

American Zionism: Missions and Politics Jeffrey Gurock, 2014-02-04 The final volume comprises articles which take a look at the political movement for the establishment of a national homeland for the Jewish people The twenty one articles cover subjects such as the historical emergence of Zionism attitudes towards the Zionist and Anti Zionist movements in America and the developments of trusteeship for the Palestine *American Interests and Policies in the Middle East, 1900-1939* John A. DeNovo, 1963-11-29 *American Interests and Policies in the Middle East 1900 1939* was first published in 1963 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions Scholars concerned with the diplomatic history of the United States have largely neglected the subject of American relations with the Middle East during the four decades before World War I With this study Professor DeNovo fills the gap by describing and assessing the United States cultural economic and diplomatic relations with Turkey Persia and the Arab East in that period He traces chronologically and topically the activities of such American interest groups as Protestant missionaries educators philanthropists archaeologists businessmen and technical advisers as well as the official actions of their government The account falls roughly into three chronological periods The first section traces the interest groups through the pre World War I years of political and cultural stirring in the Ottoman Empire and Persia Special attention is given to the Chester Project for railroad development in Turkey The second part deals with the upheavals accompanying World War I and the tasks of peacemaking from the Mudros armistice through the Lausanne settlement of 1923 The latter chapters detail the rise of the Turkish national movement the deepening Persian and Arab nationalism and the accommodation of American cultural and economic groups to these conditions The author points out that before World War II began Americans had acquired a significant interest in Middle Eastern oil and had become emotionally involved in the Arab Zionist tension In 1939 the United States was on the verge of a new phase in its Middle Eastern relations when that region would become more intimately linked to America's national security

American Sea Power in the Old World William N Still, 2018-02-15 This classic study examines the deployment of U S naval vessels in European and Near Eastern waters from the end of the Civil War until the United States declared war in April 1917 Initially these ships were employed to visit various ports from the Baltic Sea to the eastern Mediterranean and Constantinople today Istanbul for the primary purpose of showing the flag From the 1890s on most of the need for the presence of the American warships occurred in the eastern Mediterranean and the Black Sea Unrest in the Ottoman Empire and particularly the Muslim hostility and threats to Armenians led to calls for protection This would continue into the years of

World War I In 1905 the Navy Department ended the permanent stationing of a squadron in European waters From then until the U S declaration of war in 1917 individual ships detached units and special squadrons were at times deployed in European waters In 1908 the converted yacht Scorpion was sent as station ship stationnaire to Constantinople where she would remain operating in the eastern Mediterranean and Black Sea until 1928 Upon the outbreak of World War I President Woodrow Wilson ordered cruisers to northern European waters and the Mediterranean to protect American interests These warships however did more than protect American interests They would evacuate thousands of refugees American tourists Armenians Jews and Italians after Italy entered the conflict on the side of the Allies *A History of the Jews in America* Howard M. Sachar,1993-11-02 Spanning 350 years of Jewish experience in this country A History of the Jews in America is an essential chronicle by the author of The Course of Modern Jewish History With impressive scholarship and a riveting sense of detail Howard M Sachar tells the stories of Spanish marranos and Russian refugees of aristocrats and threadbare social revolutionaries of philanthropists and Hollywood moguls At the same time he elucidates the grand themes of the Jewish encounter with America from the bigotry of a Christian majority to the tensions among Jews of different origins and beliefs and from the struggle for acceptance to the ambivalence of assimilation No Haven for the Oppressed Saul S. Friedman,2017-12-01 No Haven for the Oppressed is the most thorough and the most comprehensive analysis to be written to date on the United States policy toward Jewish refugees during World War II No Haven for the Oppressed is the most thorough and the most comprehensive analysis to be written to date on the United States policy toward Jewish refugees during World War II Friedman draws upon many sources for his history significantly upon papers which have only recently been opened to public scrutiny These include State Department Records at the National Archives and papers relating to the Jewish refugee question at the Roosevelt Library at Hyde Park Such documents serve as the foundation for this study together with the papers of the American Friends Service Committee of Rabbis Stephen Wise and Abba Silver Senator Robert Wagner Secretary Hull and Assistant Secretary of State Breckinridge Long of the American Jewish Archives the National Jewish Archives and extensive interviews with persons intimately involved in the refugee question Professor Friedman describes America s pre war preoccupation with economic woes immigrants particularly Jewish immigrants were viewed as competitors for scarce jobs President Franklin D Roosevelt although personally sympathetic to the dilemma of Jews was not willing to risk public and congressional support for his domestic programs by championing legislation or diplomacy to increase Jewish immigration The court packing scandal and the unsuccessful purge of Southern Democrats had left his popularity at an all time low Jewish leaders were equally unwilling to antagonize the American public by strong advocacy of the Jewish cause They feared anti Semitic backlash against American Jews and worried that their own 100 percent loyalty to the nation might be questioned Although he takes issue with authors who propose that anti Semitism at the highest levels of the State Department was the major block to the rescue of the Jews Friedman demonstrates that some officials continually

thwarted rescue plans He suggests that a disinclination to sully themselves in negotiations with the Nazis and a fear that any ransom would prolong the global conflict caused the Allies to offer only token overtures to the Nazis on behalf of the Jews
